

Functional Requirements

Instruction to vendor: Please fill up yellow boxes only.

FR ID	Main/Process Component	Sub/Activity	Capability/ Requirement/ Function	SCORE	Describe how to implement and support requirements	REMARKS
CORE SYSTEM FUNCTIONAL REQUIREMENTS						
PRODUCT/SERVICES MANAGEMENT 1	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Product creation (with customizable attributes and parameters) for Trust Products			
PRODUCT/SERVICES MANAGEMENT 2	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Setup for Unit Investment Trust Fund (UITF) as a security (ie. UITF Product Provider functions)			
PRODUCT/SERVICES MANAGEMENT 3	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	UITF with multi-class, with multi currency, and income paying features			
PRODUCT/SERVICES MANAGEMENT 4	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Maintain reference or parameter tables to facilitate processing of activities and events at various frequencies (Easy Investment Plan / Easy Redemption Plan) Ex. Frequencies of contribution / redemptions			
PRODUCT/SERVICES MANAGEMENT 5	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Valuation of transactions based on specified parameters (Ex. Market Value, Pricing, Cash & Security Settlement). For Feeder Funds and selected investment outlets - Cash & Unit Settlements falling on different dates.			
PRODUCT/SERVICES MANAGEMENT 6	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Provide real time fund analytics (asset exposure, performance / risk metrics, portfolio / scenario simulations, etc.) Ex. UITF Funds			
PRODUCT/SERVICES MANAGEMENT 7	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Regulate the timing of the automated process based on pre-defined and parameterized frequencies for Easy Investment Plan / Easy Redemption Plan (Ex. Monthly - 5th, 10th, 15th, 20th, 30th; Bi-Monthly - 5th & 20th)			
PRODUCT/SERVICES MANAGEMENT 8	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Parameterized investment in different securities (ie. Equities, Fixed Income and Time deposit) based on defined transactions types			
PRODUCT/SERVICES MANAGEMENT 9	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Parameterized Auto-invest facility of IMA/TA with bond maturities into a BDO UITF (money market fund) for funds awaiting disposition.			
PRODUCT/SERVICES MANAGEMENT 10	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Ability for IMA/TA to have a primary account and several sub accounts for proper portfolio-based investing, housing different portfolios/assets in one account (ie. One IMA Account with various portfolios)			
PRODUCT/SERVICES MANAGEMENT 11	PRODUCT/SERVICES MANAGEMENT	Product/Services Creation	Facility to accept non-financial assets (ie. Real Properties, Insurance Policies, and Other Miscellaneous Assets)			
PRODUCT/SERVICES MANAGEMENT 12	PRODUCT/SERVICES MANAGEMENT	Product/Services Maintenance	Product maintenance (with customizable attributes and parameters) for Trust Products			
PRODUCT/SERVICES MANAGEMENT 13	PRODUCT/SERVICES MANAGEMENT	UITF - Unit Investment Trust Fund	Facility to setup scheduled orders (ie. admission/redemptions on UITF)			
PRODUCT/SERVICES MANAGEMENT 14	PRODUCT/SERVICES MANAGEMENT	UITF - Unit Investment Trust Fund	Redemption computation based on specified parameters (UITF / EIP / ERP)			
PRODUCT/SERVICES MANAGEMENT 15	PRODUCT/SERVICES MANAGEMENT	UITF - Unit Investment Trust Fund	Validation of UITF NAVPU allocation on holiday (i.e. Bank holiday, Fund holiday)			
PRODUCT/SERVICES MANAGEMENT 16	PRODUCT/SERVICES MANAGEMENT	UITF - Unit Investment Trust Fund	Allow definition and automatic determination of various settlement terms (provides for theoretical settlement or automatic actual settlement). Settlement date options, T + 0, T + 1, etc.			
PRODUCT/SERVICES MANAGEMENT 17	PRODUCT/SERVICES MANAGEMENT	UITF - Unit Investment Trust Fund	System to allow creation of subscription plans for UITFs			
PRODUCT/SERVICES MANAGEMENT 18	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set up rules for gratuity calculations			
PRODUCT/SERVICES MANAGEMENT 19	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set up tax structure			
PRODUCT/SERVICES MANAGEMENT 20	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set-up Tax exemption rules			
PRODUCT/SERVICES MANAGEMENT 21	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set-up Income distribution rules			
PRODUCT/SERVICES MANAGEMENT 22	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to identify different transaction types while posting Cash in / out transactions on specified transaction types.			
PRODUCT/SERVICES MANAGEMENT 23	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to handle Inter scheme transfer (IST) on demand (adhoc) or scheduled events			

PRODUCT/SERVICES MANAGEMENT 24	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Capable of handling Balance calculation for Income distribution			
PRODUCT/SERVICES MANAGEMENT 25	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Provide working sheet to show how balance was derived for each employee			
PRODUCT/SERVICES MANAGEMENT 26	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to manually post /upload in / out entries into individual Account heads in Employee account.			
PRODUCT/SERVICES MANAGEMENT 27	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to rectify a balance or insert an entry if an upload fails etc.			
PRODUCT/SERVICES MANAGEMENT 28	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to post cash in and out in General Reserve Fund			
PRODUCT/SERVICES MANAGEMENT 29	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to capture posting and value date			
PRODUCT/SERVICES MANAGEMENT 30	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Capable to identify reinstatement while posting Contribution. Capable of validating if employee is allowed to re-contribute again after withdrawal. Parameter to include number of years, months or days or a certain cut off date to allow a member to reinstate membership in the fund to be able to contribute again.			
PRODUCT/SERVICES MANAGEMENT 31	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to reverse/ re-do posted uploads or transactions of prior periods			
PRODUCT/SERVICES MANAGEMENT 32	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to edit Tax rates/ Tax Table to comply with regulatory issuances			
PRODUCT/SERVICES MANAGEMENT 33	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to shift from tax type to another tax type (e.g. final tax to compensation tax)			
PRODUCT/SERVICES MANAGEMENT 34	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Validations of duplicate withdrawals, duplicate rules, other set up			
PRODUCT/SERVICES MANAGEMENT 35	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Validations on eligibility of separating employee			
PRODUCT/SERVICES MANAGEMENT 36	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to add other types of benefits e.g. converted unused Leaves, Collective Bargaining Agreement benefits, honoraria pay etc			
PRODUCT/SERVICES MANAGEMENT 37	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to add/ edit reason/ nature of separation			
PRODUCT/SERVICES MANAGEMENT 38	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Interfacing of loan balances (from bank's Loan system to Employee Benefit Trust (EBT))			
PRODUCT/SERVICES MANAGEMENT 39	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to edit/update Loan balances			
PRODUCT/SERVICES MANAGEMENT 40	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to edit/ update plan rules set up (e.g. add Employer {ER} if new member of multi-ER set up)			
PRODUCT/SERVICES MANAGEMENT 41	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to bypass rules if client/ 3rd party provides the retirement benefit calculation			
PRODUCT/SERVICES MANAGEMENT 42	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to determine the higher benefits in case of Minimum benefits/ floor amount required			

PRODUCT/SERVICES MANAGEMENT 43	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility for income withdrawal			
PRODUCT/SERVICES MANAGEMENT 44	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to withdraw from a reserve fund			
PRODUCT/SERVICES MANAGEMENT 45	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to withdraw from Employer (ER) (multi-ER set up)			
PRODUCT/SERVICES MANAGEMENT 46	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to capture Employee (EE) and Employer (ER) TIN for BIR reports			
PRODUCT/SERVICES MANAGEMENT 47	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to consolidate BIR reports per Employee (EE) TIN - if under multiple accounts			
PRODUCT/SERVICES MANAGEMENT 48	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set up/ store client's ca/sa as mode of release to retiring members			
PRODUCT/SERVICES MANAGEMENT 49	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to update employee masters by upload (ca/sa, email address, etc)			
PRODUCT/SERVICES MANAGEMENT 50	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to submit client's reports/ SOA electronically			
PRODUCT/SERVICES MANAGEMENT 51	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Capable of handling rules on Years of Service (YOS) and Creditable Years of Service (CYOS) on specified parameters			
PRODUCT/SERVICES MANAGEMENT 52	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to allow Data entry for loans given by employers to employees.			
PRODUCT/SERVICES MANAGEMENT 53	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Capable of computing gratuity benefits when inputs are provided through data entry			
PRODUCT/SERVICES MANAGEMENT 54	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	In Interim withdrawal screen when the full withdrawal is made, taxes & vesting rights should be calculated			
PRODUCT/SERVICES MANAGEMENT 55	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Capable of handling bulk withdrawal			
PRODUCT/SERVICES MANAGEMENT 56	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	System to have functionality while uploading the contribution file to prompt password and then upload. (Contribution upload file from the employer is password protected).			
PRODUCT/SERVICES MANAGEMENT 57	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to upload contribution information based on prescribed file format			
PRODUCT/SERVICES MANAGEMENT 58	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to upload employee loans tracked in Bank system			
PRODUCT/SERVICES MANAGEMENT 59	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Interfacing of credit to ca/sa to the bank's system			
PRODUCT/SERVICES MANAGEMENT 60	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Interfacing of credit to ca/sa (other Banks) to the bank's system (Pesonet platform)			
PRODUCT/SERVICES MANAGEMENT 61	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Interfacing of check issuances to other system for check auto-printing			

PRODUCT/SERVICES MANAGEMENT 62	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Online viewing of member's Statement of Account (SOA) (with export option)			
PRODUCT/SERVICES MANAGEMENT 63	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Online viewing of member's withdrawable amount			
PRODUCT/SERVICES MANAGEMENT 64	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Online viewing of member's loanable amount in the Statement of Account (SOA)			
PRODUCT/SERVICES MANAGEMENT 65	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Online viewing of clients' Equity reports showing last withdrawal date (report form)			
PRODUCT/SERVICES MANAGEMENT 66	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Online viewing of clients' Equity reports showing Trustee fee and basis of computation including Creditable Withholding Tax (CWT) rate and computation.			
PRODUCT/SERVICES MANAGEMENT 67	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Online viewing of clients' Equity reports showing CWT rate and computation			
PRODUCT/SERVICES MANAGEMENT 68	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set up rules for withdrawals, reinstatement (recontributing) and inter scheme transfer			
PRODUCT/SERVICES MANAGEMENT 69	PRODUCT/SERVICES MANAGEMENT	Employee Benefit Trust (EBT) System/Retirement Benefits/Provident Fund Administration	Facility to set-up Provident fund calculations rules			
PRODUCT/SERVICES MANAGEMENT 70	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Purchase and sale of loans by investor			
PRODUCT/SERVICES MANAGEMENT 71	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Loan contribution / withdrawal (receive free / deliver free)			
PRODUCT/SERVICES MANAGEMENT 72	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Collection of principal and income repayments			
PRODUCT/SERVICES MANAGEMENT 73	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Prepayments, rollovers, and extensions			
PRODUCT/SERVICES MANAGEMENT 74	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Accruals and other financial activities			
PRODUCT/SERVICES MANAGEMENT 75	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Adjustments/amendments to terms			
PRODUCT/SERVICES MANAGEMENT 76	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Outstanding loans monitoring			
PRODUCT/SERVICES MANAGEMENT 77	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Details of the loan			
PRODUCT/SERVICES MANAGEMENT 78	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Mortgage Participation Certificate (MPC) issuances and cancellation			
PRODUCT/SERVICES MANAGEMENT 79	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Loans and collateral revaluations			
PRODUCT/SERVICES MANAGEMENT 80	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Loan availability and availments			
PRODUCT/SERVICES MANAGEMENT 81	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Computation and generation of reports on regular interest and/or principal payments (at least 10 to 15 days before payment date)			
PRODUCT/SERVICES MANAGEMENT 82	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Monitoring of receivables and payables			
PRODUCT/SERVICES MANAGEMENT 83	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Applicable taxes and insurance payments (adequate insurance coverage and payment of real estate taxes of assets included in the collateral pool)			
PRODUCT/SERVICES MANAGEMENT 84	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Nominal value booking in trustors books			
PRODUCT/SERVICES MANAGEMENT 85	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Prompt schedule of interest payments			
PRODUCT/SERVICES MANAGEMENT 86	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Safekeeping of all titles, securities agreements and other pertinent documents			
PRODUCT/SERVICES MANAGEMENT 87	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Monitor sound value of collateral and loans and credit facilities			
PRODUCT/SERVICES MANAGEMENT 88	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Fees, computation, monitoring and billing letters			
PRODUCT/SERVICES MANAGEMENT 89	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Reports generations and letters to creditors			
PRODUCT/SERVICES MANAGEMENT 90	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Documentation tracking			
PRODUCT/SERVICES MANAGEMENT 91	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Should be able to handle different amortization computations for loans (equal Principal+Interest, increasing / decreasing amortization, etc.) plus printing/generation of amortization schedule.			

PRODUCT/SERVICES MANAGEMENT 92	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Allow different principal and interest payment and repricing schedules (with alerts)			
PRODUCT/SERVICES MANAGEMENT 93	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Allow computation of interest penalties for past due loans			
PRODUCT/SERVICES MANAGEMENT 94	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Allow computation of Preterminations penalties			
PRODUCT/SERVICES MANAGEMENT 95	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	Generate list of loan promissory note releases, maturities/forward maturities, rollovers and extensions as needed			
PRODUCT/SERVICES MANAGEMENT 96	PRODUCT/SERVICES MANAGEMENT	Corporate Trust	In the case of retirement funds, allow employee loan programs.			
PRODUCT/SERVICES MANAGEMENT 97	PRODUCT/SERVICES MANAGEMENT	Securities Services	Maintenance of client registry master files like add, change and delete with proper approvals.			
PRODUCT/SERVICES MANAGEMENT 98	PRODUCT/SERVICES MANAGEMENT	Securities Services	Track and log all client communications or interactions (i.e. mails, calls, meetings)			
PRODUCT/SERVICES MANAGEMENT 99	PRODUCT/SERVICES MANAGEMENT	Securities Services	Provide inquiries on master files whether by name, account type , nationality, certificate number, check number or area codes etc. on a particular date.			
PRODUCT/SERVICES MANAGEMENT 100	PRODUCT/SERVICES MANAGEMENT	Securities Services	Creation/ Maintenance of Registry Master Files. With approval functionality for additions, changes and deletion on the master files.			
PRODUCT/SERVICES MANAGEMENT 101	PRODUCT/SERVICES MANAGEMENT	Securities Services	Creation/ Maintenance of Stock Transfer Files			
PRODUCT/SERVICES MANAGEMENT 102	PRODUCT/SERVICES MANAGEMENT	Securities Services	Creation of unique system generated account number or unique client code per stockholder account type (Individual, trading participants, corporation, corporate individual, UGMA accounts or Uniform Gifts to Minors Act, etc.)			
PRODUCT/SERVICES MANAGEMENT 103	PRODUCT/SERVICES MANAGEMENT	Securities Services	Provide additional fields for Name on Registry accounts (Broker controlled accounts and Free account) and CIF account, if applicable (Broker Masterfile)			
PRODUCT/SERVICES MANAGEMENT 104	PRODUCT/SERVICES MANAGEMENT	Securities Services	Provide inquiries on master files whether by name, account type , nationality, certificate number, check number or area codes etc. on a particular date.			
PRODUCT/SERVICES MANAGEMENT 105	PRODUCT/SERVICES MANAGEMENT	Securities Services	Uploading of documents (Ex. Application to subscribe for Initial Public Offering (IPO) & Receiving Agency Accounts)			
PRODUCT/SERVICES MANAGEMENT 106	PRODUCT/SERVICES MANAGEMENT	Securities Services	Facility to print the account file maintenance log on a date range or selected date/s			
PRODUCT/SERVICES MANAGEMENT 107	PRODUCT/SERVICES MANAGEMENT	Securities Services	Tagging outstanding stock certificates and checks, whether lost, pledged hold etc.			
PRODUCT/SERVICES MANAGEMENT 108	PRODUCT/SERVICES MANAGEMENT	Securities Services	Creation of TIR (Transfer Instruction Registry) Folders, per account (with initials by the one who received, prepared and approved transaction documents)			
PRODUCT/SERVICES MANAGEMENT 109	PRODUCT/SERVICES MANAGEMENT	Securities Services	Processing of certificated and scripless shares with different class of securities			
PRODUCT/SERVICES MANAGEMENT 110	PRODUCT/SERVICES MANAGEMENT	Securities Services	Process fully/partially paid subscriptions, which includes number of shares, amount paid, unpaid and balance thereof			
PRODUCT/SERVICES MANAGEMENT 111	PRODUCT/SERVICES MANAGEMENT	Securities Services	Process stock rights			
PRODUCT/SERVICES MANAGEMENT 112	PRODUCT/SERVICES MANAGEMENT	Securities Services	Facility to compute for payment of redemptions.			
PRODUCT/SERVICES MANAGEMENT 113	PRODUCT/SERVICES MANAGEMENT	Securities Services	Inventory of unclaimed stock certificates and checks with corresponding tagging as to where the items are.			
PRODUCT/SERVICES MANAGEMENT 114	PRODUCT/SERVICES MANAGEMENT	Securities Services	Capture the record details provided by the former Transfer Agent through file upload facility			
PRODUCT/SERVICES MANAGEMENT 115	PRODUCT/SERVICES MANAGEMENT	Securities Services	Create and generate funding instruction.			
PRODUCT/SERVICES MANAGEMENT 116	PRODUCT/SERVICES MANAGEMENT	Securities Services	Account for registration, proxy tabulation and votation during Annual/Special Stockholders Meeting			
PRODUCT/SERVICES MANAGEMENT 117	PRODUCT/SERVICES MANAGEMENT	Securities Services	Printing of gum labels, delivery receipt report and acknowledgement receipt reports.			
PRODUCT/SERVICES MANAGEMENT 118	PRODUCT/SERVICES MANAGEMENT	Securities Services	Print dividend acknowledgement receipts, stock rights entitlements report/advice.			
PRODUCT/SERVICES MANAGEMENT 119	PRODUCT/SERVICES MANAGEMENT	Securities Services	Compute for stock dividends with conditions on rounding off (round off, round up or round down) and validate if check will be issued in lieu of the fractional shares or add in the existing number of shares			
PRODUCT/SERVICES MANAGEMENT 120	PRODUCT/SERVICES MANAGEMENT	Securities Services	Transaction Inquiry			
PRODUCT/SERVICES MANAGEMENT 121	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	Setup for Personal Equity Retirement Account (PERA) - PERA as Administrator functions.			
PRODUCT/SERVICES MANAGEMENT 122	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	System has facility to configure maximum number of PERA per Contributor. (i.e. 5 PERA per contributor)			
PRODUCT/SERVICES MANAGEMENT 123	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	Cash Custodian - Creation of Self Custody account or Registered Cash Custodian with interface to the bank settlement account (Personal Retirement Account)			
PRODUCT/SERVICES MANAGEMENT 124	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	Personal Equity Retirement Account (PERA) Maximum Principal Contribution Amount per Year (based on account's classification)			
PRODUCT/SERVICES MANAGEMENT 125	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	PERA Admin Maintenance Fee monthly accrual			
PRODUCT/SERVICES MANAGEMENT 126	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	PERA Admin Maintenance Fee Year end auto notification and collection via auto debit facility			
PRODUCT/SERVICES MANAGEMENT 127	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	System to handle PERA Transactions such as Contribution, Early Withdrawal, Qualified Withdrawal			
PRODUCT/SERVICES MANAGEMENT 128	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	System to handle PERA Investment Products (UITF, Mutual Fund, Insurance Pension Fund)			

PRODUCT/SERVICES MANAGEMENT 129	PRODUCT/SERVICES MANAGEMENT	Personal Equity Retirement Account Admin (PERA)	System to handle various PERA Fees such as Admin Maintenance Fees, Various PERA Fees such (Admin Maintenance Fees, Cash Custodian Fees)			
ASSET MANAGEMENT 1	ASSET MANAGEMENT	Asset / Securities Creation	Asset/securities masters, creation and maintenance (with customizable attributes and parameters), using manual/single entry or bulk file upload. Assets/securities in various financial investment instruments and non-financial investments such as: Deposits, Fixed Income, Government Securities, Bonds & other debt instruments, Loans, UITF Investments, Mutual Funds (Onshore/Offshore), Exchange Traded Funds, Preferred Stocks / shares, Equities, Derivatives (Cross Currency Swaps, Options, Forwards, Interest Rate Swap, Non cash & Non Financial Asset, Asset Swaps, Commodities, Real Estate Investment Trust, Feeder Funds, Funds of Funds, Multi Class Funds, Multi Currency Portfolios, Held Away Assets			
ASSET MANAGEMENT 2	ASSET MANAGEMENT	Asset / Securities Creation	Securities setup computing various methods of interest accrual computations.			
ASSET MANAGEMENT 3	ASSET MANAGEMENT	Asset / Securities Creation	Securities set up considering FRPTI (Financial Reporting Package for Trust Institutions) classifications + registry + location (debt / equity / FVTPL, etc) (custodian bank/PDTC/PCD/etc) (custodian bank/vault)			
ASSET MANAGEMENT 4	ASSET MANAGEMENT	Asset / Securities Creation	Securities set up of consent fees for specific securities (possibly midstream; possibly for selected accounts only)			
ASSET MANAGEMENT 5	ASSET MANAGEMENT	Asset / Securities Creation	Securities interest re-setting dates/rates - provision for resetting dates, viewing of historical and future coupon payment dates			
ASSET MANAGEMENT 6	ASSET MANAGEMENT	Asset / Securities Creation	Securities Interest re-setting dates/rates - provision for resetting dates, for declared holidays and unforeseen/unscheduled holidays			
ASSET MANAGEMENT 7	ASSET MANAGEMENT	Asset / Securities Creation	Securities setup of customizable transactional fees and taxes per trade transaction			
ASSET MANAGEMENT 8	ASSET MANAGEMENT	Asset / Securities Creation	Parameterized type of transaction based asset class			
ASSET MANAGEMENT 9	ASSET MANAGEMENT	Asset / Securities Creation	Asset Swap Ability to handle FX conversion in between portfolios			
ASSET MANAGEMENT 10	ASSET MANAGEMENT	Asset / Securities Creation	Trust fees booking on asset swap			
ASSET MANAGEMENT 11	ASSET MANAGEMENT	Asset / Securities Creation	Asset Swap Monitoring of coupons and other charges on underlying bonds/securities and crediting funds to the portfolio			
ASSET MANAGEMENT 12	ASSET MANAGEMENT	Asset / Securities Creation	Parameters of asset swap underlying securities - pay leg/receive leg			
ASSET MANAGEMENT 13	ASSET MANAGEMENT	Asset / Securities Creation	Security Set up / Process: Insurance product (with ability to store the face value of insurance, market value) but recognizing the security in the GL as nominal value only but included in the report at market value			
ASSET MANAGEMENT 14	ASSET MANAGEMENT	Asset / Securities Creation	Include upfront fees that will be paid to Trust and not to counterparty computed based on face value; settlement amount.			
ASSET MANAGEMENT 15	ASSET MANAGEMENT	Asset / Securities Creation	For broker fee, can be computed based on no. of shares, gross consideration or settlement amount			
ASSET MANAGEMENT 16	ASSET MANAGEMENT	Asset / Securities Creation	PFRS 9 classification of security parameters in computing ECL (Expected Credit Losses) rate - probability of default; loss given default which will be used for FVOCI (Fair Value through other comprehensive income) and HTC (Held to Maturity) securities			
ASSET MANAGEMENT 17	ASSET MANAGEMENT	Asset / Securities Creation	PFRS 9 classification of security tagging as to status of security - past due; restructured; items in litigation			
ASSET MANAGEMENT 18	ASSET MANAGEMENT	Asset / Securities Creation	Allow automatic calculation and posting of coupon payment on coupon payment dates			
ASSET MANAGEMENT 19	ASSET MANAGEMENT	Asset / Securities Creation	Parameterized investment in different securities (ie. Equities, Fixed Income and Time deposit) based on defined transactions types			
ASSET MANAGEMENT 20	ASSET MANAGEMENT	Asset / Securities Creation	Facility to accept non-financial assets (ie. Real Properties, Insurance Policies, and Other Miscellaneous Assets)			
ASSET MANAGEMENT 21	ASSET MANAGEMENT	Asset / Securities Creation	System to include the location of all securities : fixed income and equities. Example Location: GS- NROSS or Custodian Bank; Corp bond: PHP PDTC or Registry Bank; USD bonds/USTs: Clearstream or Custodian Bank; Equities: PDTC			
ASSET MANAGEMENT 22	ASSET MANAGEMENT	Asset / Securities Maintenance	Asset/securities masters' maintenance (with customizable attributes and parameters). Assets/securities in various financial investment instruments and non-financial investments (ie. real properties, other miscellaneous assets, insurance product, assets held for safekeeping)			
ASSET MANAGEMENT 22	ASSET MANAGEMENT	Asset / Securities Maintenance	There must be a prompt when interest resetting dates will be due			
ASSET MANAGEMENT 23	ASSET MANAGEMENT	Asset / Securities Maintenance	Ability to compute for additional interest in cases of declared holidays			
ASSET MANAGEMENT 24	ASSET MANAGEMENT	Asset / Securities Maintenance	Allow pricing based on market or break even rate to selling account			
ASSET MANAGEMENT 25	ASSET MANAGEMENT	Counterparty Information Creation	Counterparty masters, creation, maintenance (with customizable attributes and parameters), using manual/single entry or bulk file upload (with validations on errors)			
ASSET MANAGEMENT 26	ASSET MANAGEMENT	Counterparty Information Maintenance	Counterparty masters maintenance (with customizable attributes and parameters)			
ASSET MANAGEMENT 27	ASSET MANAGEMENT	Counterparty Information Maintenance	Maintain historical records of counterparty information with version control (i.e. financial statements, credit ratings and financial history)			
ASSET MANAGEMENT 28	ASSET MANAGEMENT	Corporate Actions / Events	Facility to encode cash dividends (cash in/cash out)			
ASSET MANAGEMENT 29	ASSET MANAGEMENT	Corporate Actions / Events	Can interface/link with source system for automated updating and clear, timely upload of corporate actions			
ASSET MANAGEMENT 30	ASSET MANAGEMENT	Corporate Actions / Events	Facility to process corporate actions			
ASSET MANAGEMENT 31	ASSET MANAGEMENT	Corporate Actions / Events	Facility to process corporate events			

ASSET MANAGEMENT 32	ASSET MANAGEMENT	Asset Valuation	Provide market value of the funds (per lot/folio/confirmation of participation; per client; per fund)			
CLIENT ONBOARDING 1	CLIENT ONBOARDING	Client Prospecting	Allow build up of client prospects information. Serve as a pre-buildup of client information before and upon actual account opening. Include multiple contact channels (fax, tel, mobile, addresses). Display prospects based on Industry classification, occupation, area, net worth.			
CLIENT ONBOARDING 2	CLIENT ONBOARDING	Client Prospecting	Show next meeting dates with client with reminder/alarm.			
CLIENT ONBOARDING 3	CLIENT ONBOARDING	Client Prospecting	Show count and percentage of converted accounts vis-à-vis number of calls for a given period.			
CLIENT ONBOARDING 4	CLIENT ONBOARDING	Client Prospecting	Show reasons for unconverted prospects.			
CLIENT ONBOARDING 5	CLIENT ONBOARDING	Client Prospecting	Record, track and view a complete history of all customer interactions - client calls, sales calls, emails, status of calls etc.			
CLIENT ONBOARDING 6	CLIENT ONBOARDING	Client Profile Creation	Client creation with customizable data attributes and specified entry facility (ie. Manual/single entry, bulk file upload, API triggered options with automated validation on errors) for both Individual and Corporate Clients			
CLIENT ONBOARDING 7	CLIENT ONBOARDING	Client Profile Creation	Client creation - automated verification of client identity (i.e. Online Application) using integrated third-party verification services			
CLIENT ONBOARDING 8	CLIENT ONBOARDING	Client Profile Creation	System has facility to automatically assign or manually assign unique mnemonic code to clients			
CLIENT ONBOARDING 9	CLIENT ONBOARDING	Client Profile Creation	Client creation with review and approval process based on defined user credentials/access rights/roles.			
CLIENT ONBOARDING 10	CLIENT ONBOARDING	Client Profile Creation	Generate forms (i.e. Client information sheet, Proposal Letter)			
CLIENT ONBOARDING 11	CLIENT ONBOARDING	Client Profile Creation	Capture related party transactions, like groups, subsidiaries, affiliates, family etc.			
CLIENT ONBOARDING 12	CLIENT ONBOARDING	Client Profile Maintenance	Client maintenance with customizable data attributes and specified entry facility (ie. Manual/single entry, bulk file upload, API triggered options with automated validation on errors) for both Individual and Corporate Clients			
CLIENT ONBOARDING 13	CLIENT ONBOARDING	Client Profile Maintenance	Client maintenance with review and approval process based on defined user credentials/access rights/roles.			
CLIENT ONBOARDING 14	CLIENT ONBOARDING	Client Profile Maintenance	Provide Designated User with 360 degree view of the client i.e. see stand alone trust and related accounts in one screen.			
CLIENT ONBOARDING 15	CLIENT ONBOARDING	Client Profile Maintenance	Capable of tracking and control of resident / non resident exposure.			
CLIENT ONBOARDING 16	CLIENT ONBOARDING	Client Validation	Supports validation on client attributes based on a specific criteria define (i.e. Nationality, FATCA - Foreign Account Tax Compliance Act, OFAC -Office of Foreign Assets Control)			
CLIENT ONBOARDING 17	CLIENT ONBOARDING	Client Validation	Mandate restrictions on client by client basis, by stock, sector and asset class, by specific date, date range, by transaction type			
CLIENT ONBOARDING 18	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Create risk profiling questionnaire and define the client's risk profile for a combination of results or through a scoring process.			
CLIENT ONBOARDING 19	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Create questionnaires with customizable attributes and parameters; per Account Type - Individual, Corporate, per client-based or portfolio-based or account-based (ie. Personal Equity Retirement Account - PERA CSA)			
CLIENT ONBOARDING 20	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Create customizable attributes and parameters for scoring process. (i.e. Display special conditions in Client Suitability Assessment (CSA) Form and Investment Policy Statement (IPS) results, e.g. automatic classification into a defined risk profile for specific answers regardless of resulting score or profile)			
CLIENT ONBOARDING 21	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Define customizable expiry date of client suitability and risk profiling assessment per client, account, product type. Must allow a given default with option to amend with approval of a designated user (as defined in the user access rights/role).			
CLIENT ONBOARDING 22	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Perform risk profiling at Client, Account and Portfolio level			
CLIENT ONBOARDING 23	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Allow internal User (ie. Account Officer) to answer directly into the system or encode final scores only (on behalf of the client, and mark the date of CSA/IPS completion and name of internal User (ie. Account Officer) who accomplished the CSA/IPS.			
CLIENT ONBOARDING 24	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Translate and store answers to the questionnaire into pre-defined risk profile (based on set parameters). Should be editable by the end-user in case there are changes in the future			
CLIENT ONBOARDING 25	CLIENT ONBOARDING	Client Suitability and Risk Assessment	System to show recommended product/ portfolio based on risk profile assessment			
CLIENT ONBOARDING 26	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Auto-mail facility system for clients' notification of CSA updates and expired client CSA/IPS			
CLIENT ONBOARDING 27	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Relate CSA resulting risk profile with the IPS results - objective, strategy, asset allocation, investment limits, asset/securities (including held away assets); validation for contradicting results between CSA and IPS.			
CLIENT ONBOARDING 28	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Validation if securities purchased or to be purchased are outside client's risk profile.			
CLIENT ONBOARDING 29	CLIENT ONBOARDING	Client Suitability and Risk Assessment	Prompt user if CSA/IPS is due for updating/expired based on the defined expiry date.			
DOCUMENT MANAGEMENT 1	DOCUMENT MANAGEMENT	Document Deficiency Monitoring	Facility to tag documents - submitted, unreceived, deferred, returned; expiry date of documents and due date of submission and remarks. Tagging of documents via manual/single entry or bulk file upload of status (with validations).			
DOCUMENT MANAGEMENT 2	DOCUMENT MANAGEMENT	Document Deficiency Monitoring	Printable/downloadable report /list of document status information for selected accounts/portfolios/clients or for all outstanding documents submitted or deficient.			

DOCUMENT MANAGEMENT 3	DOCUMENT MANAGEMENT	Safekeeping of Documents (Digital/Physical)	Parameterized masters for defining required documents on client, account, transactions. Documents definition as per mandatory or optional, document type, product type, transaction type.			
DOCUMENT MANAGEMENT 4	DOCUMENT MANAGEMENT	Safekeeping of Documents (Digital/Physical)	Creation of account folder to contain documents received from the account.			
DOCUMENT MANAGEMENT 5	DOCUMENT MANAGEMENT	Safekeeping of Documents (Digital/Physical)	Upload image of documents to the specified client, account, transactions via manual/single entry, bulk file upload, API triggered.			
DOCUMENT MANAGEMENT 6	DOCUMENT MANAGEMENT	Safekeeping of Documents (Digital/Physical)	Facility to view and download the image documents based on document, account, product and user credentials/access rights for the managed client/accounts.			
DOCUMENT MANAGEMENT 7	DOCUMENT MANAGEMENT	Safekeeping of Documents (Digital/Physical)	Provide links to relevant screens (ie. Account information page) for viewing of uploaded documents			
DOCUMENT MANAGEMENT 8	DOCUMENT MANAGEMENT	Safekeeping of Documents (Digital/Physical)	For IPOs, Receiving Agency accounts, uploading of documents for the Application to Subscribe submitted by the LSI (Local Small Investors) Subscribers, TP (Trading Participant), Underwriter			
DOCUMENT MANAGEMENT 9	DOCUMENT MANAGEMENT	Document Validation	Facility to track changes/notes/remarks and history of the upload image of documents.			
DOCUMENT MANAGEMENT 10	DOCUMENT MANAGEMENT	Document Validation	Monitoring alert/report on the documents expiry date, submission dates and required approvals for accounts with document deficiencies/expired documents.			
DOCUMENT MANAGEMENT 11	DOCUMENT MANAGEMENT	Document Validation	Monitoring alert/report on the aging of document deficiencies.			
ACCOUNT & FUND MANAGEMENT 1	ACCOUNT & FUND MANAGEMENT	Account Creation	Account creation with customizable data attributes and specified entry facility (ie. Manual/single entry, bulk file upload, API triggered options, with automated validation on errors)			
ACCOUNT & FUND MANAGEMENT 2	ACCOUNT & FUND MANAGEMENT	Account Creation	Account creation with review and approval process based on defined user credentials/access rights/roles.			
ACCOUNT & FUND MANAGEMENT 3	ACCOUNT & FUND MANAGEMENT	Account Creation	Operate the account using a system-generated Trust Account Number. For easy reference, the preferred Trust account number should be able to identify the Trust product			
ACCOUNT & FUND MANAGEMENT 4	ACCOUNT & FUND MANAGEMENT	Account Creation	Copy account function that allow users to create a new account by duplicating information of an existing related account and modification thereafter; copy portfolio models, portfolio mixes, investment considerations/restrictions/strategy, trust fee structure.			
ACCOUNT & FUND MANAGEMENT 5	ACCOUNT & FUND MANAGEMENT	Account Creation	Multicurrency account/portfolio setup			
ACCOUNT & FUND MANAGEMENT 6	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Account maintenance with customizable data attributes and specified entry facility (ie. Manual/single entry, bulk file upload, API triggered options, with automated validation on errors)			
ACCOUNT & FUND MANAGEMENT 7	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Account maintenance with review and approval process based on defined user credentials/access rights/roles.			
ACCOUNT & FUND MANAGEMENT 8	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow provisions for special instructions, account peculiarities, changes/ revisions in account status in terms of tax eligibility, hold-out, approved asset allocation, Minimum and maximum exposure per asset class, amount, percentage of assets, interest only			
ACCOUNT & FUND MANAGEMENT 9	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Capable of storing current and historical information and maintaining a multi-level registry			
ACCOUNT & FUND MANAGEMENT 10	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Input the required level and priority of funding for project accounts (Corporate Trust Accounts)			
ACCOUNT & FUND MANAGEMENT 11	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Link the project accounts to collateral trustee account (Corporate Trust Accounts)			
ACCOUNT & FUND MANAGEMENT 12	ACCOUNT & FUND MANAGEMENT	Account Maintenance	System has capability to consolidate Trust Accounts and Portfolios (combining reports under Mother Accounts / group of accounts)			
ACCOUNT & FUND MANAGEMENT 13	ACCOUNT & FUND MANAGEMENT	Account Maintenance	System has capability to group multiple accounts under a common label or category			
ACCOUNT & FUND MANAGEMENT 14	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Setup Client Settlement Bank Account in the Trust Account			
ACCOUNT & FUND MANAGEMENT 15	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow cash accounts per client in multiple currencies. Default cash balance may be defined and used to view all cash balances and all asset holdings as one (conversion of values to one currency based on EOD FX rate).			
ACCOUNT & FUND MANAGEMENT 16	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow consolidation of portfolios/accounts into Mother Accounts based on group codes.			
ACCOUNT & FUND MANAGEMENT 17	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Reporting and management for grouped accounts			
ACCOUNT & FUND MANAGEMENT 18	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow re-classification of accounts due to change in objective / account type (for regulatory compliance) / Change in Trust Account Number.			
ACCOUNT & FUND MANAGEMENT 19	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Provide Designated User (ie relationship manager/account officer/marketing officer) with Assets Under Management (AUM) information and list of accounts being managed. AUM should also be presented per product, unit, branch, area, region, desks.			
ACCOUNT & FUND MANAGEMENT 20	ACCOUNT & FUND MANAGEMENT	Account Maintenance	View / display all the accounts link to collateral trustee account (Corporate Trust Account)			
ACCOUNT & FUND MANAGEMENT 21	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Simplified search facility to find assigned Account Officer of an Account			
ACCOUNT & FUND MANAGEMENT 22	ACCOUNT & FUND MANAGEMENT	Account Maintenance	View client/account/portfolios per defined parameters			
ACCOUNT & FUND MANAGEMENT 23	ACCOUNT & FUND MANAGEMENT	Account Maintenance	View all outstanding investments per client, per account, per product, per branch, per assigned relationship manager/account officer/marketing officer including transaction history			
ACCOUNT & FUND MANAGEMENT 24	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Provide relationship manager/account officer/marketing officer with 360 degree view of the client account and other related accounts, account balances, holdings/investments			

ACCOUNT & FUND MANAGEMENT 25	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow Designated User to view projected cash position (based on defined date range - ie, for the week, for at least 30 days forward) with respect to expected maturities, coupon, dividend, with Trust fees for collection; per asset type, per client; and any remarks on proceeds settlement instructions.			
ACCOUNT & FUND MANAGEMENT 26	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Advanced Loan and Collateral Management - Implement a detailed tracking system for loan payments, schedules, and interest calculations.; Enhance collateral management with tagging of collaterals consistent with the vault records. (Corporate Trust Accounts)			
ACCOUNT & FUND MANAGEMENT 27	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Auto facility to mark the accounts as dormant. Monitor and trigger Designated User for dormant accounts			
ACCOUNT & FUND MANAGEMENT 28	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Return to Sender (RTS) facility to tag account/client if mail notice is undelivered/returned and auto-notify the client/account of undelivered notice/mail.			
ACCOUNT & FUND MANAGEMENT 29	ACCOUNT & FUND MANAGEMENT	Account Maintenance	System has a facility for split of accounts / portfolios with transfers of assets between accounts, portfolios, deliver free/receive free			
ACCOUNT & FUND MANAGEMENT 30	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Auto closing facility/closed tagging for Account and Portfolio Based on defined Parameters for closure			
ACCOUNT & FUND MANAGEMENT 31	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Facility to reopen closed accounts with manual review and approval process			
ACCOUNT & FUND MANAGEMENT 32	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Standing Instructions on IMA/TA maturities (i.e. Auto rollover, auto-credit to settlement casa, auto withdrawal)			
ACCOUNT & FUND MANAGEMENT 33	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow tagging/untagging of account for hold-out, post no debit. Hold Out - Can classify to different types of hold-out on client, account, holdings (hold-out/freeze/deceased/garnished/special).			
ACCOUNT & FUND MANAGEMENT 34	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Full or partial hold-out of security and store historical movement of hold-out tagging. Should store other values such as Promissory Notes details; loan amount being secured; borrower details; maturity date of loan court order details			
ACCOUNT & FUND MANAGEMENT 35	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Facility to view / verify outstanding holdings/remaning lot/folio/confirmation of participation/disclosure statement after encoding of redemption/sell orders.			
ACCOUNT & FUND MANAGEMENT 36	ACCOUNT & FUND MANAGEMENT	Account Maintenance	Allow monitoring and reporting of current and projected cash availability. Should provide 1 week's worth of cash flow projection or within a given date range. Viewing should be restricted to assigned Account Managers only. Issued PDCs (Post dated checks) should be considered.			
ACCOUNT & FUND MANAGEMENT 37	ACCOUNT & FUND MANAGEMENT	Account Validation	Set-up rules on accounts based on specified parameters. (ie. interportfolio transfers, discretionary portfolio investment rules). Capture any changes on rules.			
ACCOUNT & FUND MANAGEMENT 38	ACCOUNT & FUND MANAGEMENT	Account Validation	Alert payment of interest and principal due			
ACCOUNT & FUND MANAGEMENT 39	ACCOUNT & FUND MANAGEMENT	Account Validation	Provide alerts on un-approved investments and negative balances			
ACCOUNT & FUND MANAGEMENT 40	ACCOUNT & FUND MANAGEMENT	Account Validation	Mandate restrictions on client by client basis, by stock, sector and asset class, by specific dates, date range, by transaction type. System to provide alerts on allowed limits for investments (Ex. Equities, Fixed Income, Government Securities)			
ACCOUNT & FUND MANAGEMENT 41	ACCOUNT & FUND MANAGEMENT	Account Validation	System should be capable of monitoring and prompting alerts for clients with remaining aggregated fund balances below the required minimum amount per product (Investment Management Accounts - IMA and Trust Accounts - TA)			
ACCOUNT & FUND MANAGEMENT 42	ACCOUNT & FUND MANAGEMENT	Account Validation	Validate/monitor/trigger Designated User (ie. Front Office users) for resident/non-resident exposure, US Persons restrictions on accounts/orders.			
ACCOUNT & FUND MANAGEMENT 43	ACCOUNT & FUND MANAGEMENT	Account Validation	Accounts (ie. UITF/EIP Invest Online clients) must not be able to use or make any contribution once account is tagged as CLOSED.			
ACCOUNT & FUND MANAGEMENT 44	ACCOUNT & FUND MANAGEMENT	Account Validation	Closed Account should not be able to update/maintain the account (ie. Updating of periodic contribution for easy investment plan EIP)			
ACCOUNT & FUND MANAGEMENT 45	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Multiple Fee Structure in One Account / Portfolio			
ACCOUNT & FUND MANAGEMENT 46	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Parameterized Trust Fee Accrual Method, Amount of Accrual and Reference period of accrual			
ACCOUNT & FUND MANAGEMENT 47	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee Exceptions / Exclusion of certain securities from the calculation			
ACCOUNT & FUND MANAGEMENT 48	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee Identification of Frequency (Daily, Weekly, Monthly, etc.)			
ACCOUNT & FUND MANAGEMENT 49	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee Facility to set-up various trust fee formulas as options when creating an account/portfolio			
ACCOUNT & FUND MANAGEMENT 50	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee Simulation			
ACCOUNT & FUND MANAGEMENT 51	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Parameterized Trust Fee Frequency of Collection			
ACCOUNT & FUND MANAGEMENT 52	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Multiple fee structures based on General Ledger account balances			
ACCOUNT & FUND MANAGEMENT 53	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Family office fee for each Corporation / Management fees for each holding company			
ACCOUNT & FUND MANAGEMENT 54	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee charging per type of asset/securities, account, product on specified parameters			
ACCOUNT & FUND MANAGEMENT 55	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Automated Fee Calculation and Invoicing - Automated fee calculation based on the type of services (Escrow, Facility Agent, Security Trustee) or depending on the account setup by the onboarding team; Generate and send invoices to clients for fees automatically at regular intervals. (Corporate Trust)			
ACCOUNT & FUND MANAGEMENT 56	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee - Real-Time Fee Monitoring - Implement real-time monitoring of fee collections to ensure timely payments.; Alert account officers to overdue fees or discrepancies in fee calculations.			
ACCOUNT & FUND MANAGEMENT 57	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Account Receivable (AR) / Account Payable (AP) / Trust Fee Monitoring and Aging			

ACCOUNT & FUND MANAGEMENT 58	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Provision for special trust fee rate on a particular transaction			
ACCOUNT & FUND MANAGEMENT 59	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Ability to re-assess trust fee based on TRB (Total Relationship Balance) - total trust and other entities within the group; then apply the tiering and update the trust fee (Private Bank)			
ACCOUNT & FUND MANAGEMENT 60	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fee Dormant accounts			
ACCOUNT & FUND MANAGEMENT 61	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Monitoring and Collection of Trust Fees under Fee Sharing Arrangement on specified parameters. Compute Target Fund-level trust fee based on actual placements			
ACCOUNT & FUND MANAGEMENT 62	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	With facility to defer trust fee collection and prompt when due. With facility to waive/approve trust fee charges			
ACCOUNT & FUND MANAGEMENT 63	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Hold/blocking of Trust Fee in the account			
ACCOUNT & FUND MANAGEMENT 64	ACCOUNT & FUND MANAGEMENT	Trust Fee Set-up & Payment	Trust Fees Collection Report for a given period, per Account Officer, per Team, per Unit			
ACCOUNT & FUND MANAGEMENT 65	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Allow simulations and what if analysis			
ACCOUNT & FUND MANAGEMENT 66	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Portfolio simulation - effect on certain assets to the portfolio and effect on the ROI, yield and duration (asset switch, trading gain or loss; how will ROI look like for the quarter) -- for both Discretionary and Directional accounts; including UITFs			
ACCOUNT & FUND MANAGEMENT 67	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Stress test modelling / scenarios.			
ACCOUNT & FUND MANAGEMENT 68	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Can do constant mixed portfolio rebalancing (simulation only).			
ACCOUNT & FUND MANAGEMENT 69	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Provide Asset Allocation based on a model - asset class (with compliance checks).			
ACCOUNT & FUND MANAGEMENT 70	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Compare or rebalance portfolio/s vs. a benchmark / model portfolio; must be able to do multi-stock modelling (inclusive of compliance checks) across all clients -- quickly and efficiently.			
ACCOUNT & FUND MANAGEMENT 71	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Rebalance portfolios based on existing holdings and/or for new cash contribution or cash withdrawal.			
ACCOUNT & FUND MANAGEMENT 72	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Rebalance many portfolios vs. a model as a single action; accommodate rebalancing of a group of portfolios (such as investor, family, related accounts) vs. a single model.			
ACCOUNT & FUND MANAGEMENT 73	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Can include stored held-away assets for consideration in rebalancing/client requirements			
ACCOUNT & FUND MANAGEMENT 74	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Ability to create Trade blotters after rebalancing and ability to adjust the trade blotters			
ACCOUNT & FUND MANAGEMENT 75	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Rebalance vs. client restrictions.			
ACCOUNT & FUND MANAGEMENT 76	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Perform portfolio rebalancing			
ACCOUNT & FUND MANAGEMENT 77	ACCOUNT & FUND MANAGEMENT	Portfolio Modeling	Validate Investor specific rules, audit and compliance measures; considerations in the rebalancing process.			
ORDER MANAGEMENT 1	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Facility to setup scheduled withdrawals.			
ORDER MANAGEMENT 2	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Support for various contribution and withdrawal methods (i.e. Cash, Bank Transfer, Check, Electronic Payment)			
ORDER MANAGEMENT 3	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Support front-end data entry for Contributions to and withdrawals from Trust Accounts			
ORDER MANAGEMENT 4	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Single or multiple contributions in single entry or bulk file upload (with validations)			
ORDER MANAGEMENT 5	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Allows partial withdrawal on cash balances			
ORDER MANAGEMENT 6	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Order management system for UITF admission, redemption based on amount, unit, lot, portfolio for UITF			
ORDER MANAGEMENT 7	ORDER MANAGEMENT	Order Entry - Contribution/Withdrawal	Order system facility for contribution, withdrawal based on amount, unit, lot, portfolio for IMA/TA			
ORDER MANAGEMENT 8	ORDER MANAGEMENT	Order Entry - Investment	System should be able to handle Asset Transfer / Contribution of Assets from other Trustee banks			
ORDER MANAGEMENT 9	ORDER MANAGEMENT	Order Entry - Investment	Investment allocation to one or several trust accounts			
ORDER MANAGEMENT 10	ORDER MANAGEMENT	Order Entry - Investment	Booking of Held-Away Assets			
ORDER MANAGEMENT 11	ORDER MANAGEMENT	Order Entry - Investment	Facility to redeem by lot, pick and choose, per single lot/portfolio selection, multiselect for both UITF and IMA/TA			
ORDER MANAGEMENT 12	ORDER MANAGEMENT	Order Entry - Investment	Facility to input order via single entry (with customizable attributes and parameters) or bulk file upload (with validations as if orders/transactions are inputted from single entry).			
ORDER MANAGEMENT 13	ORDER MANAGEMENT	Order Entry - Investment	Order/transaction processing module for IMA/TA for client/account; orders per specifications of assets/securities, allow various redemption/sell/ disposal method of assets/securities inventory (per lot size/certificate, pick and choose), with filter options on asset/securities, Branch, by account officer, by lot/olio/disclosure statement Number.			
ORDER MANAGEMENT 14	ORDER MANAGEMENT	Order Entry - Investment	Full or Partial redemption/sell per lot/olio/confirmation of participation/ disclosure statement number on various disposal method - pick and choose, first in first out, weighted average			
ORDER MANAGEMENT 15	ORDER MANAGEMENT	Order Entry - Investment	Allow posting of orders at market or with target price; on a day order or GTC order.			

ORDER MANAGEMENT 16	ORDER MANAGEMENT	Order Entry - Investment	Allow user to input orders (buy and sell) to be executed a future date.			
ORDER MANAGEMENT 17	ORDER MANAGEMENT	Order Entry - Investment	Allow subsequent allocation			
ORDER MANAGEMENT 18	ORDER MANAGEMENT	Order Entry - Investment	Allow import of trade transactions; allow multiple entry of transactions for a single security (upload from an excel file with validations).			
ORDER MANAGEMENT 19	ORDER MANAGEMENT	Order Entry - Investment	Ability to do inter-account transactions: one to one; one to many; many to one; many to many (Allow block transactions or import), inter-account purchase and sale.			
ORDER MANAGEMENT 20	ORDER MANAGEMENT	Order Entry - Investment	Transfer of Assets to other Trustee banks			
ORDER MANAGEMENT 21	ORDER MANAGEMENT	Order Entry - Investment	Switch in/Switch Out order type			
ORDER MANAGEMENT 22	ORDER MANAGEMENT	Order Entry - Investment	Option to automatically compute gross amount given units and price or compute price given units and gross amount.			
ORDER MANAGEMENT 23	ORDER MANAGEMENT	Order Maintenance	Facility to back-date contributions / withdrawals.			
ORDER MANAGEMENT 24	ORDER MANAGEMENT	Order Maintenance	Can display transaction history per account, per portfolio, per client			
ORDER MANAGEMENT 25	ORDER MANAGEMENT	Order Maintenance	Allow user to edit order but will depend on the allowed order status criteria			
ORDER MANAGEMENT 26	ORDER MANAGEMENT	Order Maintenance	Allow partial liquidation of investment based on required cash proceeds of selling account or investible funds of the buying account			
ORDER MANAGEMENT 27	ORDER MANAGEMENT	Order Maintenance	Show available inventory of unmatched investments to allow portfolio officers to pick out investments from available list; volume should be updated as posts are made.			
ORDER MANAGEMENT 28	ORDER MANAGEMENT	Order Maintenance	Facility to make changes in funding accounts			
ORDER MANAGEMENT 29	ORDER MANAGEMENT	Order Maintenance	Filtering on gross trades (i.e. per account, trader ID, all)			
ORDER MANAGEMENT 30	ORDER MANAGEMENT	Order Maintenance	Allow tagging of Trader ID or provide a field for the trader who encoded/uploaded/executed the transaction.			
ORDER MANAGEMENT 31	ORDER MANAGEMENT	Order Maintenance	Allow definition of proper authorization; approvals and cancellations of trade transactions.			
ORDER MANAGEMENT 32	ORDER MANAGEMENT	Order Maintenance	Allow amendment of certain trade details, with checker/authorizer requirement.			
ORDER MANAGEMENT 33	ORDER MANAGEMENT	Order Maintenance	Easy to use matching of executed orders against confirmations; preferably automated matching.			
ORDER MANAGEMENT 34	ORDER MANAGEMENT	Order Maintenance	Allow tracing of trades through various phases of processing such as (Open, Pending settlement, Failed or settled, Partially settled, Cancelled, Completed)			
ORDER MANAGEMENT 35	ORDER MANAGEMENT	Order Maintenance	Allow bulk trading orders			
ORDER MANAGEMENT 36	ORDER MANAGEMENT	Order Maintenance	System should be able to change status of orders based on specific criteria defined in the system (Ex. Revert cancelled orders)			
ORDER MANAGEMENT 37	ORDER MANAGEMENT	Order Maintenance	Viewing of orders/transactions with search/filtrations (ie. Search by Client, Account, Account Officer, Branch) based on defined User credentials/access rights/roles.			
ORDER MANAGEMENT 38	ORDER MANAGEMENT	Order Maintenance	Client to view and select Existing/outstanding/available accounts ONLY for redemptions/withdrawals from the Core System/Portals.			
ORDER MANAGEMENT 39	ORDER MANAGEMENT	Order Confirmation	Show pending trades and transactions being processed.			
ORDER MANAGEMENT 40	ORDER MANAGEMENT	Order Confirmation	Approval per single order or bulk process			
ORDER MANAGEMENT 41	ORDER MANAGEMENT	Order Processing & Execution	View pending trades (ie. Good till cancelled- GTC) and transactions being processed.			
ORDER MANAGEMENT 42	ORDER MANAGEMENT	Order Processing & Execution	Stock purchase and sale			
ORDER MANAGEMENT 43	ORDER MANAGEMENT	Order Processing & Execution	Allow distribution of actual executed trades against participants in a pre-defined allocation method (e.g. pro-rata based on order volume or time receipt or allocation based on the account's AUM / portfolio's AUM) -- should still undergo validation of limits (subject to re-allocation for breaches of limits).			
ORDER MANAGEMENT 44	ORDER MANAGEMENT	Order Processing & Execution	Allocation based on time receipt of order should display remaining inventory. When inventory is used up, succeeding orders will be classified as "wait list" for possible re-allocation in case of back-outs or returns.			
ORDER MANAGEMENT 45	ORDER MANAGEMENT	Order Processing & Execution	Automated allocation of orders on primary issuances			
ORDER MANAGEMENT 46	ORDER MANAGEMENT	Order Processing & Execution	Handling of executed trades: Aggregation of multiple client orders for execution			
ORDER MANAGEMENT 47	ORDER MANAGEMENT	Order Processing & Execution	Handling of executed trades: post trade allocation to individual portfolios (including pro-rata allocation of partially-filled orders).			
ORDER MANAGEMENT 48	ORDER MANAGEMENT	Order Processing & Execution	Allow cancellation of unexecuted trades, or retain for historical records, without posting on clients' books.			
ORDER MANAGEMENT 49	ORDER MANAGEMENT	Order Processing & Execution	Allow automated combining of similar orders (same security/asset, same price) for better execution and subsequent allocation of actual executed trades.			
ORDER MANAGEMENT 50	ORDER MANAGEMENT	Order Processing & Execution	For rounding off differences, allow edits/adjustments in trade computations, calculation of charges before posting the transaction.			
ORDER MANAGEMENT 51	ORDER MANAGEMENT	Order Processing & Execution	Deduct applicable transaction charges/Trust Fees/ taxes on total proceeds or on income if partially withdrawn			
ORDER MANAGEMENT 52	ORDER MANAGEMENT	Order Processing & Execution	Daily distribution of transaction charges per broker (Ex. PDTC charges, etc)			

ORDER MANAGEMENT 53	ORDER MANAGEMENT	Order Processing & Execution	Option to override any minimum/required transaction charges/fees			
ORDER MANAGEMENT 54	ORDER MANAGEMENT	Order Processing & Execution	Ability to compute for stock transaction charges and net settlement amounts			
ORDER MANAGEMENT 55	ORDER MANAGEMENT	Order Processing & Execution	Allow user to monitor Good Till Cancelled (GTC) orders.			
ORDER MANAGEMENT 56	ORDER MANAGEMENT	Order Validation	Order validation for Clients/Accounts Investing in Product/Portfolio/Strategy/Securities with Higher Risks. Prompt validation requirement and accept action if investment restrictions per CSA will be waived (ie. Continue with the order)			
ORDER MANAGEMENT 57	ORDER MANAGEMENT	Order Validation	Validation for succeeding transactions of accounts/portfolios with outstanding document deficiencies			
ORDER MANAGEMENT 58	ORDER MANAGEMENT	Order Validation	Parameterized mode of payment /settlement of orders admission/redemption/ buy/ sell/ contribution/withdrawal transactions			
ORDER MANAGEMENT 59	ORDER MANAGEMENT	Order Validation	For withdrawals, hierarchy defined as follows: income then principal (should be set-up as default).			
ORDER MANAGEMENT 60	ORDER MANAGEMENT	Order Validation	With future dating feature i.e. contributions and withdrawals. Facility to pre-deal and anticipate future transactions; trade and settle dates on future date (both cash and trade transactions).			
ORDER MANAGEMENT 61	ORDER MANAGEMENT	Order Validation	Facility for auto withdrawal transactions for scheduled income payments with trigger.			
ORDER MANAGEMENT 62	ORDER MANAGEMENT	Order Validation	Check contributions/withdrawals vs. minimum balance requirements and disallow withdrawals if in breach.			
ORDER MANAGEMENT 63	ORDER MANAGEMENT	Order Validation	Disallow certain transactions, e.g. purchase of securities not within the client investment risk profile/tolerance and restrictions, amounts beyond given limits; asset allocation; provide trigger considering restrictions; client may have special approval or instruction to execute -- should be documented to allow approval by the designated officer.			
ORDER MANAGEMENT 64	ORDER MANAGEMENT	Order Validation	Facility to set cut-off time to different type of orders and transaction where user will be restricted to proceed with the action			
ORDER MANAGEMENT 65	ORDER MANAGEMENT	Order Validation	Flag if security being posted for sale is subject of a hold-out or a stock dividend receivable (available for sale).			
ORDER MANAGEMENT 66	ORDER MANAGEMENT	Order Validation	Flag/stop orders that will breach the asset allocation/model portfolio limit and are restricted by the IPS.			
ORDER MANAGEMENT 67	ORDER MANAGEMENT	Order Validation	Validation of selling orders against actual positions to prevent overselling.			
ORDER MANAGEMENT 68	ORDER MANAGEMENT	Order Validation	Restrict withdrawal of proceeds but allow investment of funds for accounts with investments under hold-out.			
ORDER MANAGEMENT 69	ORDER MANAGEMENT	Order Validation	Functionality to define, monitor various limits (i.e. trading limits, counterparty limits, asset class limits, issuer, borrower)			
ORDER MANAGEMENT 70	ORDER MANAGEMENT	Order Validation	Functionality to validate various limits (i.e. trading limits, counterparty limits, asset class limits, issuer, borrower)			
ORDER MANAGEMENT 71	ORDER MANAGEMENT	Order Validation	Provide investments limits with compliance checks: Outlet/security, Group, Sector/Industry			
ORDER MANAGEMENT 72	ORDER MANAGEMENT	Order Validation	Pre-trade compliance analysis integrated with order entry system			
ORDER MANAGEMENT 73	ORDER MANAGEMENT	Order Validation	Flag / alert when account is selling security that is not in current holdings of portfolio / account (short-selling)			
ORDER MANAGEMENT 74	ORDER MANAGEMENT	Order Validation	System pre trade checking on allowable limits per trader/counterparty/broker/issuer limit/asset class			
ORDER MANAGEMENT 75	ORDER MANAGEMENT	Order Validation	Should be able to track if account/portfolio has pending investment unsubmitted documents (ie. Letter of Instructions) /restrictions and not to allow order or reinvestment			
ORDER MANAGEMENT 76	ORDER MANAGEMENT	Order Validation	Facility to set cut-off time to different trade orders where user will be restricted to proceed with the action			
ORDER MANAGEMENT 77	ORDER MANAGEMENT	Order Validation	Validation / Limit for IMA trades: Display warning and prohibit transactions involving face amount less than 1M for IMA accounts			
ORDER MANAGEMENT 78	ORDER MANAGEMENT	Order Validation	Validation of orders or warning for mismatch in portfolio currency vs. security currency.			
ORDER MANAGEMENT 79	ORDER MANAGEMENT	Order Validation	Validation / Limit for IMA trades: Set-up rules for minimum participation, maintaining balances and co-mingling for IMAs .			
ORDER MANAGEMENT 80	ORDER MANAGEMENT	Order Validation	Validation / Limit for IMA trades: track remaining holdings per security and ensure that these do not fall below 1M (face amount) when executing sale transactions			
ORDER MANAGEMENT 81	ORDER MANAGEMENT	Order Validation	Validation / Limit for IMA trades: no commingling with trades for various trust accounts			
ORDER MANAGEMENT 82	ORDER MANAGEMENT	Order Validation	Soft validation: Violation Manager/Alert Function: Validation of Inter-Portfolio transactions versus Tax Status for T+0 trades. IPT T+0 is allowed only for same tax status of buyer/seller			
ORDER MANAGEMENT 83	ORDER MANAGEMENT	Order Validation	If trade date is not the same as settle date, system should update holdings based on trade date. Unsettled holdings must be tagged as receivables			
ORDER MANAGEMENT 84	ORDER MANAGEMENT	Order Validation	Restrict transactions for Non-Residents and FATCA on specific products			
ORDER MANAGEMENT 85	ORDER MANAGEMENT	Order Validation	Prompt user on unsettled/pending orders			
ORDER MANAGEMENT 86	ORDER MANAGEMENT	Order Validation	Triggers breaches in the following: limits, asset allocation, security restrictions, single borrower's limit (SBL), and restrictions set by client			
ORDER MANAGEMENT 87	ORDER MANAGEMENT	Order Validation	Ability to block, warn breaches by user via hard and soft validation. Soft validation to require override/approval by specified authorized person who will be given access rights for the override.			

ORDER MANAGEMENT 88	ORDER MANAGEMENT	Order Validation	Facility to authorize/override transactions with restrictions. Potential breaches should be system-routed to designated officer for approval.			
ORDER MANAGEMENT 89	ORDER MANAGEMENT	Order Validation	Real-time multi-portfolio post-trade compliance analysis			
ORDER MANAGEMENT 90	ORDER MANAGEMENT	Order Validation	Scheduled post trade compliance review with reminder/alarm (for exceeding or expiring lines)			
ORDER MANAGEMENT 91	ORDER MANAGEMENT	Order Validation	System should have the capability to override / approve transactions with exceeding limits			
ORDER MANAGEMENT 92	ORDER MANAGEMENT	Order Validation	System should have the capability to override / approve rejected transactions both for single orders and bulk file uploaded orders			
ORDER MANAGEMENT 93	ORDER MANAGEMENT	Order Validation	System should reject orders entered beyond cut-off time			
ORDER MANAGEMENT 94	ORDER MANAGEMENT	Order Validation	System should reject orders when volume is no longer available			
ORDER MANAGEMENT 95	ORDER MANAGEMENT	Order Validation	System should reject orders when order is unfunded			
ORDER MANAGEMENT 96	ORDER MANAGEMENT	Order Validation	For unfunded orders, system should require override/approval for funding that is in transit.			
OPERATIONS 1	OPERATIONS	Settlement Processing	Real time updating of cash balances and holdings as trades and settlements are performed			
OPERATIONS 2	OPERATIONS	Settlement Processing	Capable of handling advance funding: SATT - Securities Account for Tax Tracking			
OPERATIONS 3	OPERATIONS	Settlement Processing	Generate file for uploading to bank settlement accounts posting (debit/credit) in the respective Client/Trust/Operations Accounts maintained in the Bank			
OPERATIONS 4	OPERATIONS	Settlement Processing	Allow processing and posting of scheduled and ad hoc cash receipts and disbursements / deposits and withdrawals.			
OPERATIONS 5	OPERATIONS	Settlement Processing	Allow filtering of cash movements by transaction code/type or by specific securities.			
OPERATIONS 6	OPERATIONS	Settlement Processing	Generate debit / credit memos, tickets or advices and provide facility to interface with bank's CASA Core System			
OPERATIONS 7	OPERATIONS	Settlement Processing	Allow processing of interest/coupon payments, maturities and redemptions with corresponding posting to cash balance of accounts/portfolios.			
OPERATIONS 8	OPERATIONS	Settlement Processing	Provision for the use of clearing accounts and admin current accounts to facilitate settlement of trust transactions.			
OPERATIONS 9	OPERATIONS	Settlement Processing	Automatic transfer of funds from clearing accounts to Trust settlement accounts.			
OPERATIONS 10	OPERATIONS	Settlement Processing	Generate Official Receipt / OR for all cash receipt transactions.			
OPERATIONS 11	OPERATIONS	Settlement Processing	Maintain trust settlement accounts on account level or portfolio level (by currency).			
OPERATIONS 12	OPERATIONS	Settlement Processing	Transfer cash from one account / portfolio to another.			
OPERATIONS 13	OPERATIONS	Settlement Processing	Allow real time updating of cash balances as trades and settlements are done.			
OPERATIONS 14	OPERATIONS	Settlement Processing	Process coupon/ maturities on a per custodian basis.			
OPERATIONS 15	OPERATIONS	Settlement Processing	Settlement of withdrawal/purchase of investments (swift MT103; swift MT 202; RTGS MT103; RTGS MT202; PB Transfer; BDO Transfer; Own check; Manager's Check; BDO Check and others)			
OPERATIONS 16	OPERATIONS	Settlement Processing	Settlement of withdrawal/purchase of investments: Should also have provision for "book only" settlement which means updating of GL ONLY and NO actual settlement required. Posted cash transactions (Ex. Interests) in client's individual savings accounts should have entries in the system via uploading. (c/o Private Bank)			
OPERATIONS 17	OPERATIONS	Settlement Processing	Provision for bulk settlement			
OPERATIONS 18	OPERATIONS	UITF Processing	Facility to define NAVPU Net Asset Value for different type of funds			
OPERATIONS 19	OPERATIONS	UITF Processing	Net Asset Value (NAVPU) maintenance table on a per product/fund basis)			
OPERATIONS 20	OPERATIONS	UITF Processing	Automatic generation of NAVPU within the day based on a defined criteria (i.e. cutoff time, UITF)			
OPERATIONS 21	OPERATIONS	UITF Processing	Automatic allocation of NAVPU for the fund participants within the day			
OPERATIONS 22	OPERATIONS	UITF Processing	UITF extract file of debit/credit instructions for trust settlement account on specific transaction date			
OPERATIONS 23	OPERATIONS	Accounting	System to be able to monitor physical inventory on a separate module that mirrors clients' books for reconciliation purposes			
OPERATIONS 24	OPERATIONS	Accounting	Off-books transactions / booking of investments with other institutions			
OPERATIONS 25	OPERATIONS	Accounting	Loan refunds (for Unibank)			
OPERATIONS 26	OPERATIONS	Accounting	Mark-to-Market Revaluation of Bonds, Equities and Derivatives (Identification of Frequency - Daily, Weekly, Monthly, etc.)			
OPERATIONS 27	OPERATIONS	Accounting	Payment of Service Charge (for Unibank)			
OPERATIONS 28	OPERATIONS	Accounting	Payment of Liabilities (such as VAT) (for Unibank)			
OPERATIONS 29	OPERATIONS	Accounting	Payment of benefits/ issuance of check (for Unibank)			
OPERATIONS 30	OPERATIONS	Accounting	System approval of transactions and generation of accounting entries			
OPERATIONS 31	OPERATIONS	Accounting	System should be able to backdate adjustments / reversals of auto generated entries of various transactions			
OPERATIONS 32	OPERATIONS	Accounting	Provision for General/Specific Loan Losses. Should align with PFRS9 requirements-based on computed Expected Credit Losses (ECL) rate and system will automatically accrue the amount			
OPERATIONS 33	OPERATIONS	Accounting	Provision for General/Specific Loan Losses - Assignment of % Loss - should be flexible (rates may vary on a case to case basis)			
OPERATIONS 34	OPERATIONS	Accounting	Reversal of LGF - Loan Guarantee Fund (for Unibank)			
OPERATIONS 35	OPERATIONS	Accounting	Upload of bulk transactions (such as check issuances) - monitoring of issued PDCs			

OPERATIONS 36	OPERATIONS	Accounting	Collection / Writing-off of Receivables			
OPERATIONS 37	OPERATIONS	Accounting	Payment / Writing-off of Payables			
OPERATIONS 38	OPERATIONS	Accounting	Maintenance of various types of taxes, rates of taxes and printing of BIR forms.			
OPERATIONS 39	OPERATIONS	Accounting	Taxable and tax exempt parameterized setup on client, account, investment securities			
OPERATIONS 40	OPERATIONS	Accounting	Taxation frequency should follow intetest computation			
OPERATIONS 41	OPERATIONS	Accounting	Taxation rates should follow security and account setup			
OPERATIONS 42	OPERATIONS	Accounting	Monitoring of disbursement of tax on retirement benefits			
OPERATIONS 43	OPERATIONS	Accounting	Handling of tax exemptions, W8-BEN			
OPERATIONS 44	OPERATIONS	Accounting	System to tag the registry / custodian of government securities for lodging of securities, monitoring of taxes, accruals.			
OPERATIONS 45	OPERATIONS	Accounting	Should consider Inter-Portfolio Transfers from Tax-Exempt to Taxable clients and vice versa			
OPERATIONS 46	OPERATIONS	Accounting	Securities application of tax for long term investments (tax-exempt when applicable); Tax computation for bank-issued long term tax-exempt securities (tiering applied: 1-3 years = 20%, 3-4 years = 12%; 4-5 years = 5%). This is for Investment Management Account (IMA) and Trust Account (TA) Tax Monitoring			
OPERATIONS 47	OPERATIONS	Accounting	Securities tax computation and setting up of applicable tax rates. System to identify which accounts will withhold tax depending on the tax status of client.			
OPERATIONS 48	OPERATIONS	Accounting	Securities tax rules and hierarchy at the product/account levels. Mapping of GL entries will differ according to classification and measurement of the financial assets such as financial assets at amortized costs, financial assets at fair value through other comprehensive income (FVOCI) and financial assets at fair value through profit or loss (FVTPL).			
OPERATIONS 49	OPERATIONS	Accounting	BIR Forms Module - Allow creation of BIR Forms (i.e. Form 2307 - can be Excel based) based on taxes withheld/payable by the fund (from accounting entries)			
OPERATIONS 50	OPERATIONS	Accounting	BIR Forms Module - Allow auto-fill of Annual Income Tax Return / Annual Information Form (can be Excel-based) based on financial data from the System			
OPERATIONS 51	OPERATIONS	Accounting	BIR Forms Module - Allow interface with Bank's Withholding Tax Reporting System			
OPERATIONS 52	OPERATIONS	Accounting	System allow manual adjustments of Journal entries (Ex. reversals, cancellations) subject to approval of supervising authority			
OPERATIONS 53	OPERATIONS	Accounting	Allow encoding of prior days transaction (backdating) - (with certain control or validation on amendments)			
OPERATIONS 54	OPERATIONS	Accounting	Handling of auto closing entries for closed accounts and closing of accounts on General Ledger			
OPERATIONS 55	OPERATIONS	Accounting	Exclude/include accrual of interest/income			
OPERATIONS 56	OPERATIONS	Accounting	Exclude/include accrual of expenses (ie. Trust Fees)			
OPERATIONS 57	OPERATIONS	Accounting	Amortization of Bond Premium/Discount on Defined parameters			
OPERATIONS 58	OPERATIONS	Accounting	Classification of Assets based on IASB/FASB requirements for multi-national companies (Unibank) (IASB- International Accounting Standards Board / FASB - Financial Accounting Standards Board)			
OPERATIONS 59	OPERATIONS	Accounting	Demand Deposit Account Report (cash transactions for posting to CASA System of the Bank			
OPERATIONS 60	OPERATIONS	Accounting	Disbursement of DIB (Deposit in Banks) - Other banks (Ex. BPI) (for Unibank)			
OPERATIONS 61	OPERATIONS	Accounting	Depreciation of Properties on Defined Parameters			
OPERATIONS 62	OPERATIONS	Accounting	Allocation of Commission, Participation Fees, Other Income (distribution of rebates to clients)			
OPERATIONS 63	OPERATIONS	Accounting	Set up / Application of Forfeitures/Payables (for Unibank's Provident accounts)			
OPERATIONS 64	OPERATIONS	Accounting	GL/SL Mapping Set Up - Generation of Chart of Accounts (GL/SL), Extract GL/SL entries based on specific duration or specific GL/SL account			
OPERATIONS 65	OPERATIONS	Accounting	Off-books accounts, with nominal booking of php1.00 but investments maintained in back office and off-books GL			
OPERATIONS 66	OPERATIONS	Accounting	Transaction history on a per GL basis that can be exported to a report file			
OPERATIONS 67	OPERATIONS	Accounting	Can map the internal GL code to FRPTI codes			
OPERATIONS 68	OPERATIONS	Accounting	Impairment of Assets (should follow PFRS 9)			
OPERATIONS 69	OPERATIONS	Accounting	Should automatically compute the impairment and book in GL based on the rates (Exposure at default x probability of default x loss given default); With encoding or upload facility at the security level to update the Probability of Default (PD) and Loss Given Default (LGD); Expected Credit Losses (ECL) booking similar to Mark To Market (MTM)			
OPERATIONS 70	OPERATIONS	Accounting	Interface of accounting entries / transactions from other systems			
OPERATIONS 71	OPERATIONS	Accounting	Interest Computation on defined parameters			
OPERATIONS 72	OPERATIONS	Accounting	Posting of Manual Adjusting Entries with specifications			
OPERATIONS 73	OPERATIONS	Accounting	Automated Mapping of Journal Entries from Daily Transactions			
OPERATIONS 74	OPERATIONS	Accounting	Handling of Supplementary and Adjusting Entries after month-end			
OPERATIONS 75	OPERATIONS	Check/Invoice Issuance & Printing Facility	Facility for bank reconciliation for checks issued, paid, voided etc. including reports relative to it.			
OPERATIONS 76	OPERATIONS	Check/Invoice Issuance & Printing Facility	Maintenance of check number file and certificate number file to cater for alphanumeric issuance which includes prefix, suffix and increments.			
OPERATIONS 77	OPERATIONS	Check/Invoice Issuance & Printing Facility	Check printing facility for refund, commissions and proceeds of IPO and Receiving Agency Accounts			
OPERATIONS 78	OPERATIONS	Check/Invoice Issuance & Printing Facility	Generate checks for settlement payment, retirement benefit payment, and account withdrawal.			

RISK MANAGEMENT 1	RISK MANAGEMENT	Marking to Market of Securities	Allow automatic uploading of all Securities Market Prices direct from the price source such as Bloomberg and PDEX. Should prompt if the data being uploaded is not for the indicated date.			
RISK MANAGEMENT 2	RISK MANAGEMENT	Marking to Market of Securities	Allow uploading of multiple security prices from different sources (PDEX, Bloomberg)			
RISK MANAGEMENT 3	RISK MANAGEMENT	Marking to Market of Securities	Allow uploading of security prices of a security with several classes (Mutual Funds)			
RISK MANAGEMENT 4	RISK MANAGEMENT	Marking to Market of Securities	Allow manual updating of prices per security such as add, change, and delete. Report on security prices updated manually.			
RISK MANAGEMENT 5	RISK MANAGEMENT	Marking to Market of Securities	Allow historical downloading of prices (either by selected dates or by Security or both)			
RISK MANAGEMENT 6	RISK MANAGEMENT	Marking to Market of Securities	Allow or have the ability to mark-to-market derivative securities (i.e. Asset Swap, Cross Currency Swap, etc.)			
RISK MANAGEMENT 7	RISK MANAGEMENT	Marking to Market of Securities	Allow automatic uploading of FX rates for all outstanding currencies from the rates source such as Bloomberg and PDEX. Should prompt if the data being uploaded is not for the indicated date.			
RISK MANAGEMENT 8	RISK MANAGEMENT	Marking to Market of Securities	Allow checking of price movement of client holdings based on % threshold			
RISK MANAGEMENT 9	RISK MANAGEMENT	Limits Monitoring	Functionality to define, monitor and enforce various limits (Ex. Trade, Counterparty, Broker, Issuance, Industry, Issuer, Loss Alert, Related Parties)			
RISK MANAGEMENT 10	RISK MANAGEMENT	Limits Monitoring	Real-time calculation of counterparty exposure across all asset classes and transactions,			
RISK MANAGEMENT 11	RISK MANAGEMENT	Risk Assessment & Monitoring	Provide tools for risk rating, exposure assessment			
RISK MANAGEMENT 12	RISK MANAGEMENT	Risk Assessment & Monitoring	Generate comprehensive reports for risk analysis, compliance and audit and report should be downloadable			
RISK MANAGEMENT 13	RISK MANAGEMENT	Risk Assessment & Monitoring	Creation of One Security (one ISIN) for Taxable and Tax Exempt, applicable for all accounts instead of Multiple Security for Investment Management Account, Institutional Account, Unit Investment Trust Fund			
RISK MANAGEMENT 14	RISK MANAGEMENT	Risk Assessment & Monitoring	Tagging to the Client/ Accounts / Portfolios / Securities / Investments per specified risk measurement criteria			
RISK MANAGEMENT 15	RISK MANAGEMENT	Risk Assessment & Monitoring	Module for RM's to input client disposition to change in price movement based on % threshold (Investment Risk Escalation Process (IREP) Monitoring)			
RISK MANAGEMENT 16	RISK MANAGEMENT	Risk Assessment & Monitoring	Tagging of embedded derivatives feature of a security			
RISK MANAGEMENT 17	RISK MANAGEMENT	Risk Assessment & Monitoring	Allow set-up of derivative securities			
RISK MANAGEMENT 18	RISK MANAGEMENT	Risk Assessment & Monitoring	Facility to authorize/override transactions with restrictions. Potential breaches should be system-routed to designated officer for approval.			
RISK MANAGEMENT 19	RISK MANAGEMENT	Risk Assessment & Monitoring	Stress test or able to download daily stress test for specific portfolios for a specified period			
RISK MANAGEMENT 20	RISK MANAGEMENT	Risk Assessment & Monitoring	Facility to conduct back testing of VaR versus Theoretical and Actual Income			
RISK MANAGEMENT 21	RISK MANAGEMENT	Risk Assessment & Monitoring	Compute / perform for VAR			
RISK MANAGEMENT 22	RISK MANAGEMENT	Risk Assessment & Monitoring	Compute / perform Back testing			
RISK MANAGEMENT 23	RISK MANAGEMENT	Risk Assessment & Monitoring	Can compute for weighted portfolio/benchmark Macaulay duration and modified duration as of certain period			
RISK MANAGEMENT 24	RISK MANAGEMENT	Risk Assessment & Monitoring	Capability to show the security and weighted portfolio Macaulay duration and modified duration as of a certain date			
RISK MANAGEMENT 25	RISK MANAGEMENT	Risk Assessment & Monitoring	Compute / perform Asset Allocation			
RISK MANAGEMENT 26	RISK MANAGEMENT	Risk Assessment & Monitoring	Use of Gross Price or Net Price (with tagging if the price is net or gross)			
RISK MANAGEMENT 27	RISK MANAGEMENT	Risk Assessment & Monitoring	Aging/monitoring of breach period / curing period			
RISK MANAGEMENT 28	RISK MANAGEMENT	Risk Assessment & Monitoring	Capability to generate or customize reports based on data in the system for future regulatory requirements			
RISK MANAGEMENT 29	RISK MANAGEMENT	Risk Assessment & Monitoring	Report for new securities with no price or zero price			
RISK MANAGEMENT 30	RISK MANAGEMENT	Risk Assessment & Monitoring	Report on uploaded or manually added prices and FX rates prior to reflecting to clients' reports			
RISK MANAGEMENT 31	RISK MANAGEMENT	Risk Assessment & Monitoring	System should be able to handle reinvestment and rollover of Maturities			
RISK MANAGEMENT 32	RISK MANAGEMENT	Pre-Trade & Post Trade Alerts & Validations	Alerts when limits are reached approached or breached			
RISK MANAGEMENT 33	RISK MANAGEMENT	Pre-Trade & Post Trade Alerts & Validations	Setup of Monitoring Prompts/Reports based of specified Limits			
RISK MANAGEMENT 34	RISK MANAGEMENT	Pre-Trade & Post Trade Alerts & Validations	Real time exposure calculation (pre-trade/pre-booking) with prompt (soft or hard limit/restrictions) on specified Alerts			
RISK MANAGEMENT 35	RISK MANAGEMENT	Pre-Trade & Post Trade Alerts & Validations	Pre-trade and post-trade validation of trade capability			
RISK MANAGEMENT 36	RISK MANAGEMENT	Pre-Trade & Post Trade Alerts & Validations	Scheduled post trade compliance review with reminder/alarm (for exceeding or expiring lines)			
RISK MANAGEMENT 37	RISK MANAGEMENT	Pre-Trade & Post Trade Alerts & Validations	Option for hard and soft validation of trades			

REPORTING & ANALYTICS 1	REPORTING & ANALYTICS	Reports	Queue transactions and reports based on a pre-defined criteria and frequency			
REPORTING & ANALYTICS 2	REPORTING & ANALYTICS	Reports	Data extract/download for the performance analytics reports.			
REPORTING & ANALYTICS 3	REPORTING & ANALYTICS	Reports	Year-end fiscal closing entries (closing of income and expenses into the Balance Sheet)			
REPORTING & ANALYTICS 4	REPORTING & ANALYTICS	Reports	Provide functionality for user-selected data/columns for report inclusion.			
REPORTING & ANALYTICS 5	REPORTING & ANALYTICS	Reports	Allow users to apply filters and sorting options to refine data extracted			
REPORTING & ANALYTICS 6	REPORTING & ANALYTICS	Reports	Allow users to save their custom report configuration for future use or scheduled reporting			
REPORTING & ANALYTICS 7	REPORTING & ANALYTICS	Reports	Schedule/frequency of report sending: monthly / quarterly / upon request			
REPORTING & ANALYTICS 8	REPORTING & ANALYTICS	Reports	Set report deadline and trigger generation/printing of report			
REPORTING & ANALYTICS 9	REPORTING & ANALYTICS	Reports	Enable exporting of reports in various formats (i.e. Excel,CSV,PDF)			
REPORTING & ANALYTICS 10	REPORTING & ANALYTICS	Reports	Generation/printing of information and forms (screen or file) with sorting options			
REPORTING & ANALYTICS 11	REPORTING & ANALYTICS	Reports	Generation of report via real time, scheduled, batch process, custom parameters per client/ account/ group/ product/ transaction type/ date range			
REPORTING & ANALYTICS 12	REPORTING & ANALYTICS	Reports	Client transmittal reports/ delivery receipts			
REPORTING & ANALYTICS 13	REPORTING & ANALYTICS	Reports	Client report facility for reprinting with remarks reason for reprinting and list of re-printed client reports.			
REPORTING & ANALYTICS 14	REPORTING & ANALYTICS	Reports	Can define report form: hard copy or email with passwords, SMS, and generate/print based on tagged report requirement by account / portfolio			
REPORTING & ANALYTICS 15	REPORTING & ANALYTICS	Reports	Summary reports can be viewed on screen per portfolio or per account			
REPORTING & ANALYTICS 16	REPORTING & ANALYTICS	Reports	System to provide report to identify Branch Transactions (OTC - Over the Counter) vs Online Transactions for MIS Reporting and rewards/incentives to the Branches			
REPORTING & ANALYTICS 17	REPORTING & ANALYTICS	Reports	Customizable format of statement of account			
REPORTING & ANALYTICS 18	REPORTING & ANALYTICS	Reports	Generate financial statements in PDF format (i.e. Daily, Weekly, Monthly)			
REPORTING & ANALYTICS 19	REPORTING & ANALYTICS	Reports	Generate list of clients per group code or related accounts			
REPORTING & ANALYTICS 20	REPORTING & ANALYTICS	Reports	Generate Transaction Advice/Confirmation of Participation on every Admission /Redemption/Buy/Sell transactions. Scheduled/parameterized printing/distribution/sending facility based on defined client/account/ (ie. There are select institutional accounts where sending of transaction advice/confirmation of participation is NOT required).			
REPORTING & ANALYTICS 21	REPORTING & ANALYTICS	Reports	Covered Transaction Reporting			
REPORTING & ANALYTICS 22	REPORTING & ANALYTICS	Reports	Escheats			
REPORTING & ANALYTICS 23	REPORTING & ANALYTICS	Reports	Capable of generating EDD (Enhanced Due Diligence) report and can trigger reports to concerned Account Officer; For high risk accounts			
REPORTING & ANALYTICS 24	REPORTING & ANALYTICS	Reports	Details to be included in the certification of holdings must be parameterized but at the minimum should include account number, name, account classification, market value, purpose of loan, requestor, all holdings or select holdings.			
REPORTING & ANALYTICS 25	REPORTING & ANALYTICS	Reports	Anti Money Laundering Reporting via SAS AML Download/Upload Files - Daily AMLA Reporting based on AMLA specified reporting parameters			
REPORTING & ANALYTICS 26	REPORTING & ANALYTICS	Reports	Report writer facility equipped with nested calculation function			
REPORTING & ANALYTICS 27	REPORTING & ANALYTICS	Reports	Hold Out Report of Initial Tagging/Release of Hold-out			
REPORTING & ANALYTICS 28	REPORTING & ANALYTICS	Return on Investments (ROI)	Provide ROI for the assets on specified parameters - ROI for the lease/rental income of real properties; Overall ROI (cost method and marked-to-market valuation); computation of ROI on a per account, group of accounts/portfolios, per currency, per managed account (discretionary/directional); Migrate historical ROI records.			
GENERAL REQUIREMENTS 1	GENERAL REQUIREMENTS	General Requirements	Real-time integration and data exchange with internal and external systems (i.e. Enterprise Banking Systems)			
GENERAL REQUIREMENTS 2	GENERAL REQUIREMENTS	General Requirements	Interface to Bank (ie BDO) for the Time Deposit bookings.			
GENERAL REQUIREMENTS 3	GENERAL REQUIREMENTS	General Requirements	Facility to interface with exchange trading platforms (PDEX, Bloomberg, etc.) to avoid / minimize double encoding			
GENERAL REQUIREMENTS 4	GENERAL REQUIREMENTS	General Requirements	Allow user to create and maintain order management templates (i.e. different type of orders, buy, sell, withdrawal)			
GENERAL REQUIREMENTS 5	GENERAL REQUIREMENTS	General Requirements	Order Management templates will include a feature that allows users to configure workflows or approval processes, enabling customized control over order management actions			
GENERAL REQUIREMENTS 6	GENERAL REQUIREMENTS	General Requirements	Facility for Client-Portfolio-Account Structure			

GENERAL REQUIREMENTS 7	GENERAL REQUIREMENTS	General Requirements	Capable of consolidating Client, Portfolio, Account Structure on both Master Trust and Account level.			
GENERAL REQUIREMENTS 8	GENERAL REQUIREMENTS	General Requirements	Facility to link with other information captured by the system using the unique client identification number			
GENERAL REQUIREMENTS 9	GENERAL REQUIREMENTS	General Requirements	Customer Relationship Management (CRM) type consolidation on client, account, portfolio			
GENERAL REQUIREMENTS 10	GENERAL REQUIREMENTS	General Requirements	Provide system-generated Trust Account Numbers (preferably client number-product code - TA/Activity No.) for ease of determining the product opened / subscribed by client. Should have unified format (based on FRPTI series) for easy cross-referencing between/among other systems			
GENERAL REQUIREMENTS 11	GENERAL REQUIREMENTS	General Requirements	System must provide the flexibility to configure and customize different setups for multiple entities, such as parent companies, subsidiaries, or business units (i.e. Trust Group, Private Banking, BDO Sec)			
GENERAL REQUIREMENTS 12	GENERAL REQUIREMENTS	General Requirements	Ability to customize data elements displayed on specific screens according to the unique requirements of each entity. (i.e. one subsidiary may require different data fields on a particular screen compared to another)			
GENERAL REQUIREMENTS 13	GENERAL REQUIREMENTS	General Requirements	Ability to define and manage distinct lists of values (LOVs) for dropdown menus, selection lists, and other interface elements based on the specific needs of each entity			
GENERAL REQUIREMENTS 14	GENERAL REQUIREMENTS	General Requirements	Ability to create and modify workflows independently for each entity, ensuring that business processes can be tailored to the specific operational requirements and approval hierarchies of each entity			
GENERAL REQUIREMENTS 15	GENERAL REQUIREMENTS	General Requirements	Ability to customize dashboard according to the unique requirements of each entity. For example, data records for each entity should not be visible to other entities or users to that entity			
GENERAL REQUIREMENTS 16	GENERAL REQUIREMENTS	General Requirements	Ability to define and manage users for each entity limiting users to view and take action to its assigned entity			
GENERAL REQUIREMENTS 17	GENERAL REQUIREMENTS	General Requirements	Facility to add fields (future regulatory / compliance reqt / etc...)			
GENERAL REQUIREMENTS 18	GENERAL REQUIREMENTS	General Requirements	System should be able to handle creation of Client, Account, Portfolio, Orders and Maintenance via Online Channels (Client and Branch Portals, Mobile App)			
GENERAL REQUIREMENTS 19	GENERAL REQUIREMENTS	General Requirements	Branch of account should be automatically assigned based on the user ID of the maker			
GENERAL REQUIREMENTS 20	GENERAL REQUIREMENTS	General Requirements	Straight-through processing; can interface with various front-end and back-end facilities to update its central database of enrollment and transactional information based on specified interface platforms			
GENERAL REQUIREMENTS 21	GENERAL REQUIREMENTS	General Requirements	Capture information encoded from various contact points (ie. Head Office, Branch, Clients, Mobile App)			
GENERAL REQUIREMENTS 22	GENERAL REQUIREMENTS	General Requirements	Provide an inquiry screen for static and demographic data based on enrollment information (Ex. EIP) from various contact points (ie. Head Office, Branch, Clients, Mobile App)			
GENERAL REQUIREMENTS 23	GENERAL REQUIREMENTS	General Requirements	Validation on creation of duplicate Client, Account, Portfolio vs. internal/external systems.			
GENERAL REQUIREMENTS 24	GENERAL REQUIREMENTS	General Requirements	Configurable cutoff time per process , product, contact points/channels, user			
GENERAL REQUIREMENTS 25	GENERAL REQUIREMENTS	General Requirements	Should be able to Encrypt files as needed (e.g. Certificate of Participation (COP) / Disclosure Statements, Statement of Accounts, Reports, etc.)			
GENERAL REQUIREMENTS 26	GENERAL REQUIREMENTS	General Requirements	Should be able to Password Protect files as needed (e.g. Certificate of Participation (COP) / Disclosure Statements, Statement of Accounts, Reports, etc.)			
GENERAL REQUIREMENTS 27	GENERAL REQUIREMENTS	General Requirements	Should be able to handle (Allow Input/Use) Special Characters			
GENERAL REQUIREMENTS 28	GENERAL REQUIREMENTS	General Requirements	Should have an auto-log out feature for idle time on the system			
GENERAL REQUIREMENTS 29	GENERAL REQUIREMENTS	General Requirements	There must be a facility to re-tag mandatory fields to make them non-mandatory and vice versa.			
GENERAL REQUIREMENTS 30	GENERAL REQUIREMENTS	General Requirements	If mandatory fields are not filled up, creation of clients/portfolios/accounts and/or booking of transactions must not proceed unless there is an overriding approval from a designated officer. Mandatory fields should be highlighted in the system for guidance of user.			
GENERAL REQUIREMENTS 31	GENERAL REQUIREMENTS	General Requirements	Uniform date, time, currency formats for the entire integrated system			
GENERAL REQUIREMENTS 32	GENERAL REQUIREMENTS	General Requirements	Masking of client and account names; only mnemonics and account numbers should appear on screen display except for Covered Transaction (CT) Reporting and generation of document delivery receipts.			
GENERAL REQUIREMENTS 33	GENERAL REQUIREMENTS	General Requirements	New system can handle orders even if market is closed, (i.e. no need to close the subscription/redemption orders if there are fortuitous events. Any orders received when markets are closed due to typhoon, holidays, social unrest, closure of counterparties, etc, will be processed on the next available banking day.			
GENERAL REQUIREMENTS 34	GENERAL REQUIREMENTS	General Requirements	System should be able to handle schedule / unscheduled holidays. Configurable holiday (NO order/trading), per process (admission, redemption), per product, contact points/channels, user			
GENERAL REQUIREMENTS 35	GENERAL REQUIREMENTS	General Requirements	System to allow role-specific permissions and access levels per defined roles (Relationship Manager, Processor), per Approval Level (Maker/Checker), per Function (Setup, Client, Account, Order, Reports, File Generation)			
GENERAL REQUIREMENTS 36	GENERAL REQUIREMENTS	General Requirements	Define access rights of users on Client, Account, Portfolio (e.g. Restrict access to designated Account Managers only.)			
GENERAL REQUIREMENTS 37	GENERAL REQUIREMENTS	General Requirements	Define access rights of users across or select Business Unit (i.e. Head Office view to Branch Accounts)			
GENERAL REQUIREMENTS 38	GENERAL REQUIREMENTS	General Requirements	Real-time monitoring of user activities			

GENERAL REQUIREMENTS 39	GENERAL REQUIREMENTS	General Requirements	Facility to tag branches Branches who are authorized to offer Basic or Specialty UITF's			
GENERAL REQUIREMENTS 40	GENERAL REQUIREMENTS	General Requirements	Branch Maintenance Masters Setup			
GENERAL REQUIREMENTS 41	GENERAL REQUIREMENTS	General Requirements	End of Day processing should be triggered by an Operator			
GENERAL REQUIREMENTS 42	GENERAL REQUIREMENTS	General Requirements	Definition of user roles			
GENERAL REQUIREMENTS 43	GENERAL REQUIREMENTS	General Requirements	Support for multifactor authentication and SSO Single Sign On Integration			
GENERAL REQUIREMENTS 44	GENERAL REQUIREMENTS	General Requirements	Password policies and user authentication protocols			
GENERAL REQUIREMENTS 45	GENERAL REQUIREMENTS	General Requirements	Centralized User Management Dashboard			
GENERAL REQUIREMENTS 46	GENERAL REQUIREMENTS	General Requirements	Access Logging and Monitoring			
GENERAL REQUIREMENTS 47	GENERAL REQUIREMENTS	General Requirements	Users can create new custom fields without limitations			
GENERAL REQUIREMENTS 48	GENERAL REQUIREMENTS	General Requirements	Define field properties such as String, Boolean, Integer, Floating, Date, DateTime, Time, Decimal, Currency, Choice, Record, Hyperlink			
GENERAL REQUIREMENTS 49	GENERAL REQUIREMENTS	General Requirements	Implement validation rules to ensure data integrity and accuracy			
GENERAL REQUIREMENTS 50	GENERAL REQUIREMENTS	General Requirements	Comprehensive logging and audit trail of all actions taken or orders, including entry, review approval and execution			
GENERAL REQUIREMENTS 51	GENERAL REQUIREMENTS	General Requirements	Record timestamps and user identifiers for each login and logout			
GENERAL REQUIREMENTS 52	GENERAL REQUIREMENTS	General Requirements	Track when and which data is accessed by users or system processes			
GENERAL REQUIREMENTS 53	GENERAL REQUIREMENTS	General Requirements	Log changes made to client profiles, accounts, portfolios and any financial transaction			
GENERAL REQUIREMENTS 54	GENERAL REQUIREMENTS	General Requirements	Monitor updates to system configuration, permission and security settings			
GENERAL REQUIREMENTS 55	GENERAL REQUIREMENTS	General Requirements	Generate reports from audit trail data for compliance audits, internal reviews			
GENERAL REQUIREMENTS 56	GENERAL REQUIREMENTS	General Requirements	Define a retention policy for audit logs to comply with regulatory requirements and Bank policies			
GENERAL REQUIREMENTS 57	GENERAL REQUIREMENTS	General Requirements	System must have built-in control for specific system action (i.e. Maker Checker Validation)			
GENERAL REQUIREMENTS 58	GENERAL REQUIREMENTS	General Requirements	Facility to set limits to a specific user or role in the system (minimum and maximum)			
GENERAL REQUIREMENTS 59	GENERAL REQUIREMENTS	General Requirements	The system should be able to send product updates/information automatically via email or SMS			
GENERAL REQUIREMENTS 60	GENERAL REQUIREMENTS	General Requirements	Facility to monitor delivery status of communication sent to clients (i.e. Delivery failure)			
GENERAL REQUIREMENTS 61	GENERAL REQUIREMENTS	General Requirements	Should be able to generate letters of advice to clients and generate from a database (Thank You letters, email and password letters, amendment letters, closing letters, corporate action letters) and send via hardcopy, email, SMS			
GENERAL REQUIREMENTS 62	GENERAL REQUIREMENTS	General Requirements	Facility to set up password protection for generated forms/notices/reports to clients (i.e. Financial Statements)			
GENERAL REQUIREMENTS 63	GENERAL REQUIREMENTS	General Requirements	Batch generation of reports and sorting by client's specific mailing instructions and dispatch location who will handle the dispatch to clients; can be regenerated in case of trade/security set-up changes for all accounts or selective accounts (Confirmation of Transaction/Financial Statements)			
GENERAL REQUIREMENTS 64	GENERAL REQUIREMENTS	General Requirements	System must have available APIs for specific system action			
GENERAL REQUIREMENTS 65	GENERAL REQUIREMENTS	General Requirements	Seamless integration with execution platforms (internal/external) for order routing and processing			
GENERAL REQUIREMENTS 66	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate data on clients, accounts and holdings of in-house unit income investment funds (UITF) products and its registry data			
GENERAL REQUIREMENTS 67	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate scheduled investment plan of accounts invested in UITF products			
GENERAL REQUIREMENTS 68	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate data on clients, accounts, portfolios and holdings (lot-wise, if applicable) of branch-referred accounts & accounts onboarded online			
GENERAL REQUIREMENTS 69	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate data on clients, accounts, portfolios and holdings (lot-wise, if applicable) of Trust accounts			
GENERAL REQUIREMENTS 70	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate tax scheme attached to an account/portfolio			
GENERAL REQUIREMENTS 71	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate trust fees structure/scheme attached to an account/portfolio			
GENERAL REQUIREMENTS 72	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate status of submitted/required documents (for document monitoring)			
GENERAL REQUIREMENTS 73	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate cut-off and historical transactions			
GENERAL REQUIREMENTS 74	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate cut-off and historical GL/SL account and balances, including ROI of accounts for continuity in generating the ROI in the Application for the remaining period of the year			
GENERAL REQUIREMENTS 75	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate accrued trust fee payable of branch-referred accounts			

GENERAL REQUIREMENTS 76	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate historical ADB			
GENERAL REQUIREMENTS 77	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate NAVpus of all UITFs and price of securities			
GENERAL REQUIREMENTS 78	GENERAL REQUIREMENTS	General Requirements	Legacy primary keys, such as but not limited to the following, should be used to identify data relationships without any dependency on the new Application - Bank CASA System Client Identification No (CIF No) - Customer Mnemonic Number (CMNE) - Global Plus Trust Account Number - Account External Number - Portfolio Number and Sequence - UITF Account Number - UITF Certificate Of Participation (COP) No - Retail IMA/TA Disclosure Statement (DS) No - general ledger/subsidiary ledger code - security identifier (ISIN / Ticker Symbol / Bank Account No / internal number, short description)			
GENERAL REQUIREMENTS 79	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate all active securities (with each security's details - ie value date, maturity date, currency, coupon dates (from 1st cpn date to last), taxability, accrued interest, premium/discount amortization, market value, book value, accumulated depreciation, among others) such as but not limited to the following : - Unit Investment Trust Funds - fixed income securities - equities - debt instruments (ie. time deposits, BSP bills) - hybrid securities (ie. preferred shares with debt features) - mutual funds - real estate/investment properties - insurance - VUL - stock certificates - club shares - vehicles & equipment - cross currency swaps / CCS and underlying securities of asset swaps and other derivatives			
GENERAL REQUIREMENTS 80	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate pending corporate actions of financial assets as of cut-off/migration			
GENERAL REQUIREMENTS 81	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate pending transactions for settlement as of cut-off/migration date			
GENERAL REQUIREMENTS 82	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate Employee Benefit Trust client, account, employee and employer registry details			
GENERAL REQUIREMENTS 83	GENERAL REQUIREMENTS	General Requirements	Should be able to migrate users and roles via upload facility			
GENERAL REQUIREMENTS 84	GENERAL REQUIREMENTS	General Requirements	The Application should be able to migrate and recognize the special characters such as N/b, ~, -, () , ~			
GENERAL REQUIREMENTS 85	GENERAL REQUIREMENTS	General Requirements	Should be able to populate reference tables or code files using an upload facility			
GENERAL REQUIREMENTS 86	GENERAL REQUIREMENTS	General Requirements	Should have a well-established process in setting up application and db environment (which includes parameter set-up) for retesting without the need to re-encode data (ie transactional data/logs can be deleted while retaining reference tables and application parameters)			
GENERAL REQUIREMENTS 87	GENERAL REQUIREMENTS	General Requirements	Should have a tool to reconcile migrated data against original source data			
GENERAL REQUIREMENTS 88	GENERAL REQUIREMENTS	General Requirements	Should be able to provide a strong and well-defined methodology to transform and load the extracted data from the legacy systems to the Application. The loading process should generate sufficient information to facilitate correction of erroneous entries.			
GENERAL REQUIREMENTS 89	GENERAL REQUIREMENTS	General Requirements	Dashboard for real-time tracking of order status from entry through execution. Dashboard view definable based on User credentials, access rights/ roles .			
GENERAL REQUIREMENTS 90	GENERAL REQUIREMENTS	General Requirements	Allow SMS/ E-mail sending of transaction advice for each Admission and Redemption/Partial Redemption			
GENERAL REQUIREMENTS 91	GENERAL REQUIREMENTS	General Requirements	Facility for integrate with Bank system for the real time settlement of funding/proceeds to client's bank account maintained in the Bank; earmarking of investments amount (on T-1). Receive integration responses from the Bank system (ie. successful/unsuccessful integration of debit/credit posting)			
GENERAL REQUIREMENTS 92	GENERAL REQUIREMENTS	General Requirements	Capable of extracting data and uploading the same to other systems (Bank's Core System - Bank CASA System, AMLA System - AMLA SAS, etc.)			
GENERAL REQUIREMENTS 93	GENERAL REQUIREMENTS	General Requirements	System to have uploading facility for various date (client, account, transactions)			
CHANNEL SYSTEMS FUNCTIONAL REQUIREMENTS						
CH0001	GENERAL REQUIREMENTS	Multi - channel portals	Replace the current client and branch portals with a new Trust Online Portals consisting of the following: 1) Web-based Client Portal application that is mobile responsive and can be accessed by BDO clients 24/7 2) Mobile application version of the web-based Client Portal that can be accessed by BDO clients 24/7 3) Branch Portal that can be used by the BDO Branches to encode Trust transactions, view outstanding Trust placements, etc			

CH0002	GENERAL REQUIREMENTS	Multi - channel portals	The Trust Online Portals should be able to integrate with the Trust Core System or System of Records (SOR)			
CH0003	GENERAL REQUIREMENTS	Multi - channel portals	The Trust Online Portals should be able to interface with applicable enterprise/internal applications to retrieve client information, risk profiles, CA/SA balances, etc. and to external applications for TIN verification, etc			
CH0004	GENERAL REQUIREMENTS	Security Feature	Log-in should have a parameterized Password Expiration feature			
CH0005	GENERAL REQUIREMENTS	Security Feature	Log-in should have a Two-Factor Authentication Process for Log-in (username, password and OTP sent to client's registered mobile number)			
CH0006	GENERAL REQUIREMENTS	Security Feature	Should have a parameterized auto log-out or session time-out feature for idle time on the system			
CH0007	GENERAL REQUIREMENTS	Security Feature	Simultaneous log-in of the same user-id in different workstations or devices should not be allowed			
CH0008	GENERAL REQUIREMENTS	Security Feature	Should have an audit trail or system log for all log-ins and log-outs to and from the system, for all activities per module			
CH0009	GENERAL REQUIREMENTS	Security Feature	Transactions done via the Trust Online Portals should trigger the Core system to create email notifications that will be sent only to the client's registered email address. A tracking system for sent and unsent email notifications should also be in place.			
CH0010	GENERAL REQUIREMENTS	Security Feature	Red data in email notifications should be masked (i.e. Account Name, CASA Number, Trust Account) and attachments should be password protected			
CH0011	GENERAL REQUIREMENTS	Data Maintenance	Certain fields must have customizable drop-down menus that can be maintained by the user for specific client information.			
CH0012	GENERAL REQUIREMENTS	Data Maintenance	Facility to re-tag mandatory fields to make them non-mandatory and vice versa. Mandatory fields should be highlighted in the system for guidance of user. System should not allow users to proceed if mandatory fields are not filled out.			
CH0013	GENERAL REQUIREMENTS	Data Maintenance	Should not allow user to proceed if mandatory forms are not tagged as "accepted" or "submitted"			
CH0014	GENERAL REQUIREMENTS	Data Maintenance	Should have a facility to add user-defined fields or rename existing fields, as necessary			
CH0015	GENERAL REQUIREMENTS	Data Maintenance	Should be able to retrieve/capture and display static data (such as Trust Advisories and Updates, Mandatory Forms, etc) stored in the Core System			
CH0016	GENERAL REQUIREMENTS	Data Maintenance	Should have a facility to retrieve/capture and display all legacy data from the Core system (such as Branch Code, Branch Name, Trust Account Numbers, and historical transactions)			
CH0017	GENERAL REQUIREMENTS	Data Maintenance	Should be able to retrieve/capture and display updated Client Records after transactions are posted in the Core system			
CH0018	GENERAL REQUIREMENTS	Data Maintenance	Should be able to retrieve/capture, display, download (as PDF, Read Only CSV and Excel) and print all reports and documents created/generated by the Core system regularly or in various frequencies (daily, weekly, monthly, etc) or upon request			
CH0019	GENERAL REQUIREMENTS	Branch Portal	Access should be limited to designated personnel only and based on the approved user system access matrix, with restricted access to viewing and extraction of client information, account/portfolio balances.			
CH0020	GENERAL REQUIREMENTS	Branch Portal	Establish multi level control: Maker/Checker set-up (DUAL CONTROL) on all modules where set-up, encoding or uploading of information and/or transaction is involved. User should have the option to set-up two or three levels of validation: maker/checker or maker/checker/authorizer.			
CH0021	GENERAL REQUIREMENTS	Branch Portal	Should not allow users to proceed if mandatory fields are not filled out, unless there is an overriding approval from a designated officer.			
CH0022	GENERAL REQUIREMENTS	Branch Portal	Should have a facility to upload data from an excel file when necessary, with the same validation processes as if transactions are encoded manually.			
CH0023	GENERAL REQUIREMENTS	Branch Portal	Should allow the Checker/Approver to perform Single or Batch Approval (Select "All" functionality)			
CH0024	CLIENT ONBOARDING	Client Eligibility	Should be able to validate client eligibility based on set criteria (ex: age and nationality restrictions)			
CH0025	CLIENT ONBOARDING	Client ID Creation	Should be able to retrieve/capture and display basic client information from the enterprise onboarding platform and from the Core System			
CH0026	CLIENT ONBOARDING	Client ID Creation	Should allow clients to upload documents online (ex: Identification Cards) instead of requiring them to go to the branch, and also to avoid document deficiencies; all uploaded documents should be transmitted to the Core system for updating of Client Records			
CH0027	CLIENT ONBOARDING	Account Creation	Branch Portal should allow onboarding of Individual and Corporate Clients, and creation of Single of Joint (and, or, ITF) Accounts			
CH0028	CLIENT ONBOARDING	Client Suitability Assessment	Should prompt New To Trust (NTT) clients to answer the Enterprise Client Suitability Assessment questionnaire and generate the corresponding Risk Profile.			
CH0029	CLIENT ONBOARDING	Client Suitability Assessment	Should allow Existing to Trust (ETT) clients to update Risk Profile by answering the Enterprise Client Suitability Assessment questionnaire			
CH0030	CLIENT ONBOARDING	Client Suitability Assessment	Should be able to transmit the CSA results to the Core System for storing and monitoring of validity or expiry dates. An alert must be sent to clients before the CSA expiry date.			
CH0031	CLIENT ONBOARDING	Client Suitability Assessment	To maintain the integrity of the CSA, clients should not be allowed to answer the CSA questionnaire multiple times in a day			
CH0032	CLIENT ONBOARDING	Client Suitability Assessment	Should not allow client to proceed with any contributions/acceptances if the CSA is expired or no longer valid. Other types transactions, such as redemptions/withdrawals, should not require updating of expired CSA.			
CH0033	CLIENT ONBOARDING	Correspondence	Should provide clients with an option to receive financial reports, notices and advisories automatically, or as requested			
CH0034	CLIENT ONBOARDING	Correspondence	Should provide clients an option to select mode/s of sending of financial reports, notices and advisories			

CH0035	FINANCIAL TOOLS	Goals Based Investing	Should allow clients to set different financial goals (ex: education, hospitalization, retirement, etc) by providing his desired investment amounts on a monthly or yearly basis, or a target future amount given his time frame and risk appetite			
CH0036	FINANCIAL TOOLS	Goals Based Investing	System should calculate the future value or the required monthly or annual investment to meet the financial target, or generate a portfolio mix based on the goals			
CH0037	FINANCIAL TOOLS	Educational Videos	Should be able to play informational / educational videos which can serve as a guide to clients in their investment journey			
CH0038	ORDER MANAGEMENT	Multi currency	Should be able to handle multi currency transactions.			
CH0039	ORDER MANAGEMENT	Modes of Payment	Should allow online FOREX conversion (buy/sell) so that clients without dollar accounts can invest in dollar-denominated securities, and vice versa			
CH0040	ORDER MANAGEMENT	Modes of Payment	Possible modes of payment: Debit CA/SA, Cash, Cheque, Wire Transfer			
CH0041	ORDER MANAGEMENT	Modes of Payment	If client's mode of payment is via Debit CA/SA, real time debiting of account should be processed once a contribution or acceptance is confirmed. Client's available balance should be automatically updated.			
CH0042	ORDER MANAGEMENT	Reference Number	Should be able to provide a system-generated chronological reference number for all transactions, together with the date and time of transaction.			
CH0043	ORDER MANAGEMENT	Portability	Transactions made via branch can be transacted via the online portal and vice versa			
CH0044	ORDER MANAGEMENT	Client Dashboard	Should display all outstanding Trust investments covered by a Confirmation of Participation (COP) and Disclosure Statement (DS), Recent Activities/Transaction History, and all Historical Transactions			
CH0045	ORDER MANAGEMENT	Client Dashboard	Should allow user to personalize the dashboard view according to client's preference (Hide/Unhide)			
CH0046	ORDER MANAGEMENT	Client Dashboard	Should allow user to download the Confirmation of Participation (COP) and Disclosure Statement (DS) in PDF, Read Only CSV and Excel format			
CH0047	ORDER MANAGEMENT	Branch Dashboard	Should have an input field to allow branch user to search for a client using CIF No. or Account Name			
CH0048	ORDER MANAGEMENT	Branch Dashboard	Should provide a quick view of all pertinent information that the branch users need for the day (ex: IMA/TA maturities, quick links to the Trust Products, Trust Advisories)			
CH0049	ORDER MANAGEMENT	Branch Dashboard	Should be compliant with the Branch Visibility Rules - only transactions of clients booked within a particular branch will be visible to the branch user			
CH0050	ORDER MANAGEMENT	UITF Contribution	Should allow user to invest in a UITF by choosing a fund, indicating the amount of contribution, and preferred mode of payment			
CH0051	ORDER MANAGEMENT	UITF Contribution	Should be able to transmit the details of all the UITF contribution orders to the Core System for processing and NAVpu allocation. UITF contribution orders submitted beyond the prescribed cut-off time of the fund will be considered as transactions of the next banking day.			
CH0052	ORDER MANAGEMENT	UITF / EIP Redemption	Should allow user to redeem a UITF placement from the list of his outstanding placements and indicating the preferred mode of payment on settlement date			
CH0053	ORDER MANAGEMENT	UITF / EIP Redemption	Should be able to transmit the details of all UITF/EIP redemption orders to the Core System for processing and payout of proceeds to clients (based on the mode of payment) on settlement date. UITF redemption orders submitted beyond the prescribed cut-off time of the fund will be considered as transactions of the next banking day.			
CH0054	ORDER MANAGEMENT	EIP Enrollment	Should allow user to create an Easy Investment Plan (EIP) by encoding the required information			
CH0055	ORDER MANAGEMENT	EIP Enrollment	Should be able to transmit all the details of Easy Investment Plan enrollments to the Core System for processing and auto-debit of client's nominated CA/SA			
CH0056	ORDER MANAGEMENT	EIP Modification	Should allow user to update EIP transaction details, if needed			
CH0057	ORDER MANAGEMENT	EIP Modification	Should be able to transmit the details of all updated EIP subscriptions to the Core System for processing			
CH0058	ORDER MANAGEMENT	EIP Unsubscription	Should allow user to discontinue the regular debits from his CASA account by unsubscribing the fund from the EIP account			
CH0059	ORDER MANAGEMENT	EIP Unsubscription	Should be able to transmit all the details of Easy Investment Plan unsubscriptions to the Core System for processing			
CH0060	ORDER MANAGEMENT	PERA General Requirements	Should validate maximum number of PERA Products per Contributor based on the set rules and parameters			
CH0061	ORDER MANAGEMENT	PERA General Requirements	Compliant with PERA Rule on Tax Free Distribution Upon submission of valid reason and required documents			
CH0062	ORDER MANAGEMENT	PERA General Requirements	Compliant with PERA Tax Credit Certificate, should be able to process a request based on set details, and be able to view the TCC			
CH0063	ORDER MANAGEMENT	PERA General Requirements	System must be capable of accepting contributions/withdrawals in units and absolute amount			
CH0064	ORDER MANAGEMENT	PERA General Requirements	System must validate cut-off times depending on the product			
CH0065	ORDER MANAGEMENT	PERA General Requirements	System must include Fees and Charges according to Transaction Type			
CH0066	ORDER MANAGEMENT	PERA General Requirements	System must be capable of bulk uploading based on required format			
CH0067	ORDER MANAGEMENT	PERA Onboarding	System must allow PERA Onboarding either New to PERA or Transfer from another PERA administrator			
CH0068	ORDER MANAGEMENT	PERA Onboarding	System should allow API connection with ePERA Sys/PERA Sys that can validate if TIN is existing on BSP PERA Sys			
CH0069	ORDER MANAGEMENT	PERA Onboarding	System should allow API connection with ePERA Sys/PERA Sys that can validate if there is no existing PERA Account on BSP PERA Sys			
CH0070	ORDER MANAGEMENT	PERA Onboarding	Display E-Learning (Video and Info Pages) for new PERA clients. E-Learning Language should be available in English and Taglish			
CH0071	ORDER MANAGEMENT	PERA Notifications	System should notify client on the Transaction Status (Ex. Onboarding, Contribution, Withdrawal, Failed Transactions, etc.)			

CH0072	ORDER MANAGEMENT	PERA Transfer to Another Product	System must be able to accept PERA Transfer to Another Product			
CH0073	ORDER MANAGEMENT	PERA Withdrawal Order	System must be able to accept PERA Withdrawals whether qualified or not based on specified rules and setups. Penalties should be applied on withdrawals that are not qualified.			
CH0074	ORDER MANAGEMENT	Withdrawal for Transfer to another PERA Administrator	Allow user to select new PERA Administrator			
CH0075	ORDER MANAGEMENT	PERA System Contributor File	System must allow generation of required BSP PERA System Contributor File			
CH0076	ORDER MANAGEMENT	PERA System Transaction File	System must allow generation of required BSP PERA System Transaction File			
CH0077	ORDER MANAGEMENT	PERA Account Details Modification	System should allow clients to modify all PERA Contributor Details, PERA Beneficiary Details			
CH0078	ORDER MANAGEMENT	ERP Enrollment	Should allow user to create an Easy Redemption Plan (ERP) and enroll a COP for regular monthly payouts			
CH0079	ORDER MANAGEMENT	ERP Enrollment	Should be able to transmit the details of all ERP enrollments to the Core system for processing and auto-credit of client's nominated CA/SA.			
CH0080	ORDER MANAGEMENT	ERP Unsubscription	Should allow user to discontinue the regular monthly payouts by unsubscribing the ERP account			
CH0081	ORDER MANAGEMENT	IMA /TA Acceptances	Should allow user to make an IMA/TA placement in any of the available investment securities for the day such as Deposits, Fixed Income Securities (Government Securities, Bonds) and Equities			
CH0082	ORDER MANAGEMENT	IMA /TA Acceptances	Should allow user to indicate the amount of Investment, preferred mode of payment and IMA/TA Standing Instructions (such as auto roll, auto credit, auto withdrawal) for their maturities			
CH0083	ORDER MANAGEMENT	IMA /TA Acceptances	Should be able to transmit the details of all IMA/TA acceptance orders to the Core System before the prescribed cut-off time for processing			
CH0084	ORDER MANAGEMENT	IMA /TA Acceptances	Should not allow clients to invest in IMA/TA beyond cut-off time			
CH0085	ORDER MANAGEMENT	IMA /TA Preterminations	Should allow user to preterminate an outstanding IMA/TA placement, subject to the terms and conditions of the underlying security			
CH0086	ORDER MANAGEMENT	IMA /TA Preterminations	Should be able to transmit the details of al IMA/TA pretermination orders to the Core System for processing and payout of net proceeds to clients			
CH0087	ORDER MANAGEMENT	IMA/TA Order Taking for IPO	Should be able to record IMA/TA advanced orders for Initial Public Offerings (IPO) and transmit the details to the Core System for processing of payment on settlement date (and based on the approved allocation)			
CH0088	ORDER MANAGEMENT	IMA/TA Order Taking for IPO	Should be able to track the volume of all IMA/TA advanced orders for IPOs and not go beyond the limited volume
