1. Introduction

An RM can schedule a meeting with a prospective customer, lead and existing customer. An RM can schedule a meeting for different purposes like:

1. RM schedules a meeting with a lead as a part of a campaign. A lead can be - a new to wealth customer, an existing wealth customer or new to bank customer
2. RM schedules a meeting with a customer as a part of a service request
3. RM schedules a meeting with a customer for other reasons except - campaign or service request

On scheduling a meeting, the RMs calendar is updated with the details of the meeting. The RM can also invite other RMs or other staff for the meeting. After meeting the customer, the RM files a call report in the system. A call report can be filed for every meeting scheduled. The RM can also file a standalone call report for situations where a RM meets with the customer without scheduling a meeting in the system

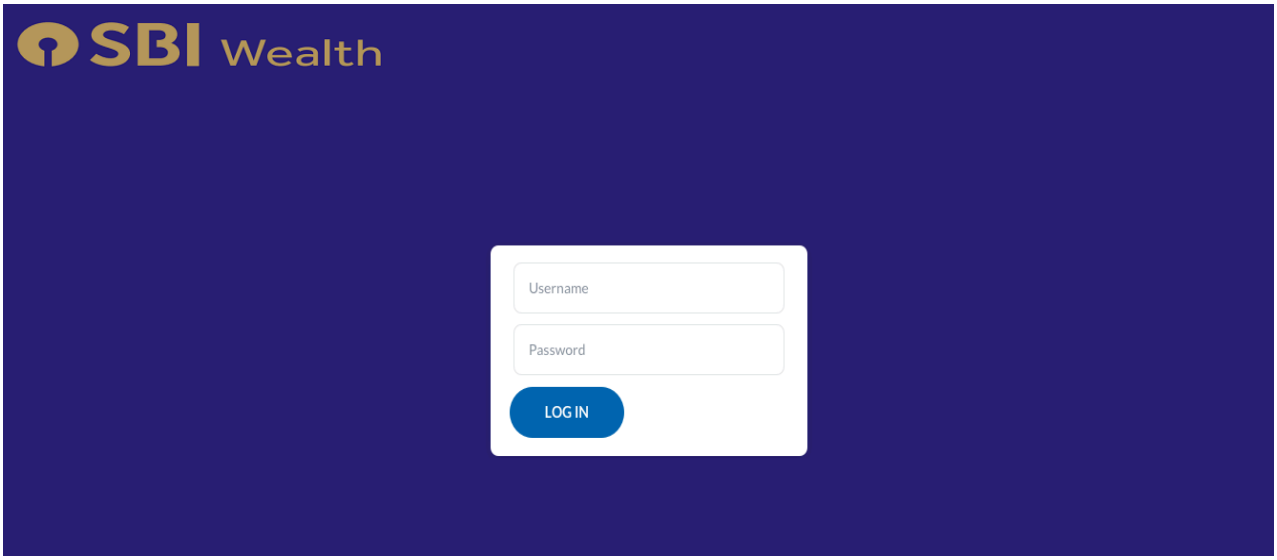
4. Process Description

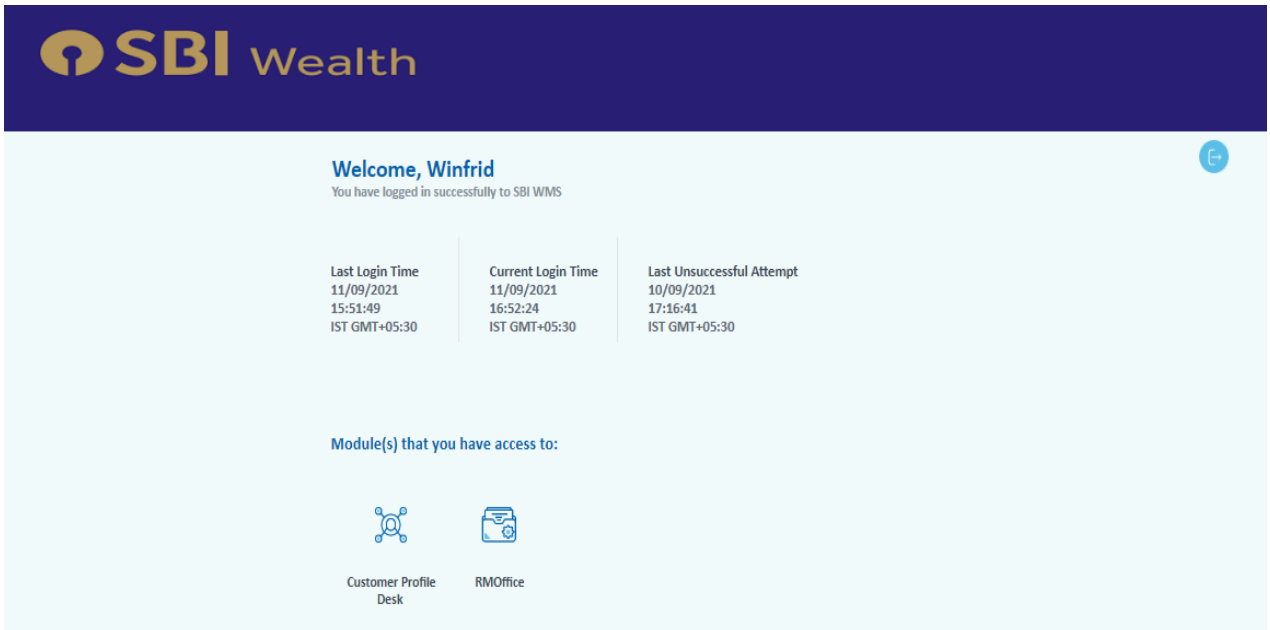
4.1 Login

1 The User enters their credentials and logs into the application



Screen: Launch the application

2 Once logged in, the User clicks on “RM Office” to launch the PMS application

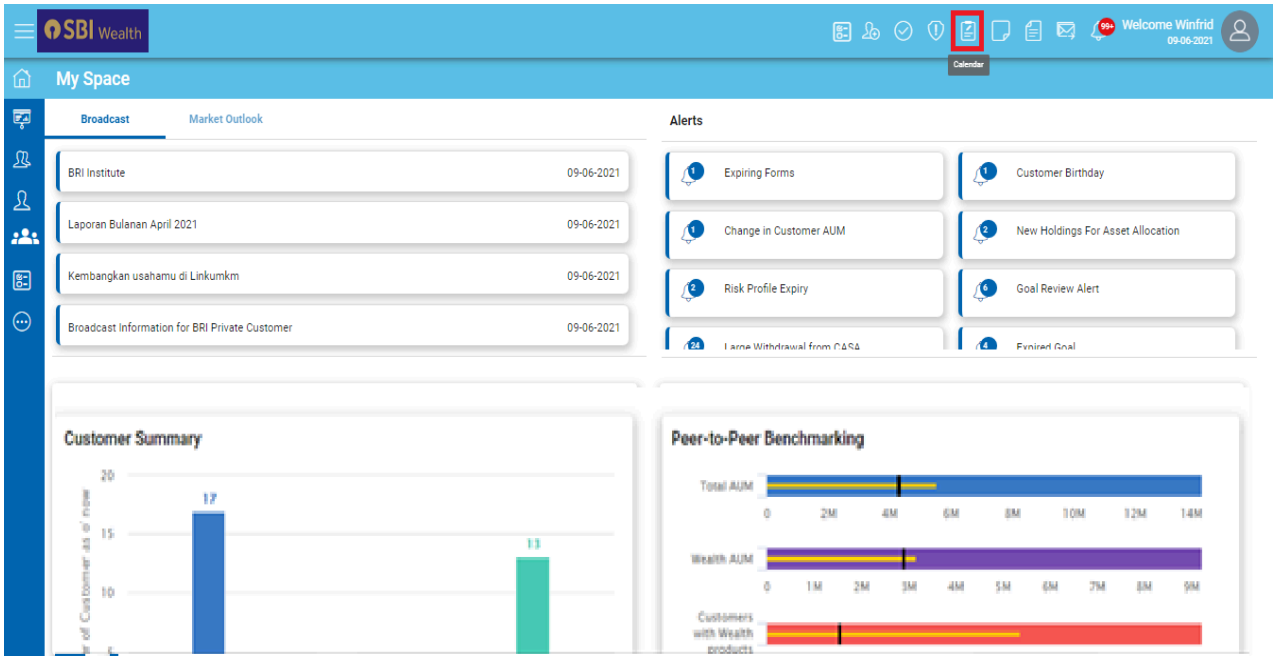


Screen: Select RM Office

4.2 Schedule a Meeting

The objective of this user journey is to enable the user to schedule a meeting. User can schedule meeting and invite attendees to the meeting

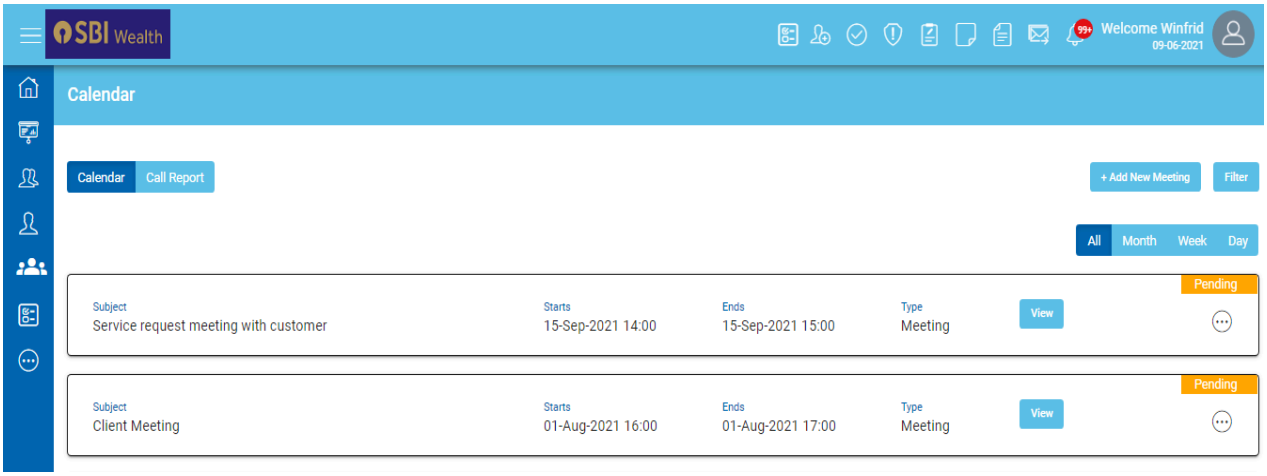
1. The User hovers and clicks on the "Calendar" widget on the top panel in My Space to navigate to the Calendar screen



Screen: Click on Calendar

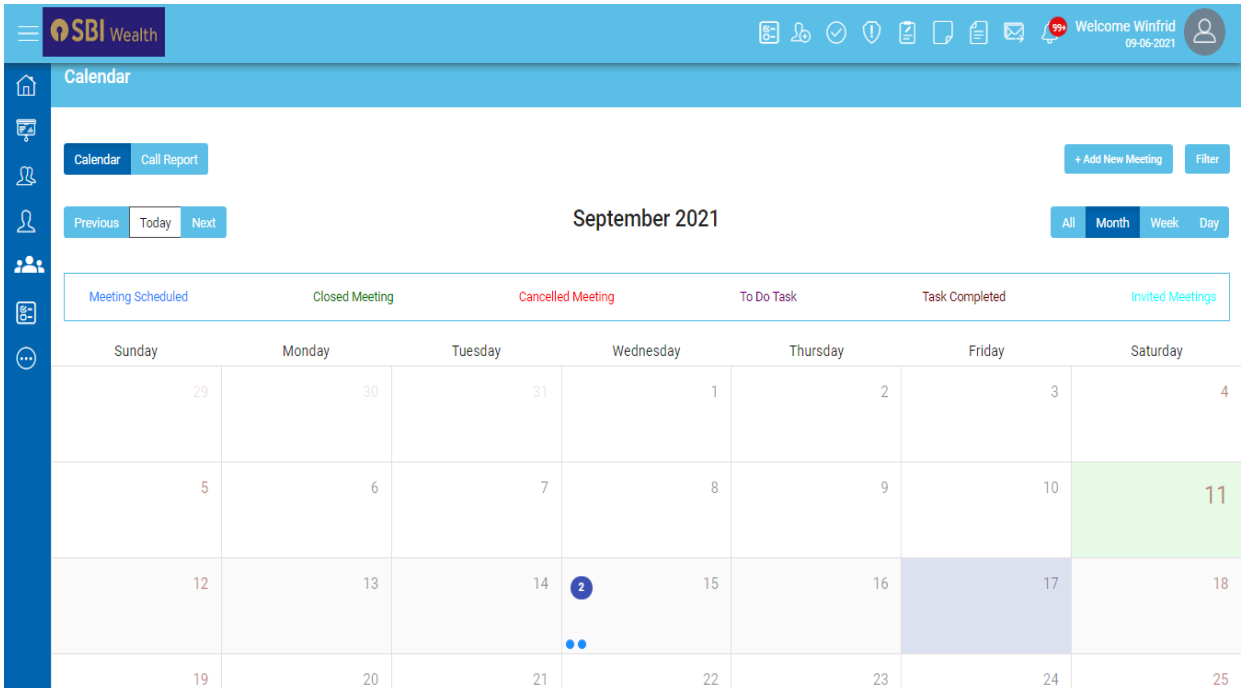
2. On the Calendar screen, the User can view their scheduled Meetings. The Default view is the Monthly view. However, they can customize the view as per their choice in the following ways:

   a. All – List of All scheduled meetings shown



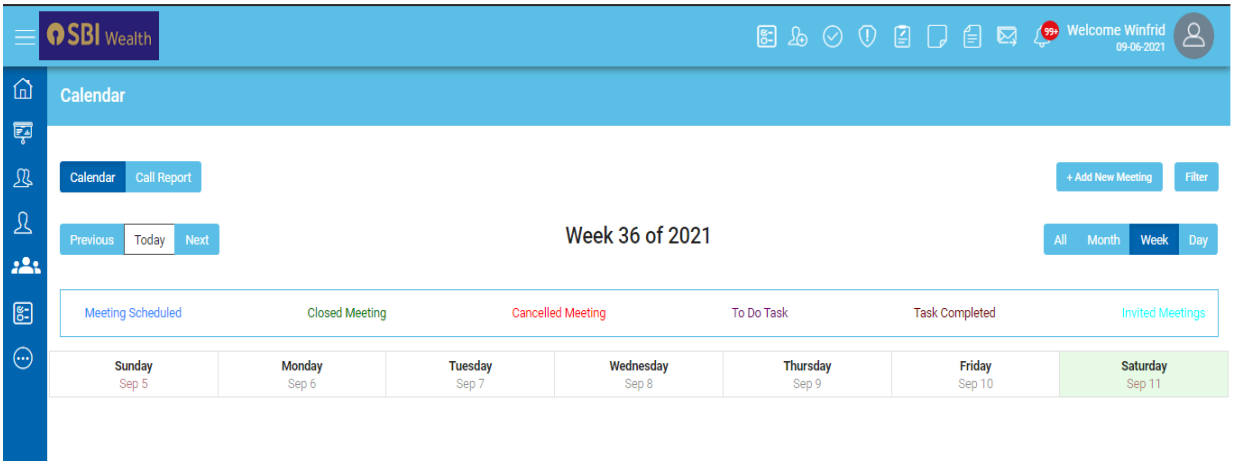
Screen: All Meetings View

   b. Month – Scheduled Meetings for the Month are shown



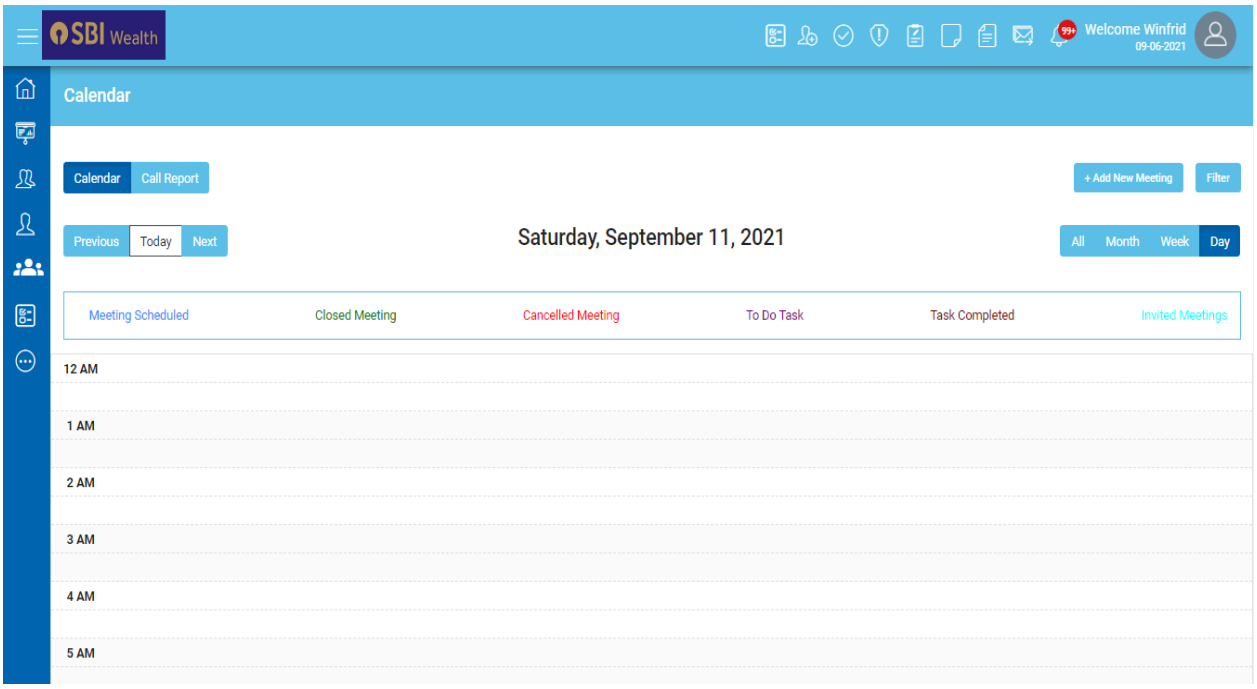
Screen: Monthly Meetings View

c. Week – Scheduled Meetings for the Week are shown



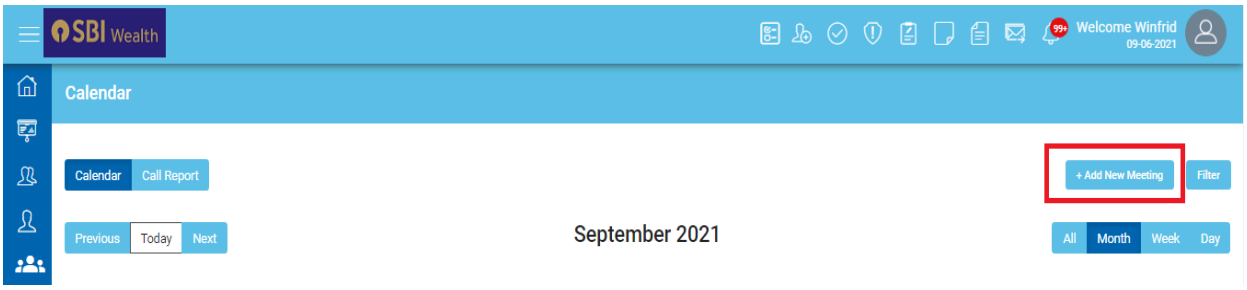
Screen: Weekly Meetings View

d. Day – Scheduled Meetings for the Day are shown



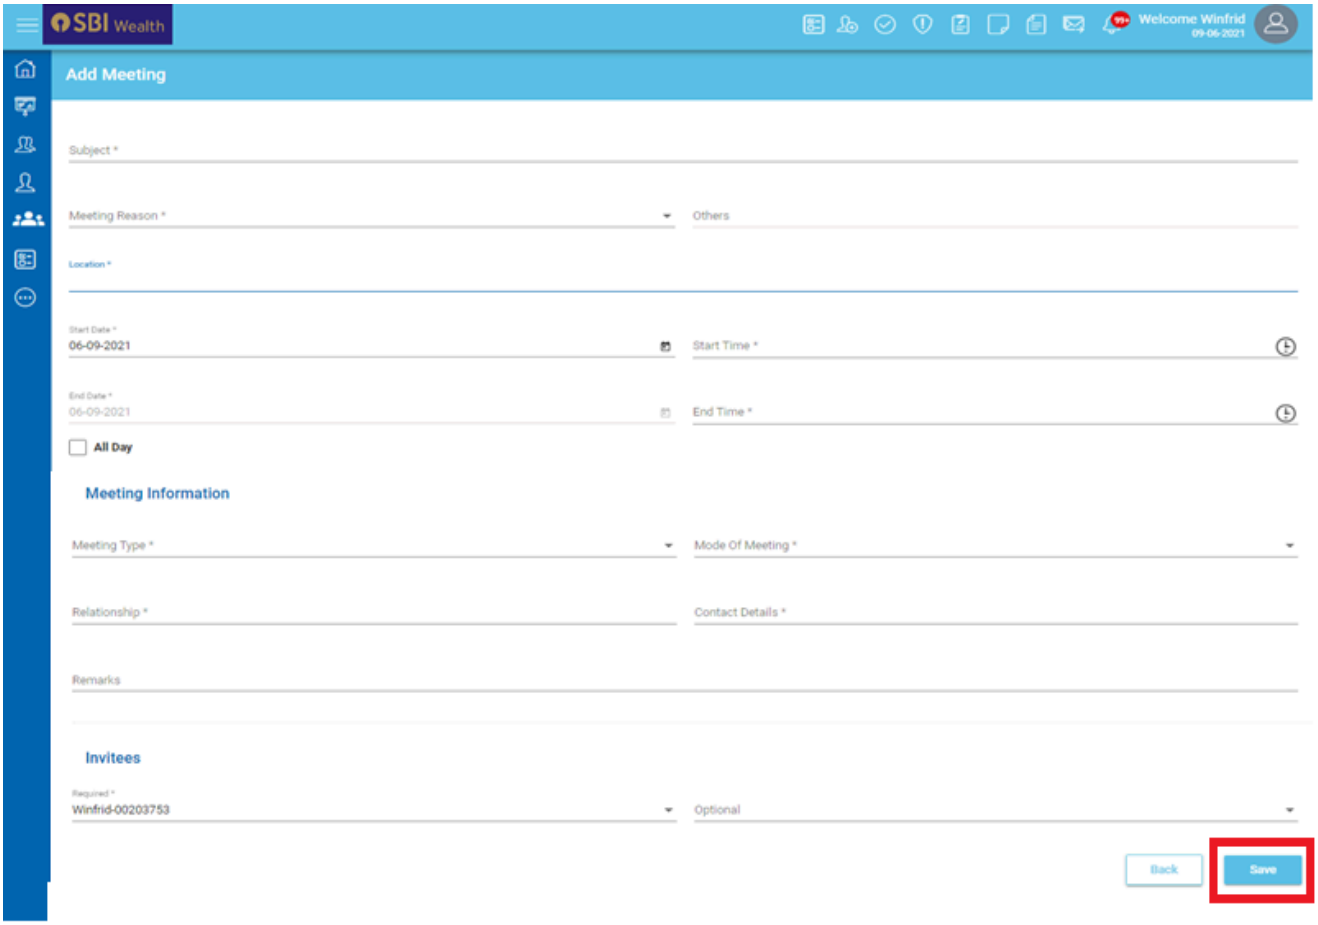
Screen: Day's Meetings View

3. Here, the User can perform the following actions:
    a. Call Report – File a Standalone Call Report for unscheduled meetings (refer section 4.3.3.2 Standalone Call Report for details)
    b. Add New Meeting – Schedule a Meeting with the Customer/Lead/Prospect
4. The User then clicks on the "Add New Meeting" button to navigate to the Add Meeting Screen

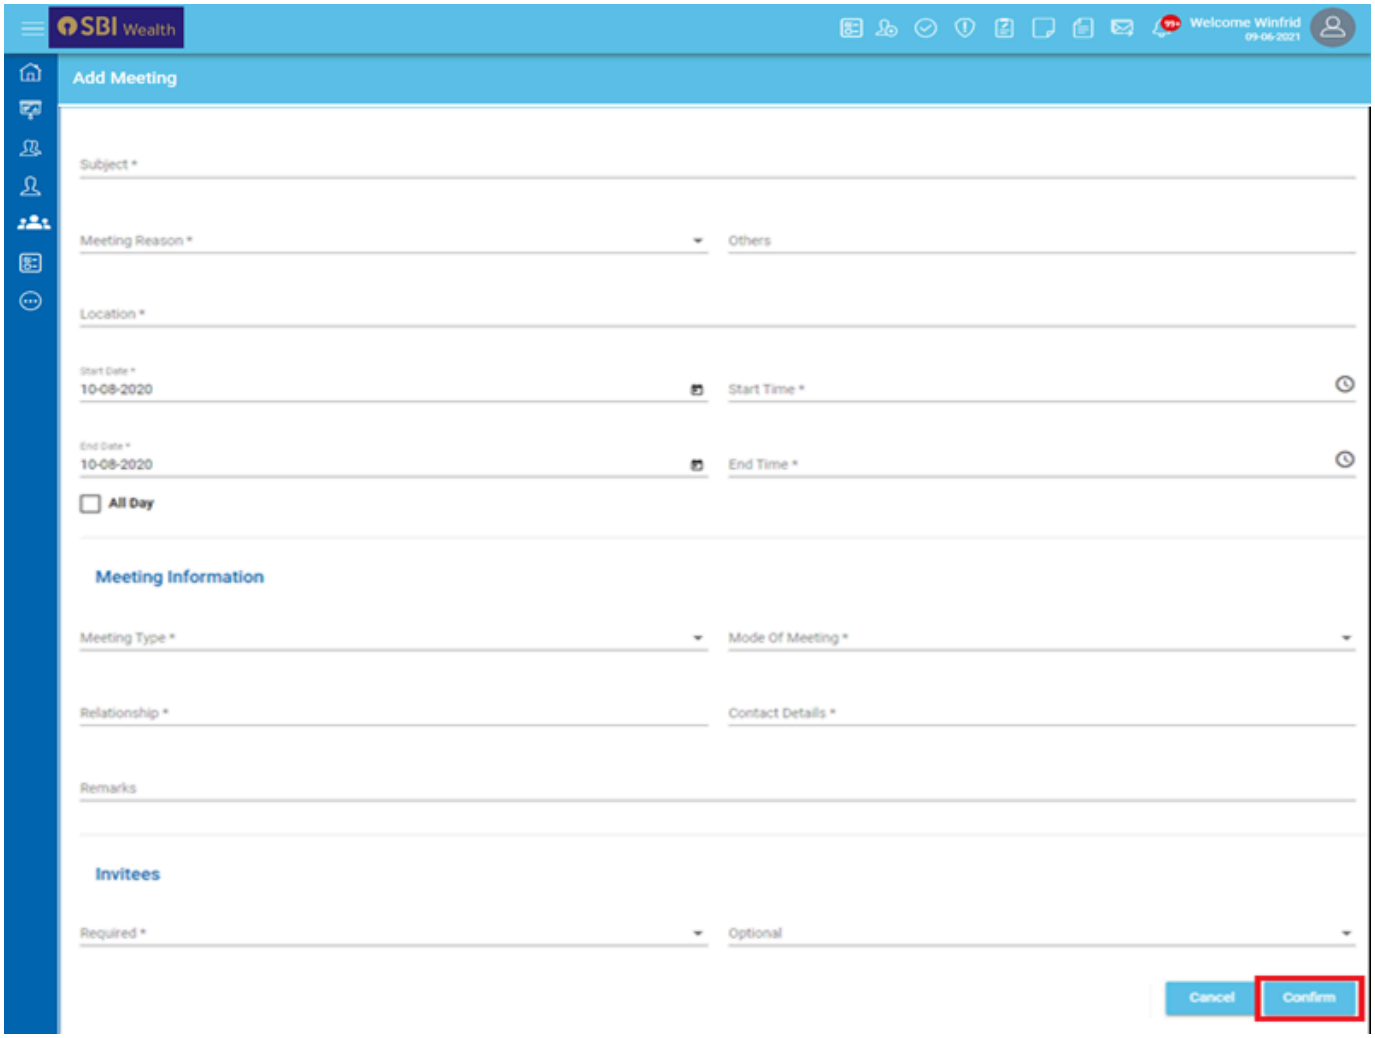


Screen: Click on Add New Meeting

5. On the Add Meeting Screen, the User can fill in the relevant details, including Meeting Information and Invitees, and click on the "Save" and then "Confirm" buttons to successfully schedule the Meeting

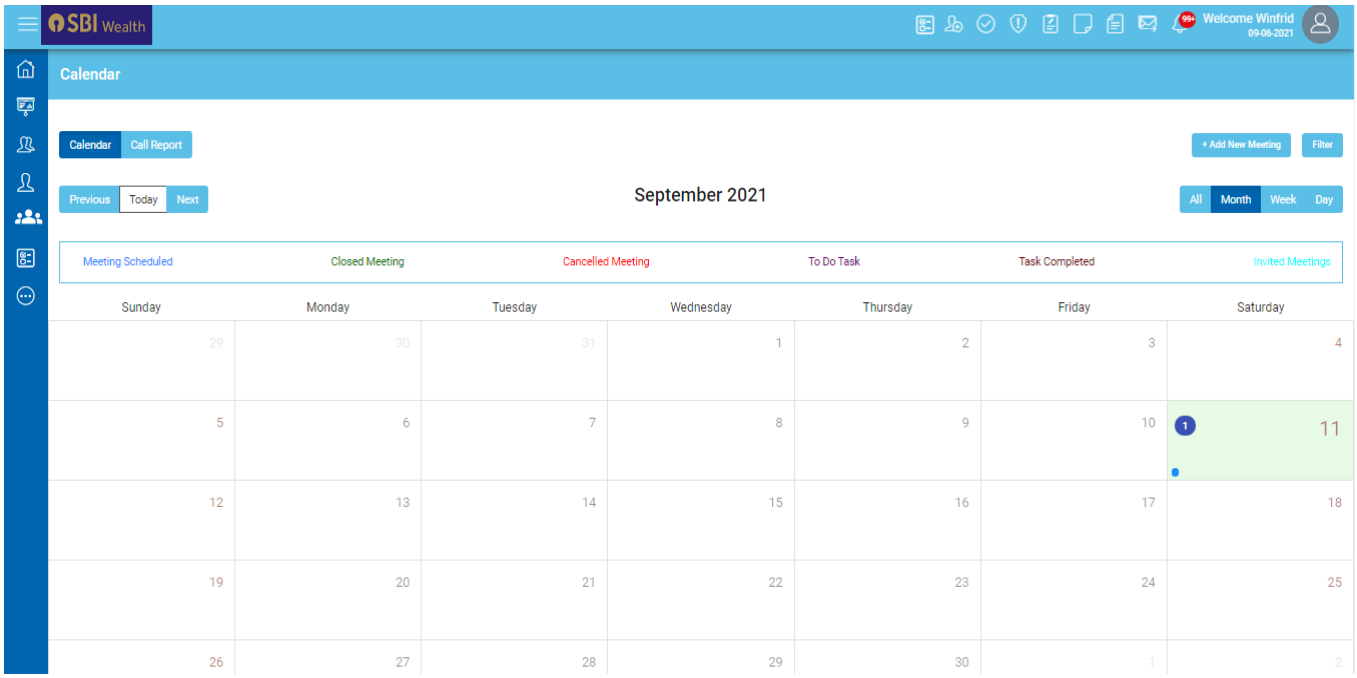


Screen: Click on Save



Screen: Click on Confirm

6. The scheduled meeting is now added to the User's calendar and the same can be viewed in the calendar



Screen: Meeting added to the Calendar

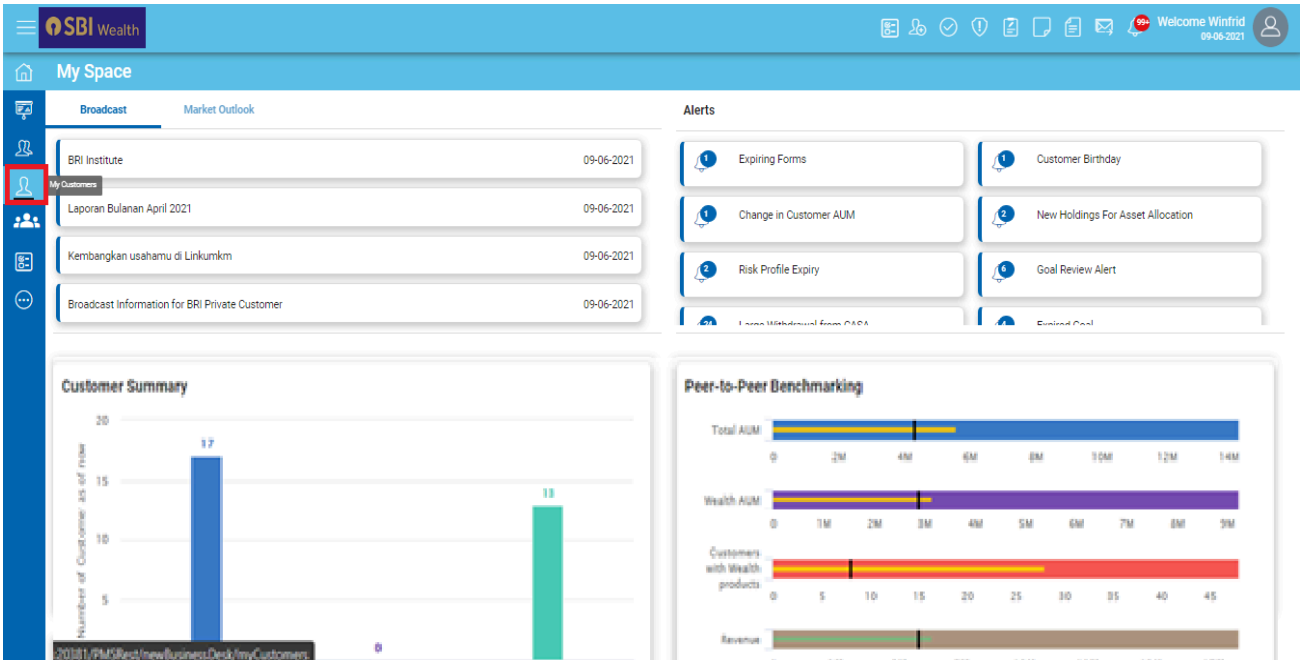
4.3 Call Report

Call Report is a tool used by the Relationship Manager to keep track of all customer interactions. The Importance of call report management is as follows:

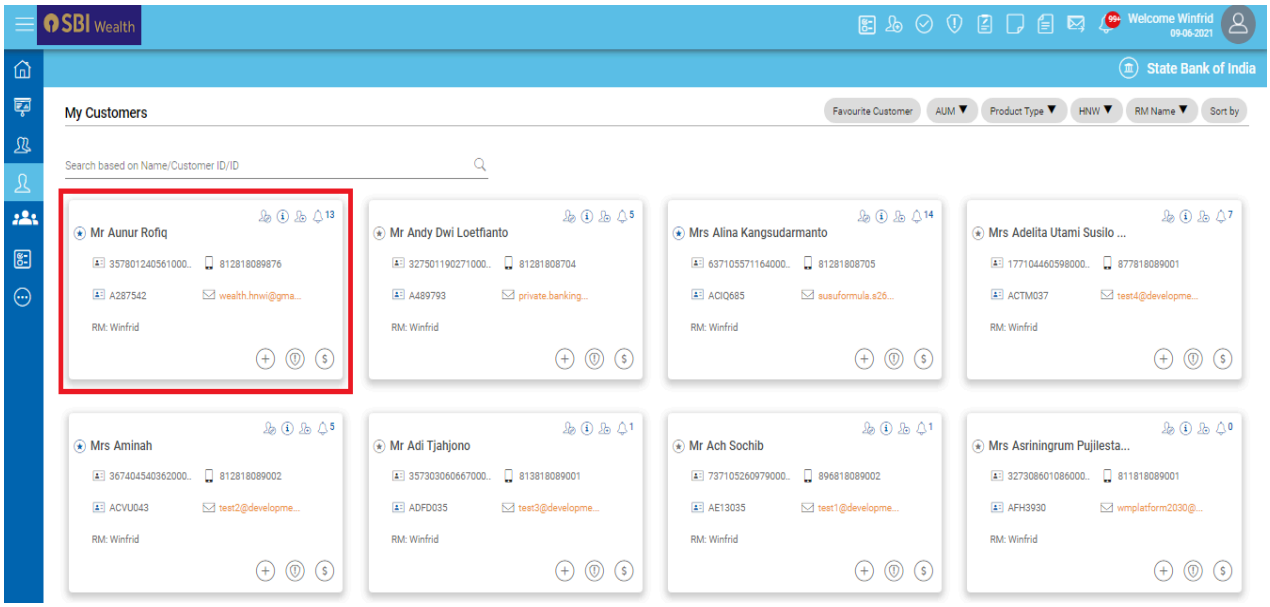
a. Call Reports help Relationship Managers to make note of customer needs and address them accordingly in a timely manner
b. Call Reports play a very important role when customers are handed over to a new Relationship Manger. These act as a base for the incoming relationship Manager to understand the past history of interaction that the customer has had with the out-going relationship manager. Thus, it helps to avoid reaching out to the same customer again for gathering information
c. Call Report assists Team leads of Relationship Managers to evaluate their sub-ordinates. Managers can keep a track of the activities done by the subordinates on day to day basis. It can also help to measure the productivity of an RM
d. Notes present in the Call Reports can act as a source of data for understanding the customer needs, to formulate new products and services

4.3.1 Filing a Call Report

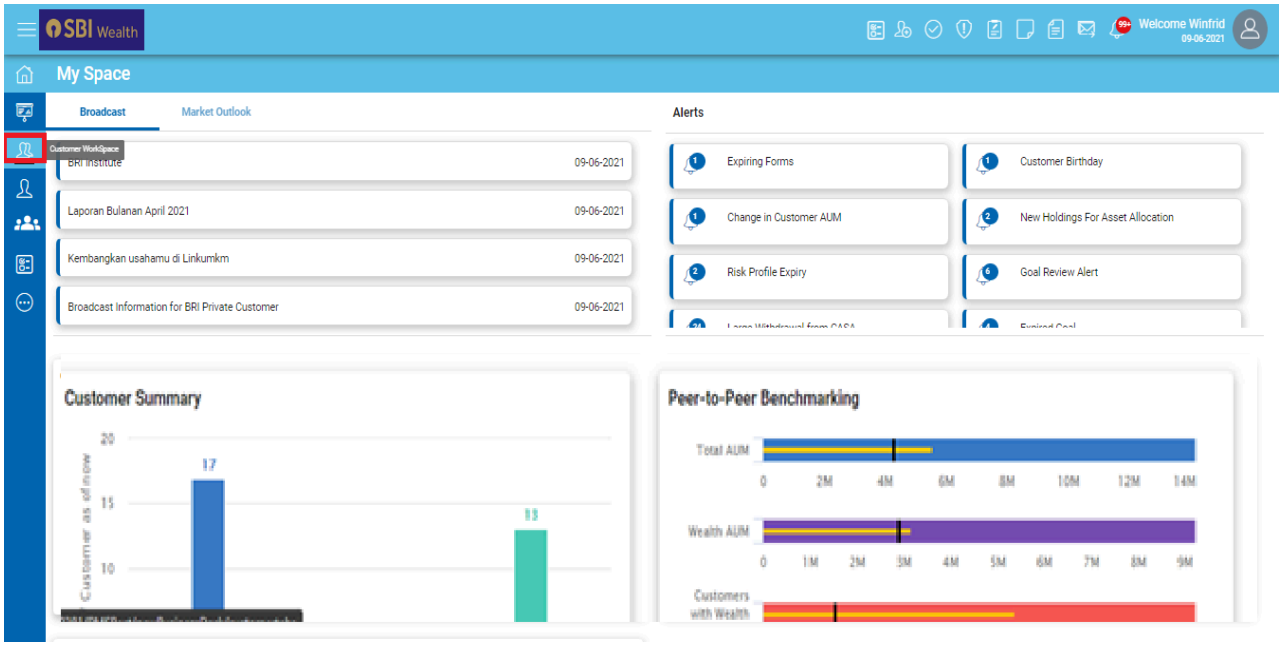
1. After logging into RM Office, the User can click on the “My Customers” widget on the Left panel to view the customer card for all their customers. Alternatively, in case the User wants to view a specific customer’s card, they can click on the “Customer Workspace” widget on the left hand panel, and search for the specific customer in the search bar to view the customer card



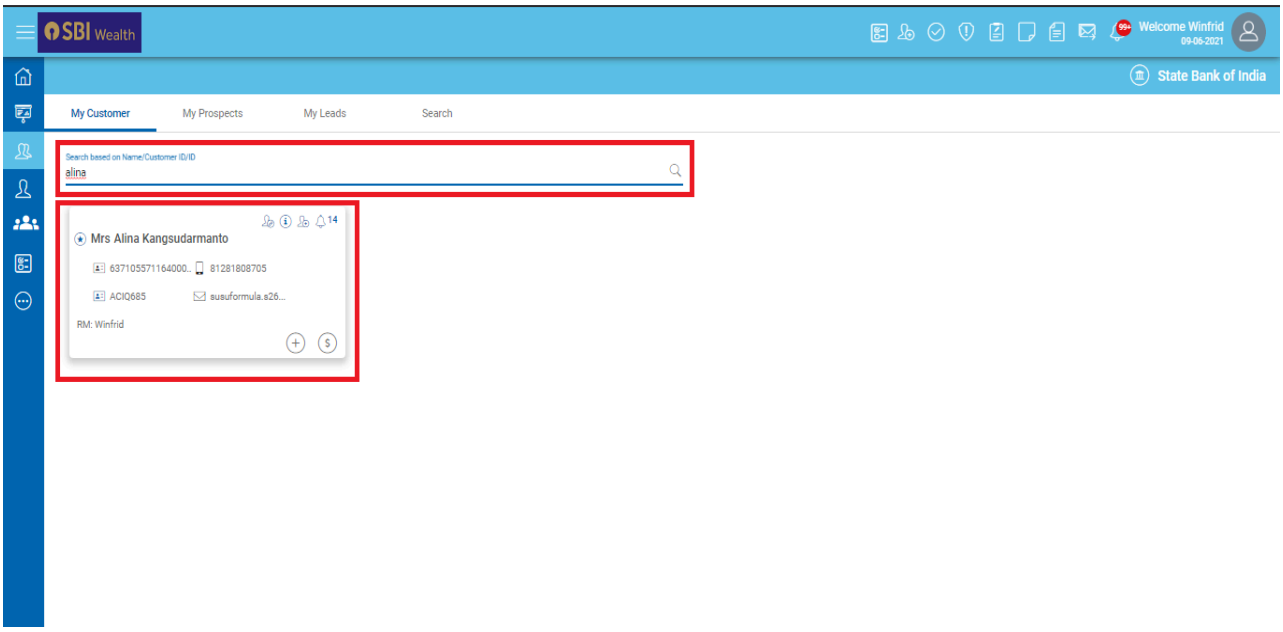
Screen: Click on My Customers



Screen: Click on the desired customer card

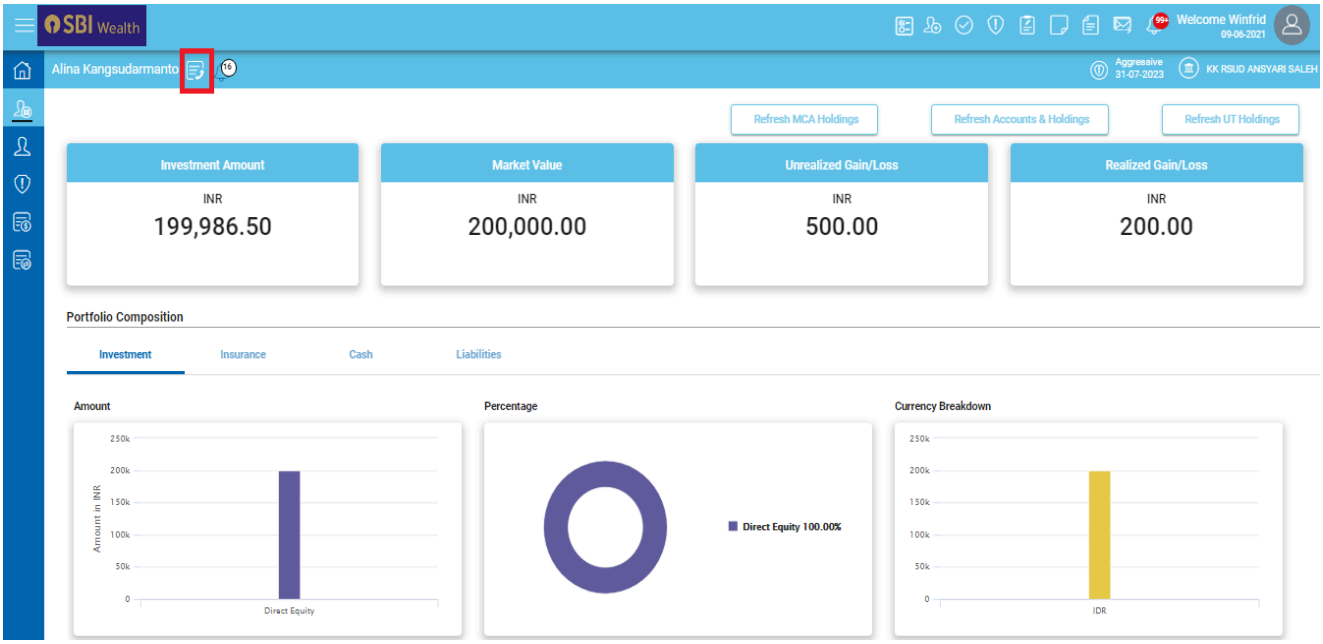


Screen: Click on Customer Workspace



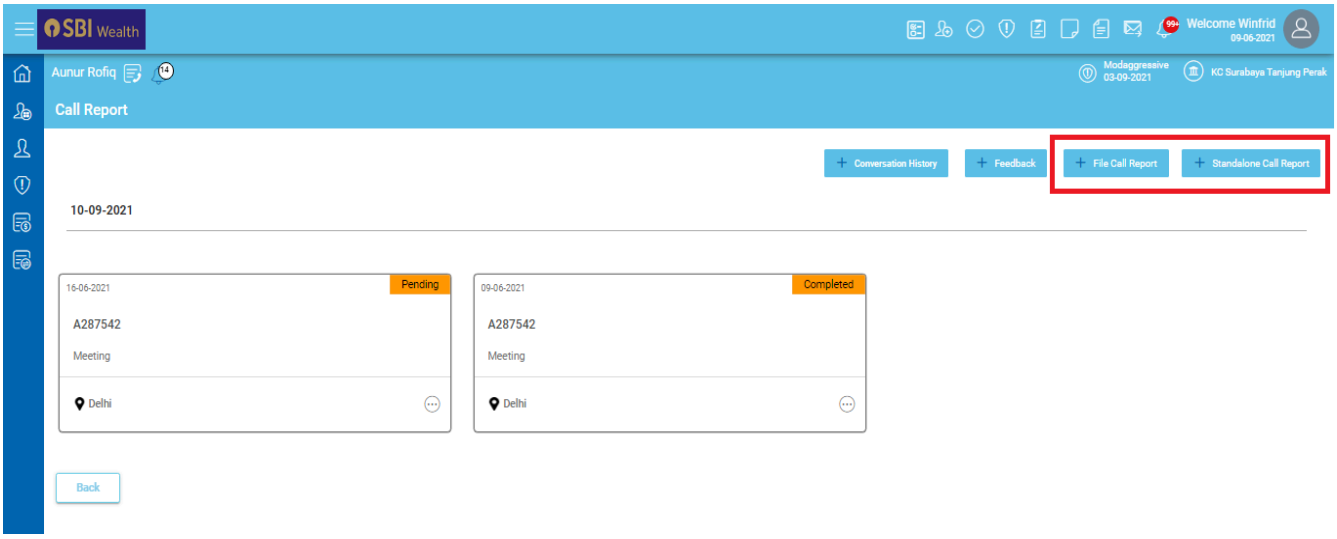
Screen: Search for Customer and Click on Customer card

2. On clicking the customer card, the system navigates the User to the Customer Dashboard. Here, the User can click on the icon in the top panel to navigate to the Call Report screen



Screen: Click on the Call Report widget

3. On the Call Report screen, the User can file 2 types of call reports:
    a. File Call Report – File a Call Report for a scheduled meeting
    b. Standalone Call Report – File an Ad Hoc Call Report (meeting wasn't scheduled)

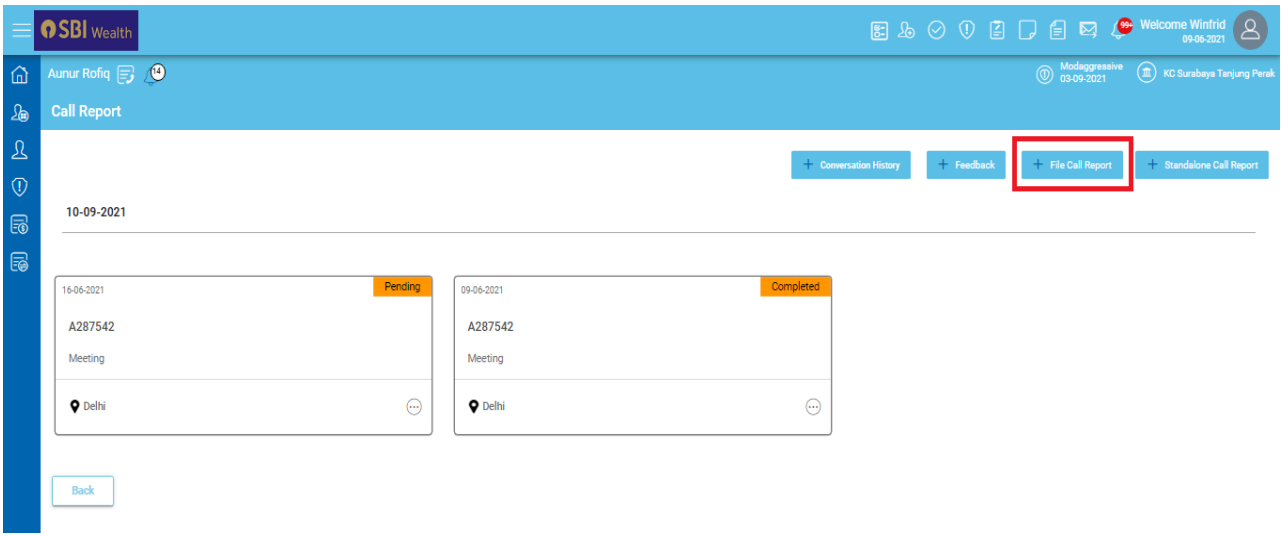


Screen: File Call Report and Standalone Call Report

4.3.2. File Call Report

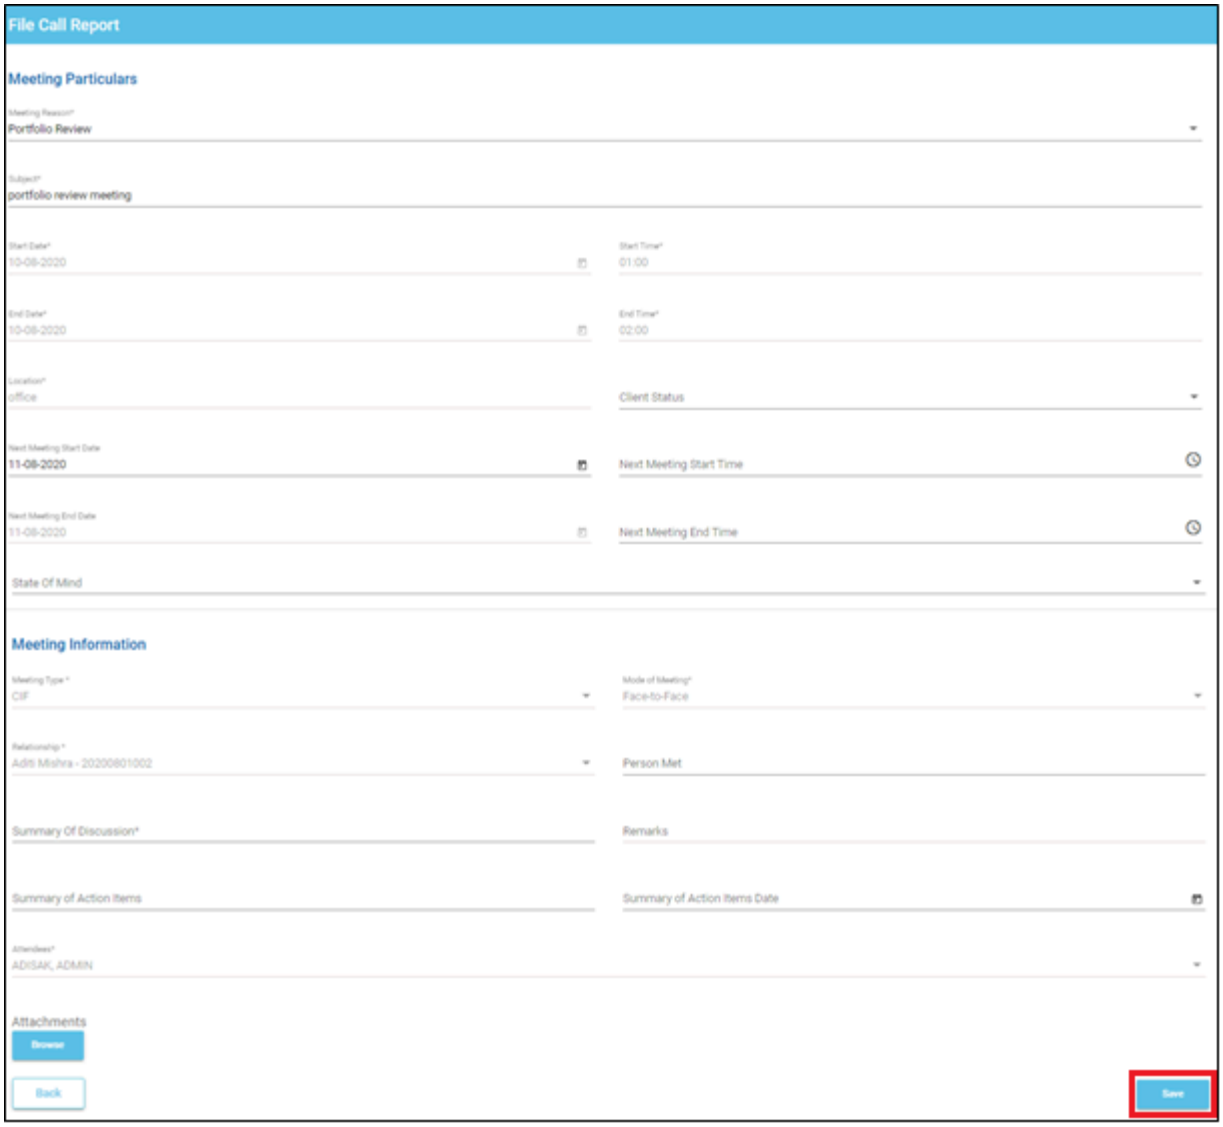
The User can use “File Call Report” menu to file a Call Report for a previously scheduled meeting

1. On the Call Report screen, the User selects a record with status “Pending” to file a call report (by clicking on the meeting card) and then clicking on the “File Call Report” button to navigate to the File Call Report screen



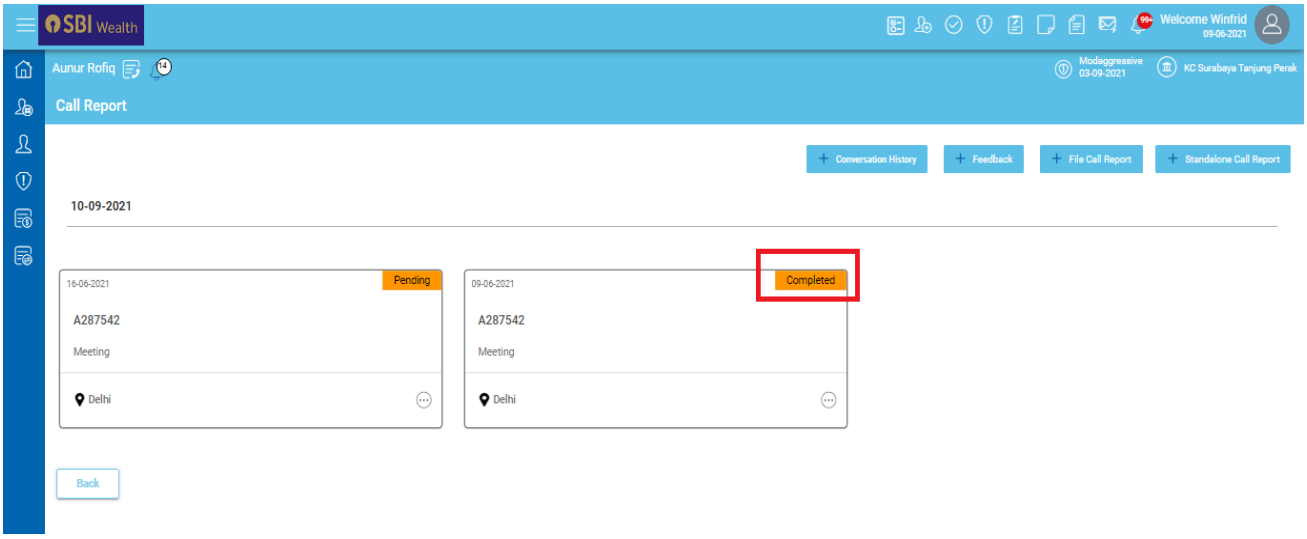
Screen: Select Pending Meeting and click on File Call Report

2. In the File Call Report screen, the User fills up all the relevant details in the Meeting Particulars and Meeting Information sections, and then clicks on the “Save” and “Confirm” buttons to file the call report



Screen: Click on Save

3. The call report is now successfully filed, and the User can see that the meeting status on the meeting card is updated to "Completed"



Screen: Call Report successfully filed and meeting status updated

4.3.3. Standalone Call Report

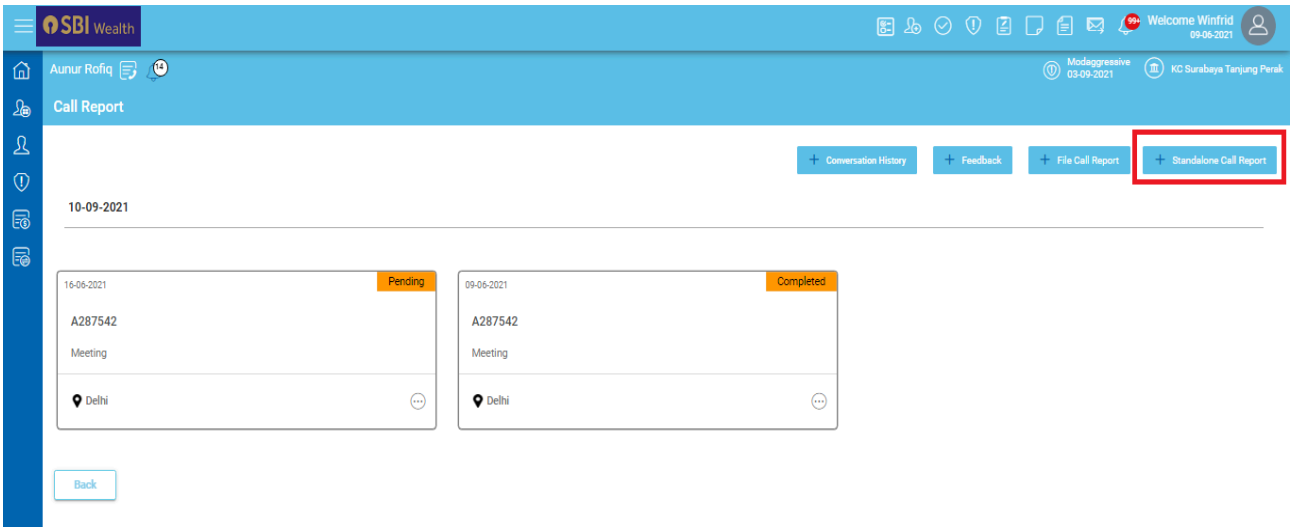
The User can file Standalone Call Reports for unscheduled meetings from two paths:

a. Customer Dashboard > Call Report Screen

b. Calendar Screen

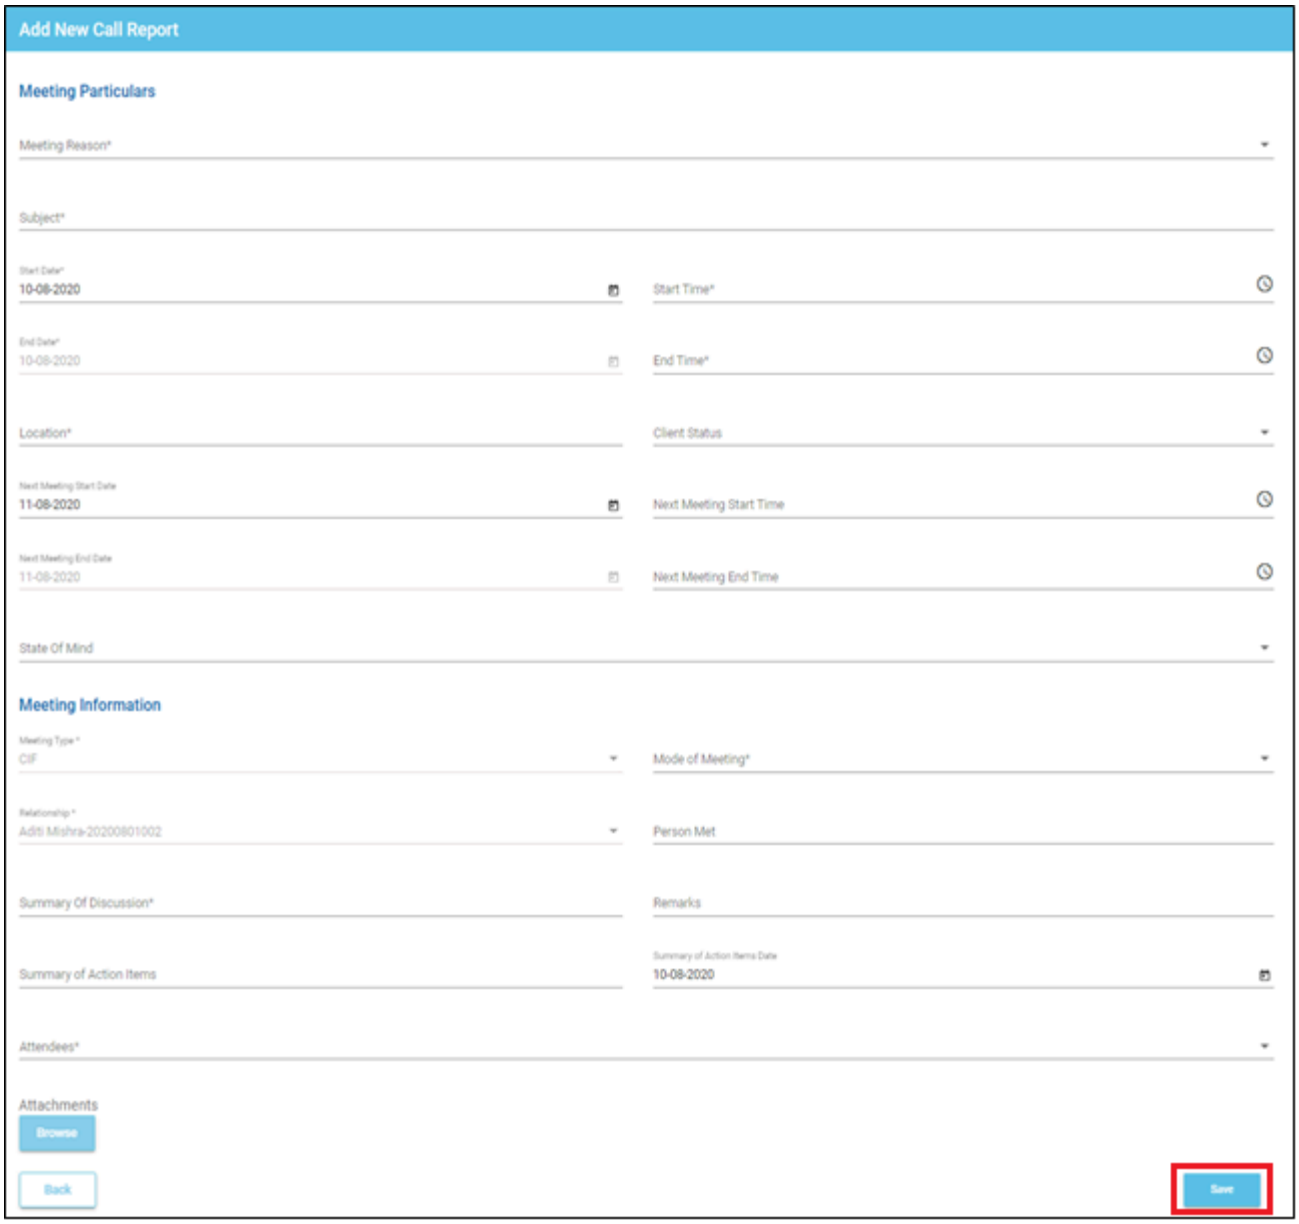
4.3.3.1. Standalone Call Report (From Customer Dashboard)

1. On the Call Report screen, the User clicks on the "Standalone Call Report" button to navigate to the Add New Call Report screen



Screen: Click on Standalone Call Report

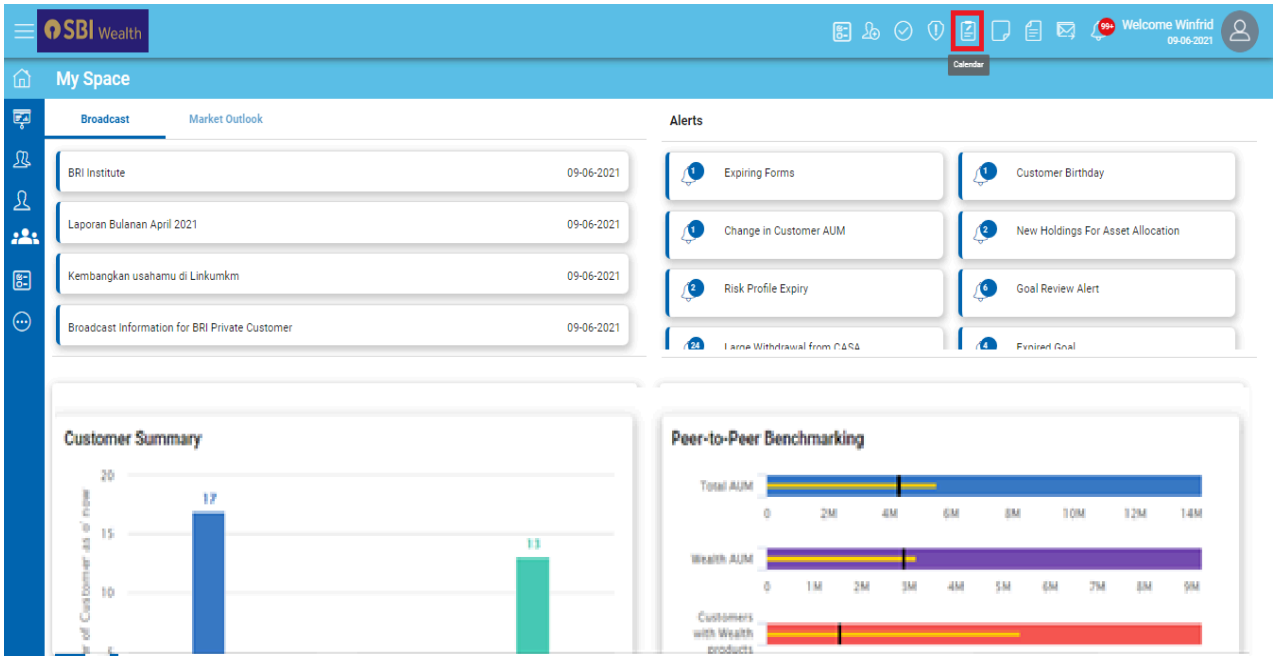
2. In the File Call Report screen, the User fills up all the relevant details in the Meeting Particulars and Meeting Information sections, and then clicks on the "Save" and "Confirm" buttons to file the standalone call report



Screen: File Standalone Call Report

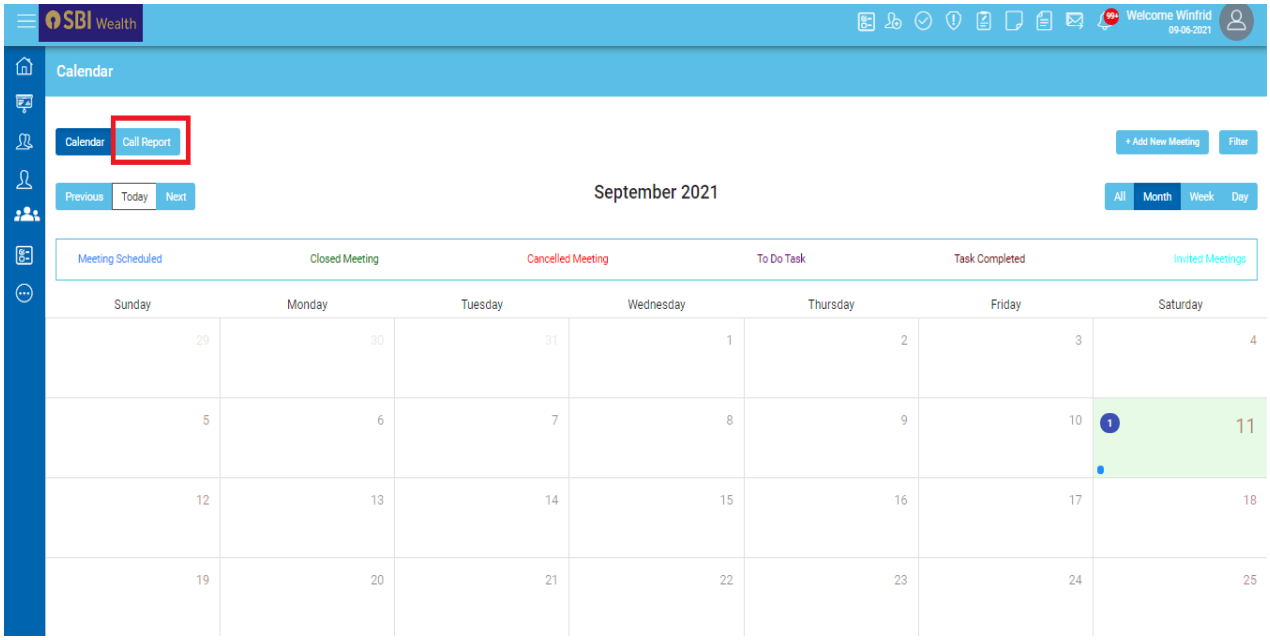
4.3.3.2. Standalone Call Report (From Calendar)

1. The User hovers over and clicks on the “Calendar” widget on the top panel in My Space to navigate to the Calendar screen



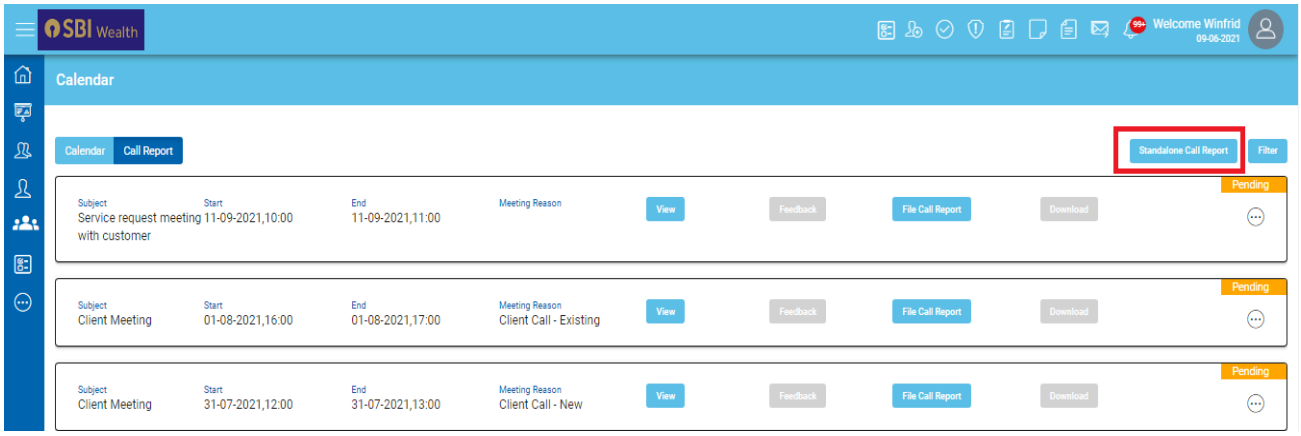
Screen: Click on Calendar

2. The User clicks on the "Call Report" to file the call report for the unscheduled meetings



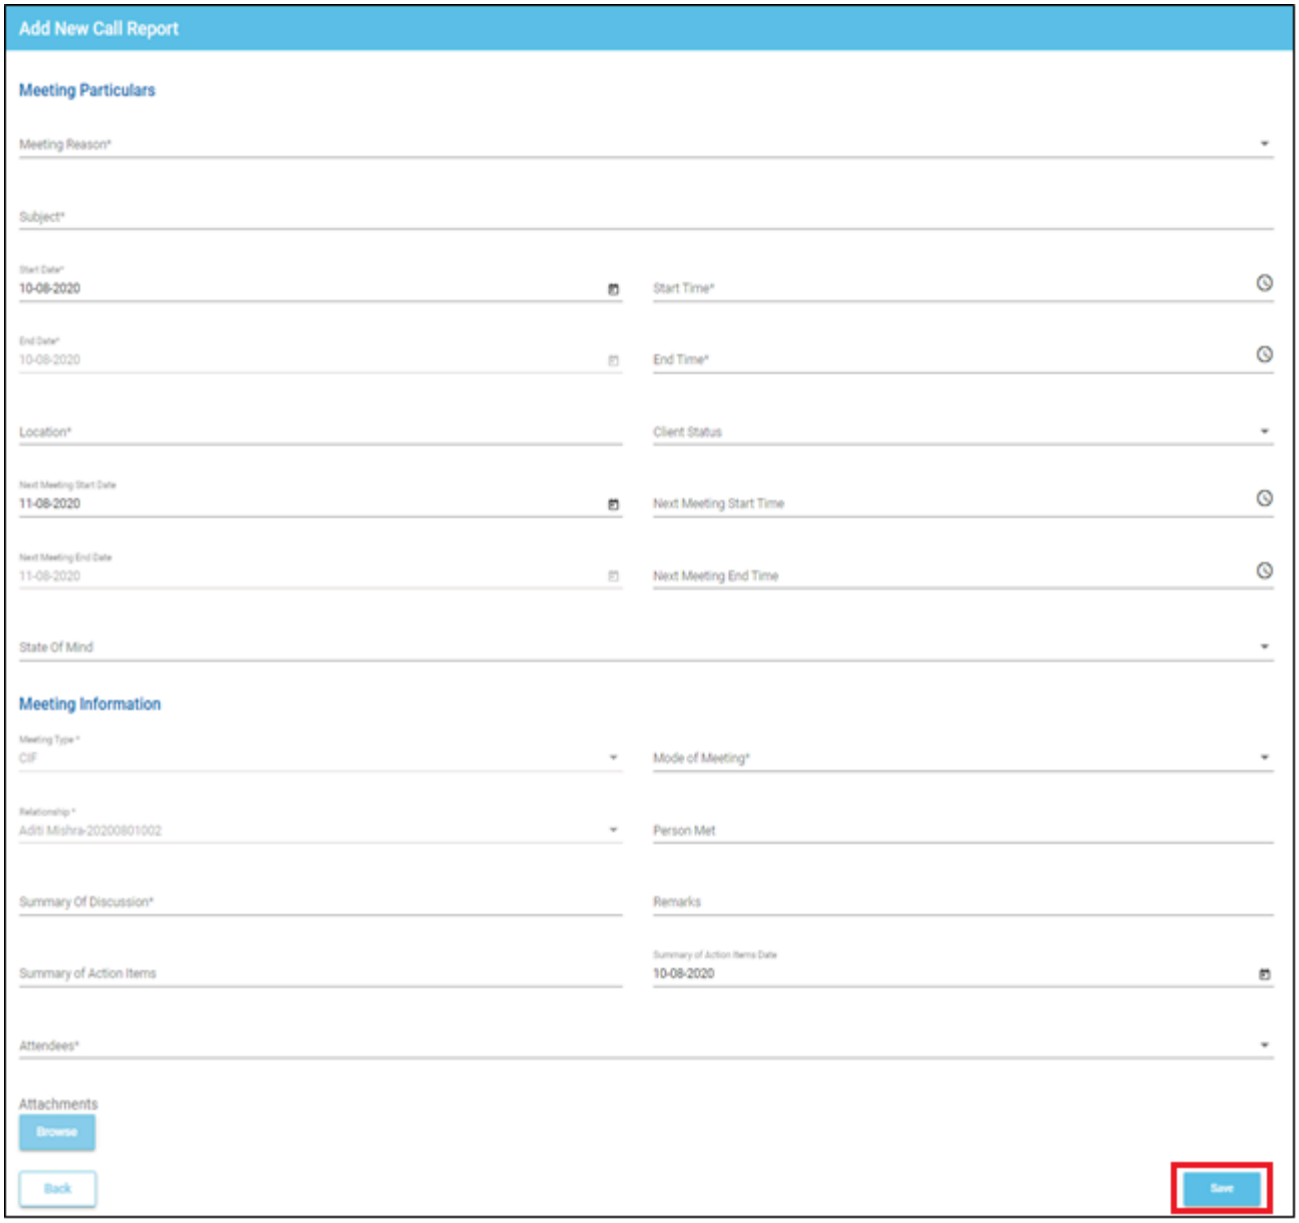
Screen: Click on Call Report

3. User clicks on the "Standalone Call Report" to file the call report for the unscheduled meetings. In the Call Report Screen, the user can view, give feedback, File call report.



Screen: Click on Standalone Call Report

4. In the File Call Report screen, the User fills up all the relevant details in the Meeting Particulars and Meeting Information sections, and then clicks on the “Save” and “Confirm” buttons to file the standalone call report



Screen: File Standalone Call Report

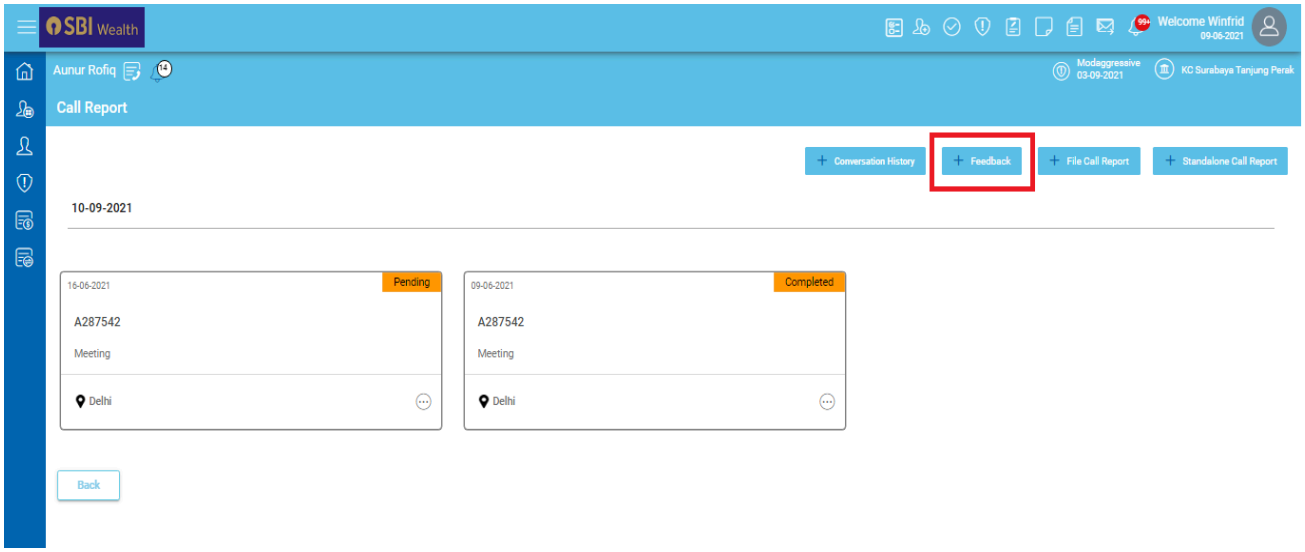
4.4. Feedback

The supervisor can review the call report submitted by the RM and record his feedback from two paths:

a. Customer Dashboard > Call Report Screen>Feedback

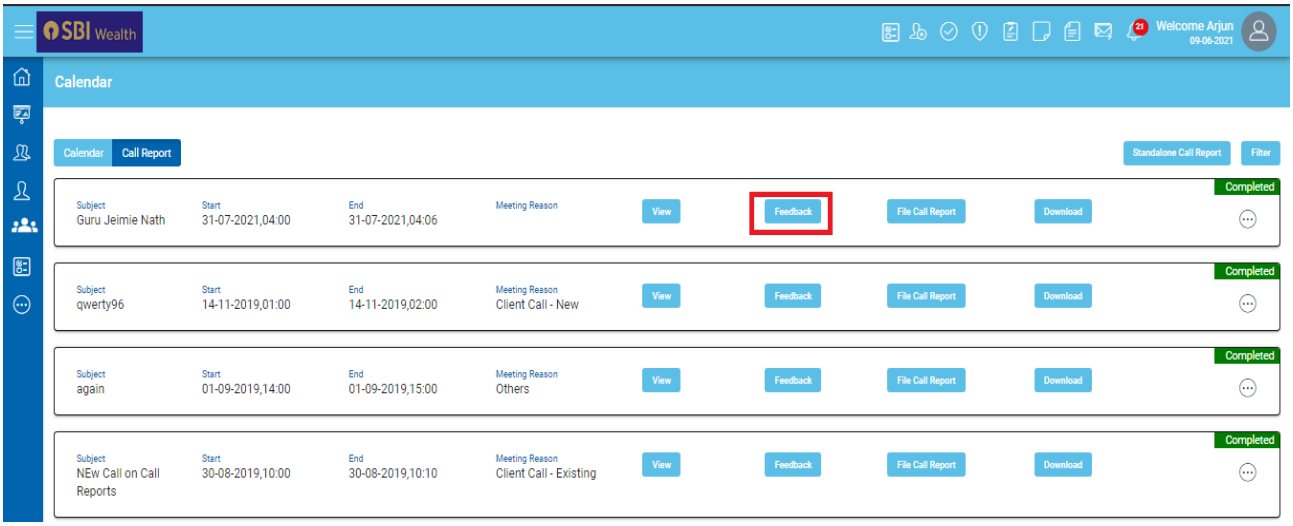
b. Calendar Screen>Call Report >Feedback

4.4.1 Feedback (From Customer Dashboard)



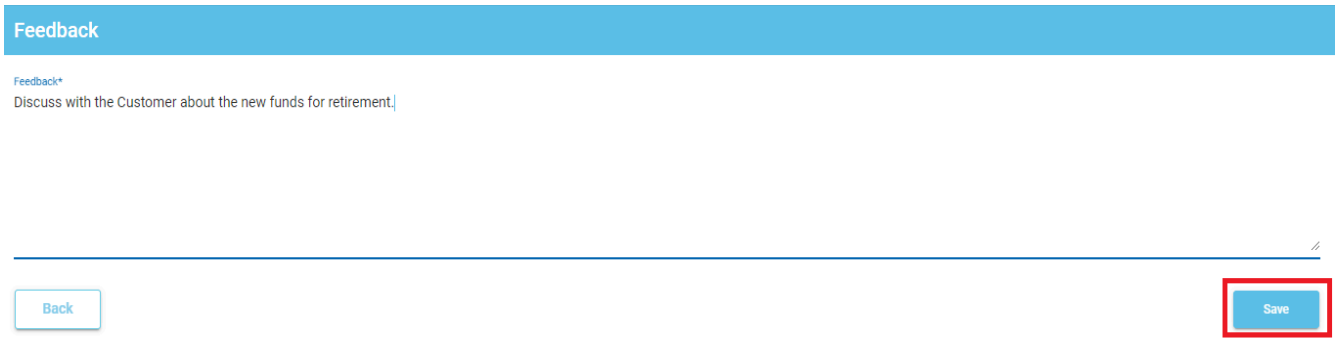
Screen: Navigate to Feedback(Customer Card)

4.4.2 Feedback (From Calendar)



Screen: Navigate to Feedback(Calendar)

The User records the feedback and clicks on “Save” button to save the feedback

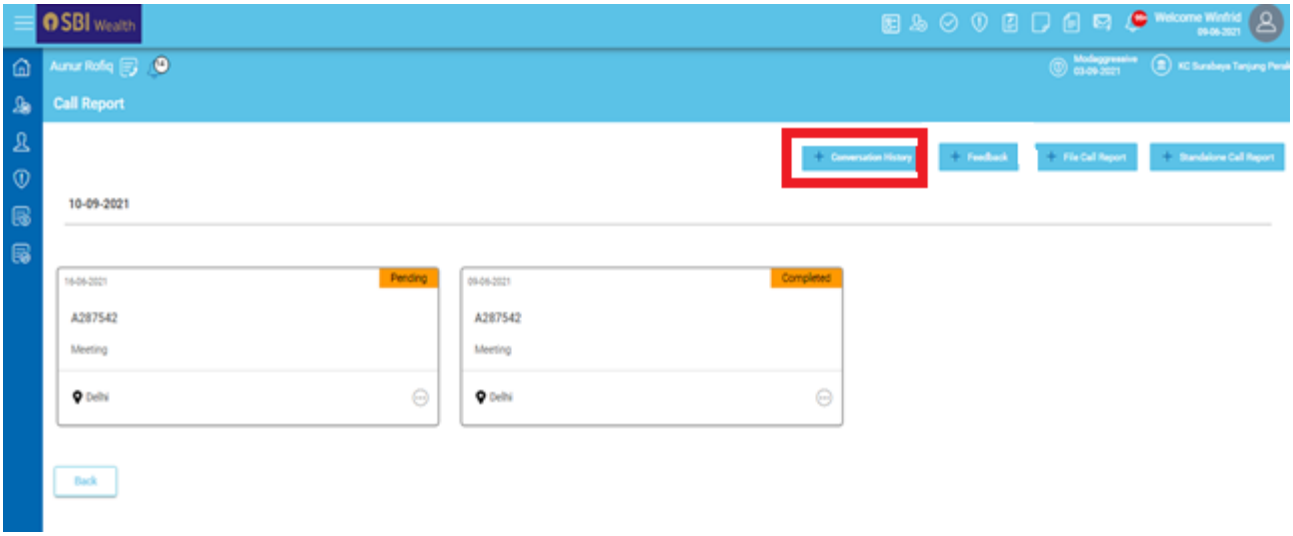


Screen: Record the Feedback

4.5 Conversation History

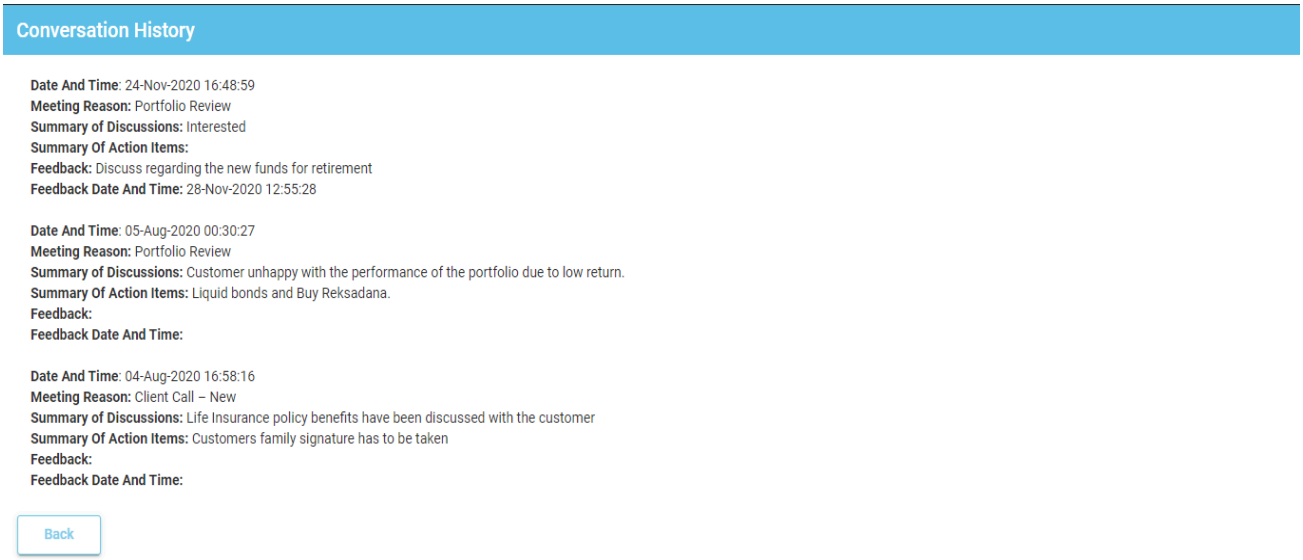
The history of all communications with the customer over the time and supervisor's feedback if any can be viewed in the conversation history section

1. The User clicks on "Conversation History" tab



Screen: Navigate to Conversation History

2. The User can view the Conversation History details



Screen: View Conversation History Details

5. Field Level Details

S No	Field Name	Field Description	Field Type	Editable	Data Type	Mandatory	List of Values	Remarks
Schedule a Meeting

6. Validations

1. Mandatory Field Verification - The system will validate whether all the mandatory fields with * mark are filled in by the user or not

7. Actors/Entitlements

1. RM
2. Supervisor

8. Annexure

Not Applicable

9. Glossary

1. A Lead can be a potential buyer of a product or recipient of communication for marketing programs
2. A Prospect is a qualified lead or has a relatively high potential to be a wealth customer
3. A Customer is an entity who needs services from the bank for their financial and investment needs
4. The terms RM Office and PMS refer to the same application and have been used interchangeably throughout this document

10. Addendum

10.1. CR1 : There should be restriction on filing call report after 5 days of meeting date.In case of this situation exception approval by supervisor is must.

10.1.1. Change Requirement

The call report functionality allows the RM to capture the outcome of a meeting with lead/prospect/customer. The RM can capture the general consensus and also further action items identified in the meeting. RM has the provision to file a call report for a scheduled meeting or file a standalone call report for impromptu meetings. Currently in the application, for every meeting scheduled, a call report needs to be filed by the RM. As per SBI requirements, there needs to be validation to check if the call report is being filed within 5 days of the actual meeting date. If the call report is filed after 5 days of the meeting, it needs to be authorized by the supervisor. The purpose of this validation is to ensure that the RMs are filling the call report properly and in time.

10.1.2. PDA Reference Number

Day 5 – 22/Sep/21 – S.No.11

10.1.3. Business Benefit

This change is required to ensure that the RMs are filling the call report properly and in time.

10.1.4. Impact Analysis

10.1.4.1. Impact of not making the change

RM would be able to file the call report after 5 days of the meeting also .Due to which there would be no control and tracking for the same.

10.1.4.2. Impacted Areas

10.1.4.2.1. Internal Systems

S.No	Module	Functionality	Description
1	PMS	Call Report	
2	PMS	Approval Process	Addition of call report authorization

10.1.4.2.2. External Systems

None

10.1.5. Solution

10.1.5.1. Call Report

1. RM needs to log in to the application and navigate to PMS.
2. Call Reports (Refer section 4.3) can be filed in the system from 2 different screens.
3. RM can click on icon to navigate to the calendar workspace.

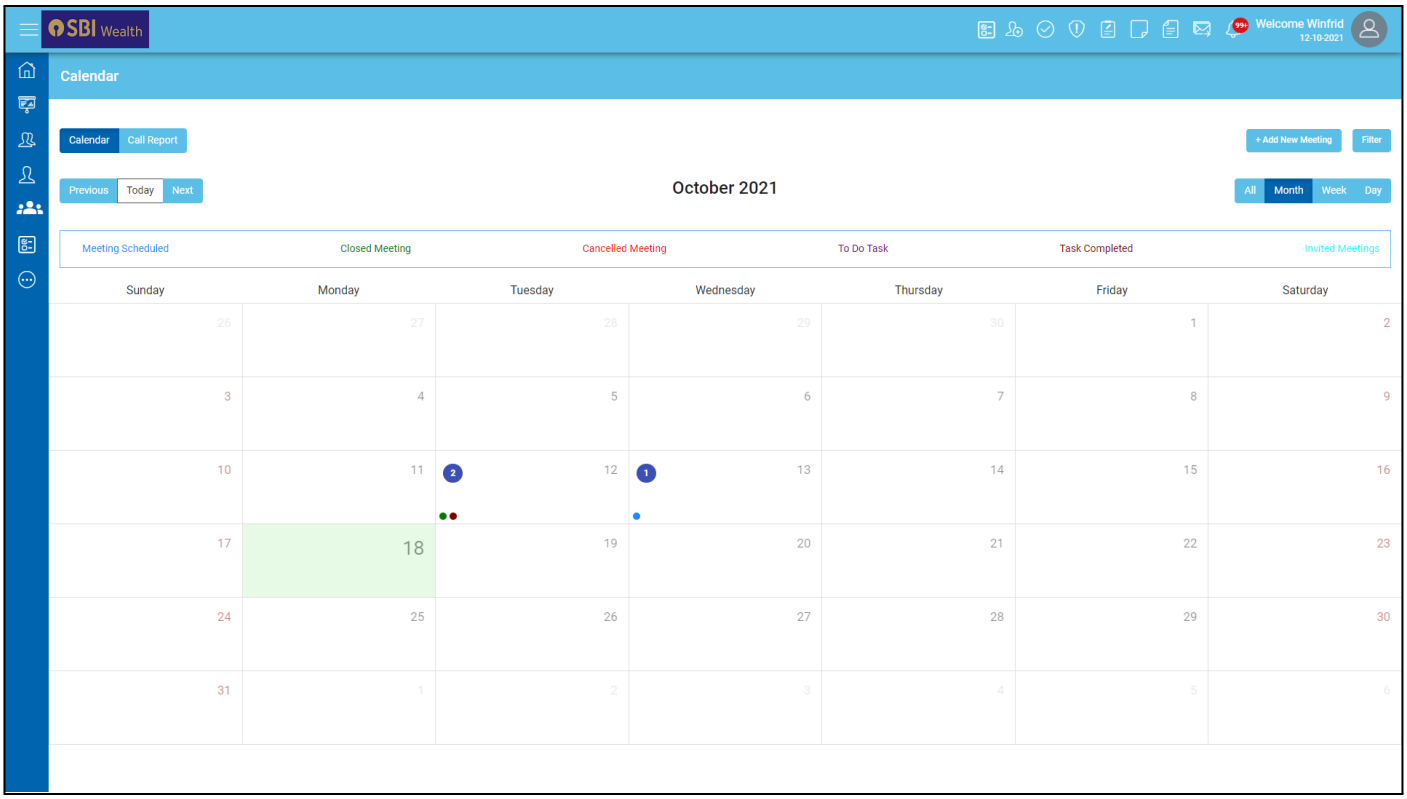

Figure 1- Calendar Workspace

4. RM will then click on Call Report icon to access the call report workspace.
5. For each meeting scheduled, a call report is automatically created. RM will be allowed to file the call report after the meeting has taken place.
6. Each call report will have one of the 5 status at any given time
   a. Pending – RM has yet to file the call report.
   b. Completed – RM has already filed the call report.
   c. Pending Approval – RM has filed the call report after 5 days of the meeting. Supervisor needs to review and authorize the call report
   d. Approved – The call report filed by the RM has been approved by the supervisor.
   e. Rejected – The call report filed by the RM has been rejected by the supervisor.

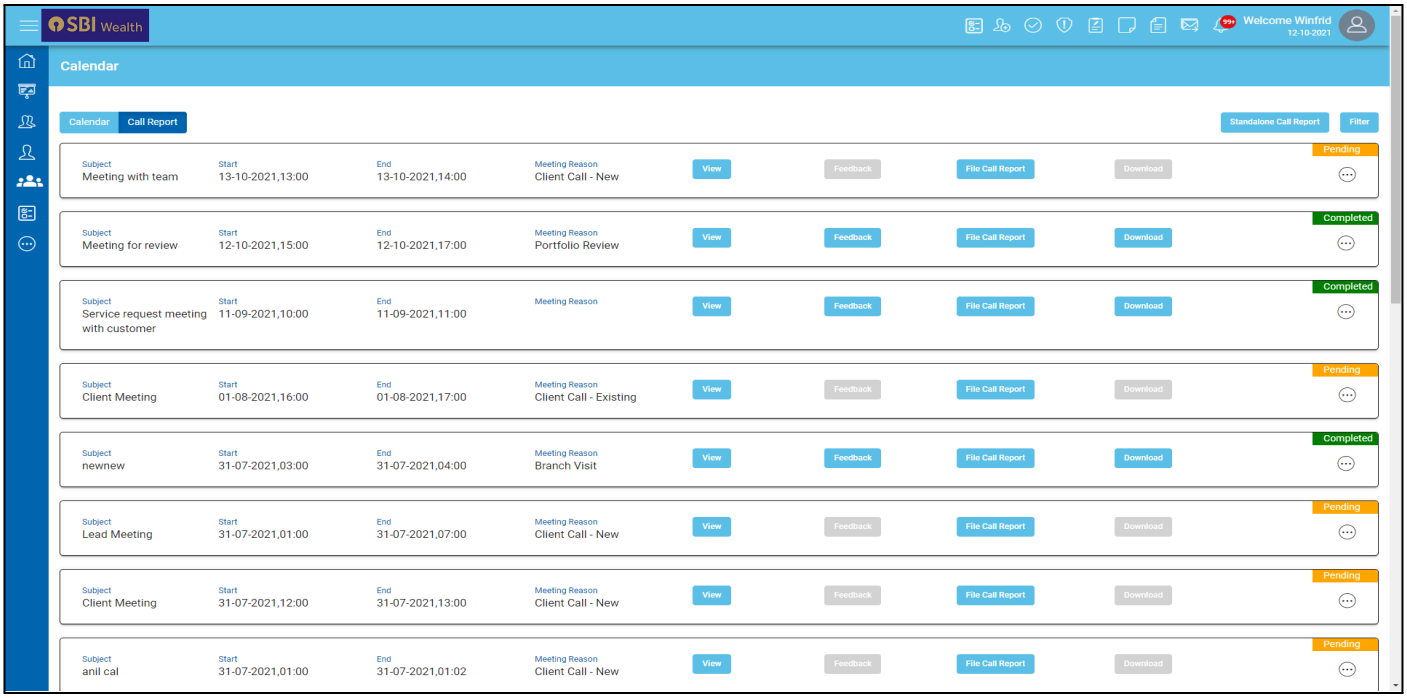

Figure 2 – Call Report workspace

7. RM will identify the desired card and click on File Call Report icon to initiate the process for filing call report.
8. To file a standalone call report, RM can click on Standalone Call Report icon.
9. RM will fill in the necessary details and click on the “Save” button.
10. System will check if the business date <= End Date + 5 days, if yes, then the call report will be saved in the system and status will be updated as “Completed”.
11. If the business date > End Date + 5 days, the call report filed needs to be approved by the supervisor.
12. The call report details will be saved in the system with the status as “Pending Approval”.
13. The approval process will be covered in section 10.5.2.

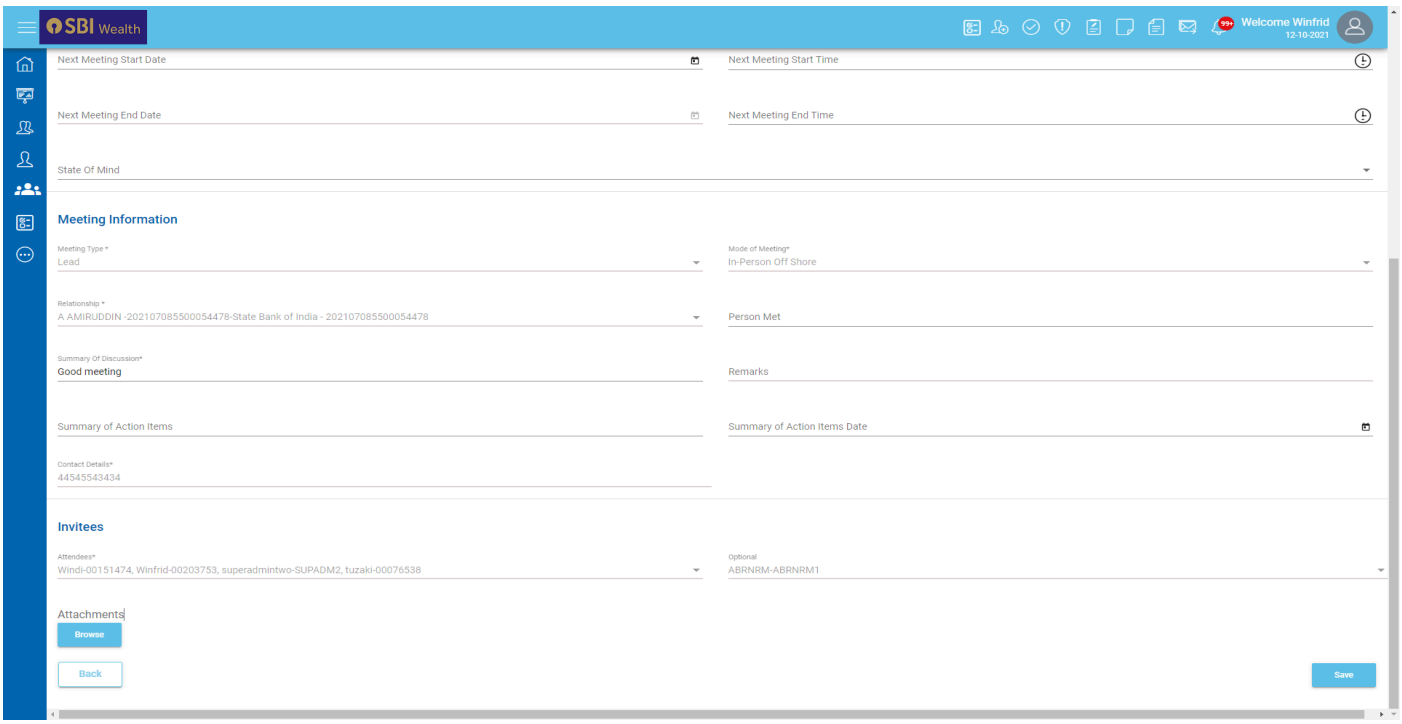

Figure 3 – File Call Report

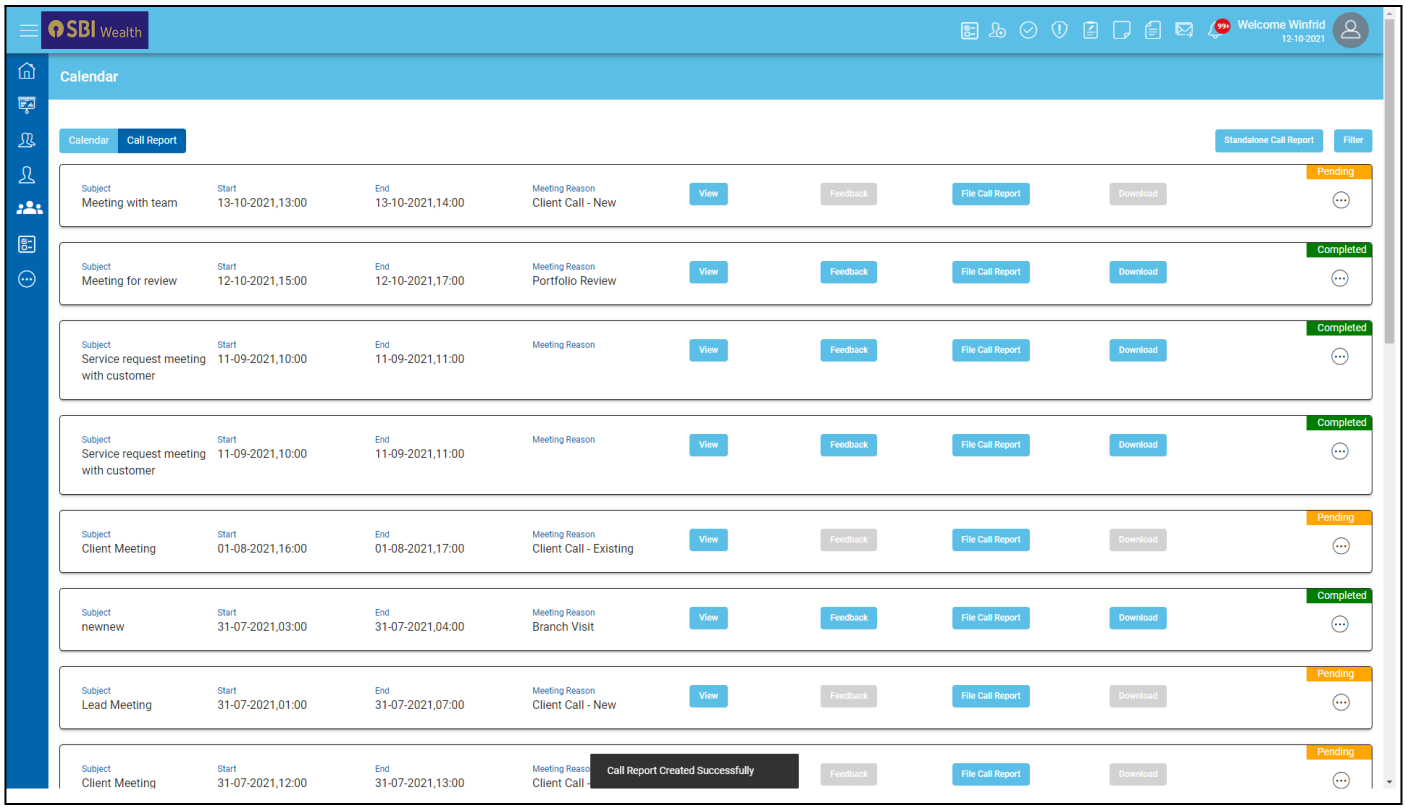

Figure 4 – System confirmation if call report is filed within 5 days

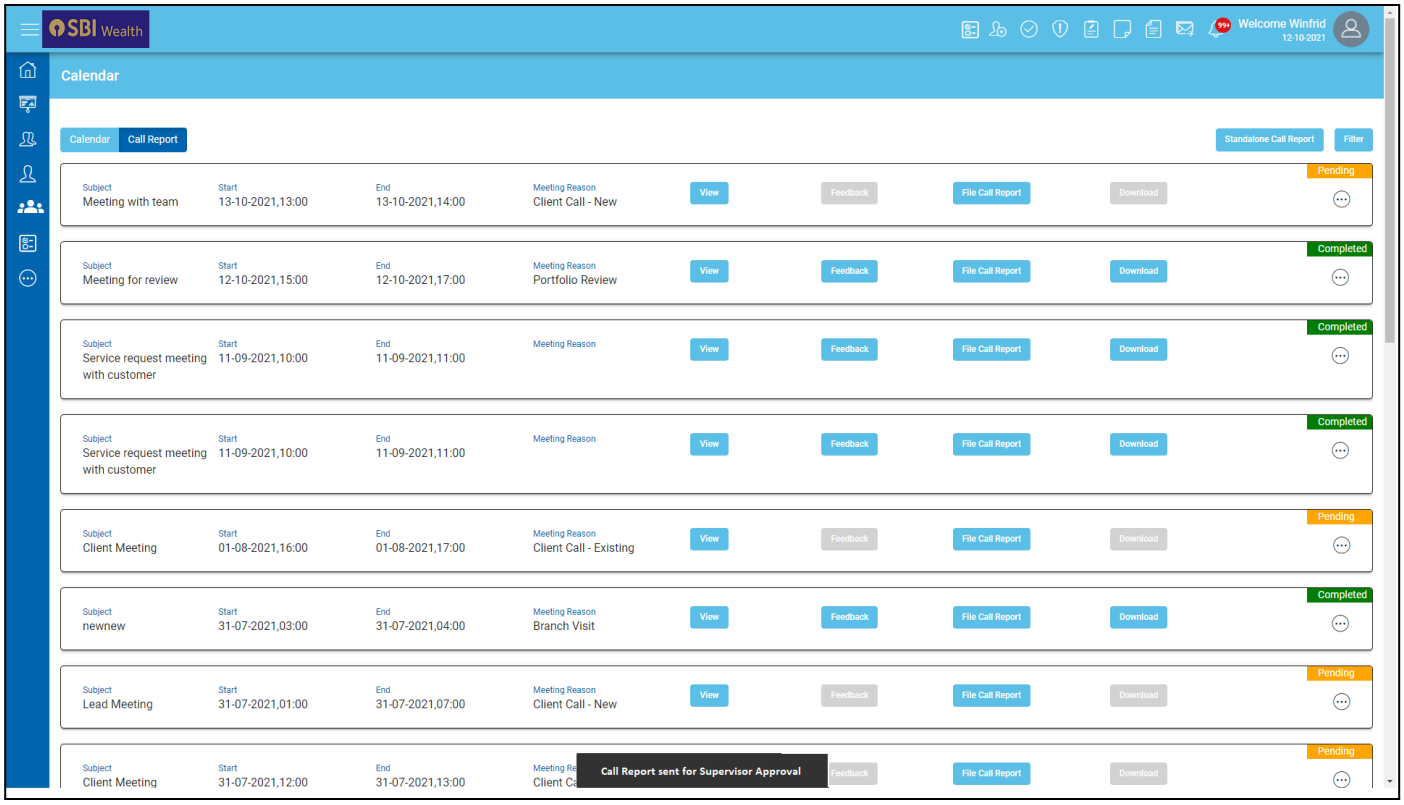

Figure 5 – Call report to be sent to supervisor approval if call report is filed after 5 days

14. RM can also access the call report from the customer dashboard.
15. RM can click on "My Customers" and search for the desired customer.
16. RM can then click on the customer card to navigate to the customer dashboard.
17. RM can click on icon to navigate to the call report workspace.
18. For each meeting scheduled, a call report is automatically created. RM will be allowed to file the call report after the meeting has taken place.
19. Each call report will have one of the 5 status at any given time
    a. Pending – RM has yet to file the call report.
    b. Completed – RM has already filed the call report.
    c. Pending Approval – RM has filed the call report after 5 days of the meeting. Supervisor needs to review and authorize the call report
    d. Approved – The call report filed by the RM has been approved by the supervisor.
    e. Rejected – The call report filed by the RM has been rejected by the supervisor.

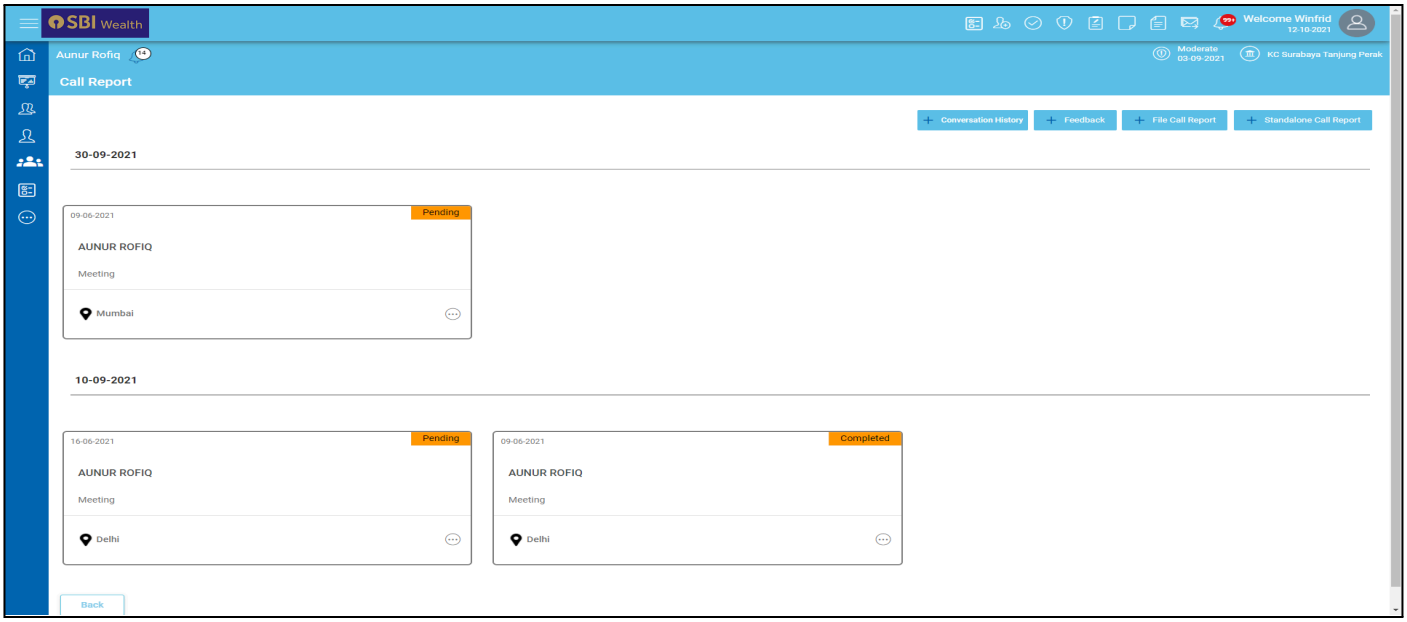

Figure 6 – Customer Dashboard – Call Report workspace

20. RM will select the desired card and click on 
icon to initiate the process to file a call report.
21. To file a standalone call report, RM can click on

icon.
22. RM will fill in the necessary details and click on the “Save” button.
23. System will check if the business date <= End Date + 5 days, if yes, then the call report will be saved in the system and status will be updated as “Completed”.
24. If the business date > End Date + 5 days, the call report filed needs to be approved by the supervisor.
25. The call report details will be saved in the system with the status as “Pending Approval”.
26. The approval process will be covered in section 10.5.2.

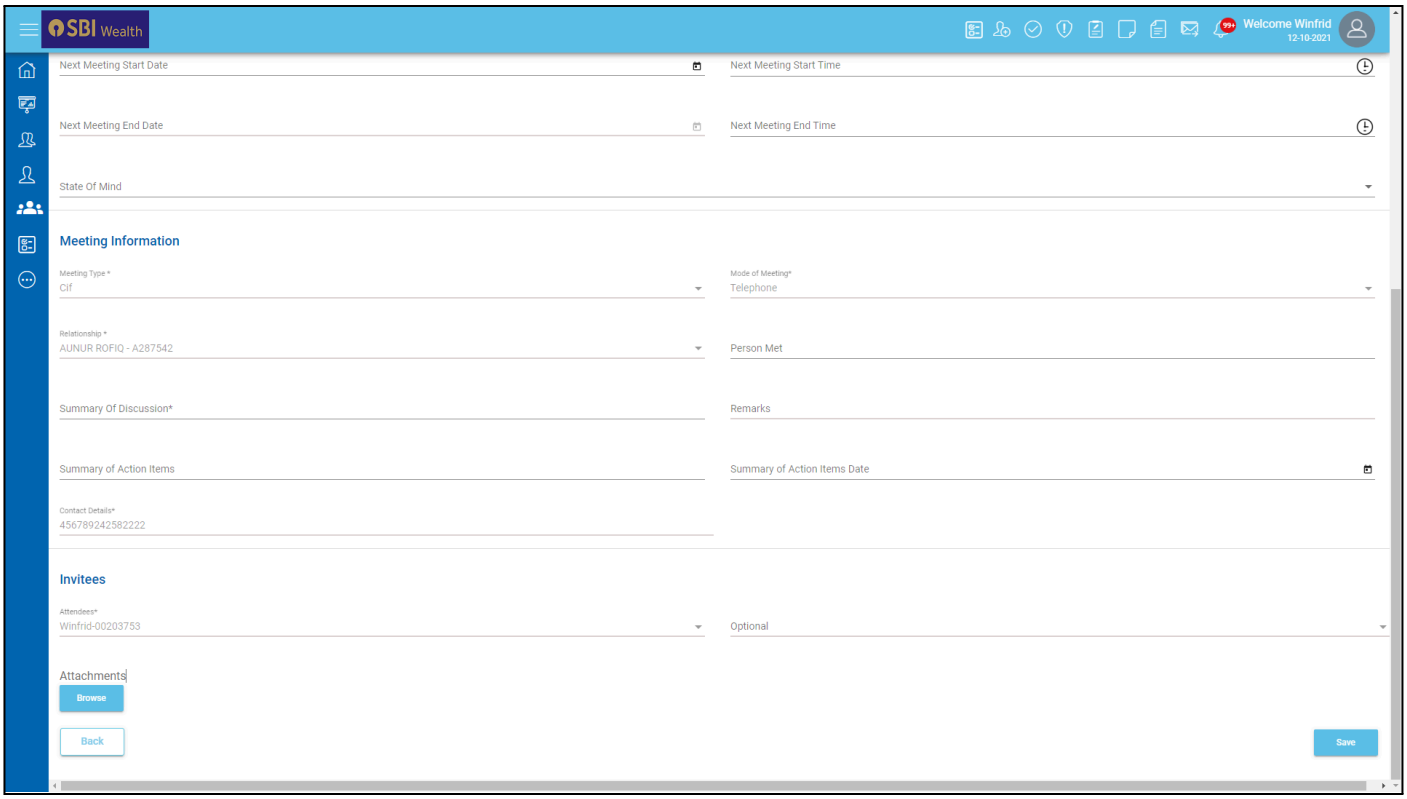

Figure 7 – Filing Call Report

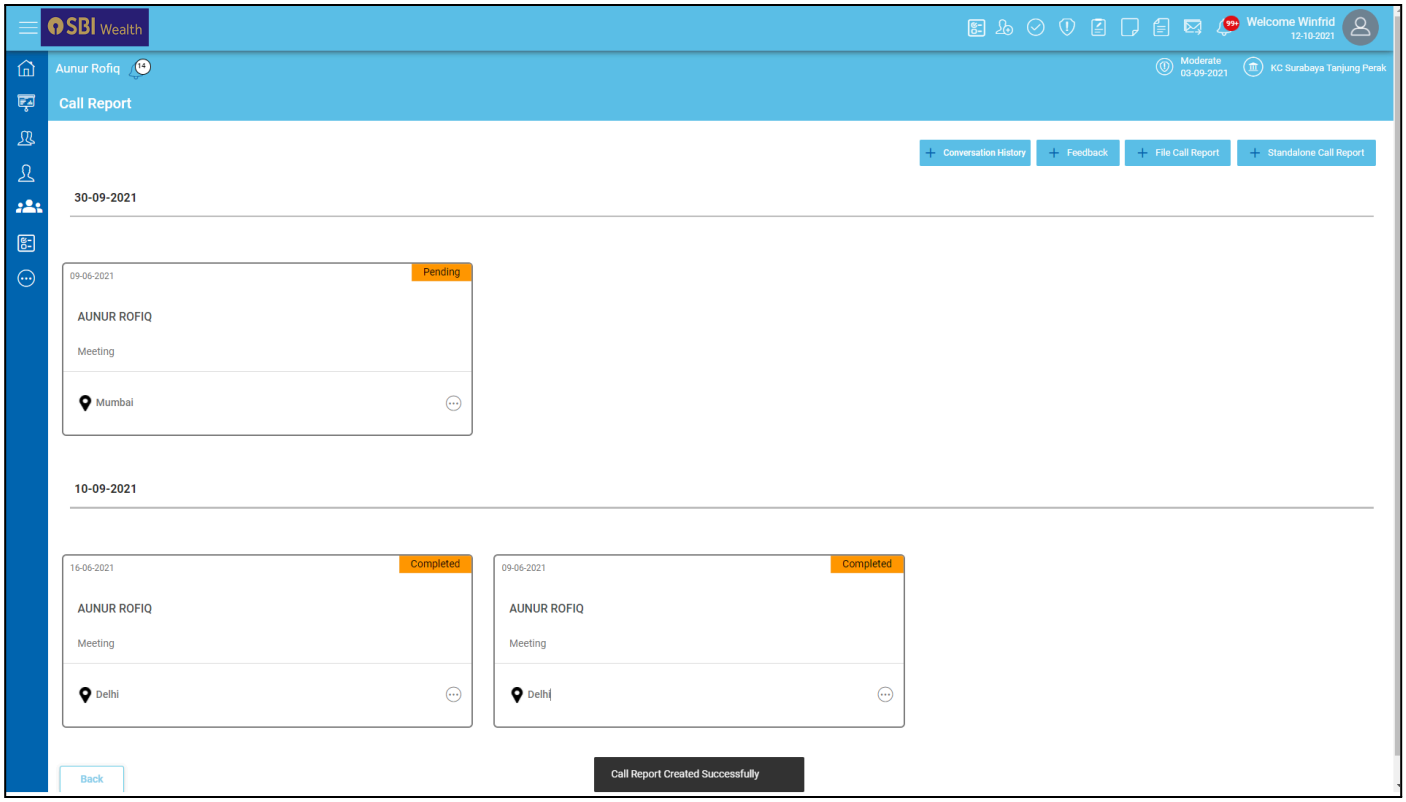

Figure 8 - System confirmation if call report is filed within 5 days

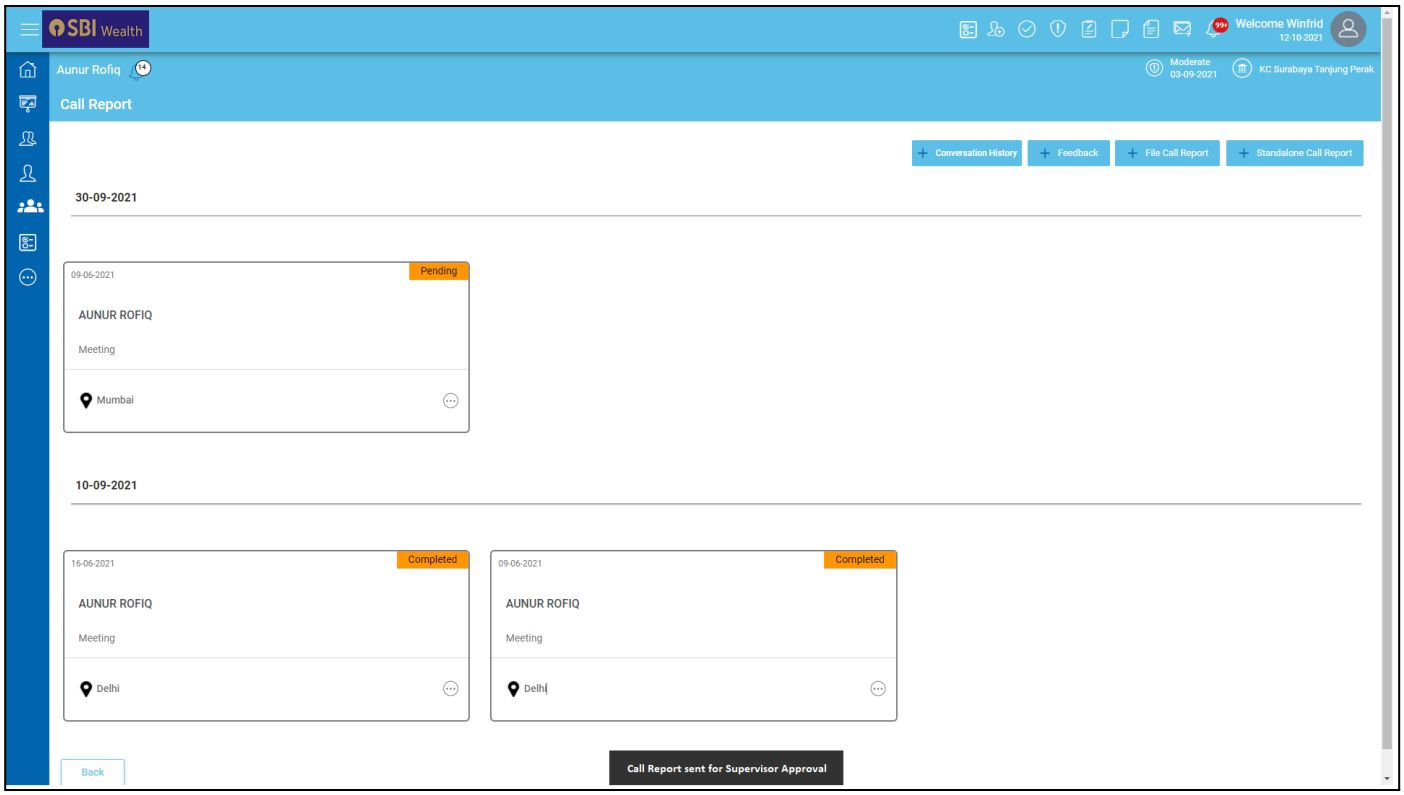

Figure 9 - Call report to be sent to supervisor approval if call report is filed after 5 days

10.1.5.2. Call Report Approval

1. For approval, the supervisor needs to log in to the application and click on PMS.
2. Supervisor can then click on to access the supervisor workspace.
3. Supervisor can then click on “Authorize” menu.
4. Supervisor can then select “Call Report” from the Authorize menu.

Figure 10 – Supervisor Approval workspace

5. The authorization screen will have 2 buckets
   a. Pending Approval Listing – This will display all the call reports that are available in the common pool for authorization
   b. To Approve – This will display the call reports that has been claimed by the supervisor for approval
6. From the “Pending Approval Listing”, the supervisor can select the desired card and click on “Claim”, the card will now appear in the “To Approve” list.

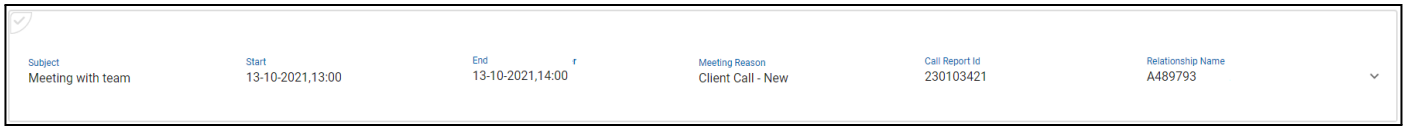

Figure 11 – Call Report approval card collapsed view

Figure 12 – Call Report approval card expanded view

7. From the “To Approve” list, supervisor can select the desired card and click on “View”

Figure 13 – Call Report approval card from “To Approve” list

8. The call report will be displayed in read only mode.
9. Supervisor can review the details and click on “Authorize” to approve it.
10. In case of any issues, supervisor can click on “Reject”.
11. System will prompt the supervisor to enter the reject reason.
12. Supervisor can enter the reject reason and click on “Submit”.
13. The reject reason will be saved in the system and the same will be displayed to the RM.
14. RM can check for the reject reason from the call report.
15. RM will search for the desired card and click on “File Call Report”.

Figure 14 – Rejected Call Report

16. To view the reject reason, RM can click on the “Reject Reason” button.

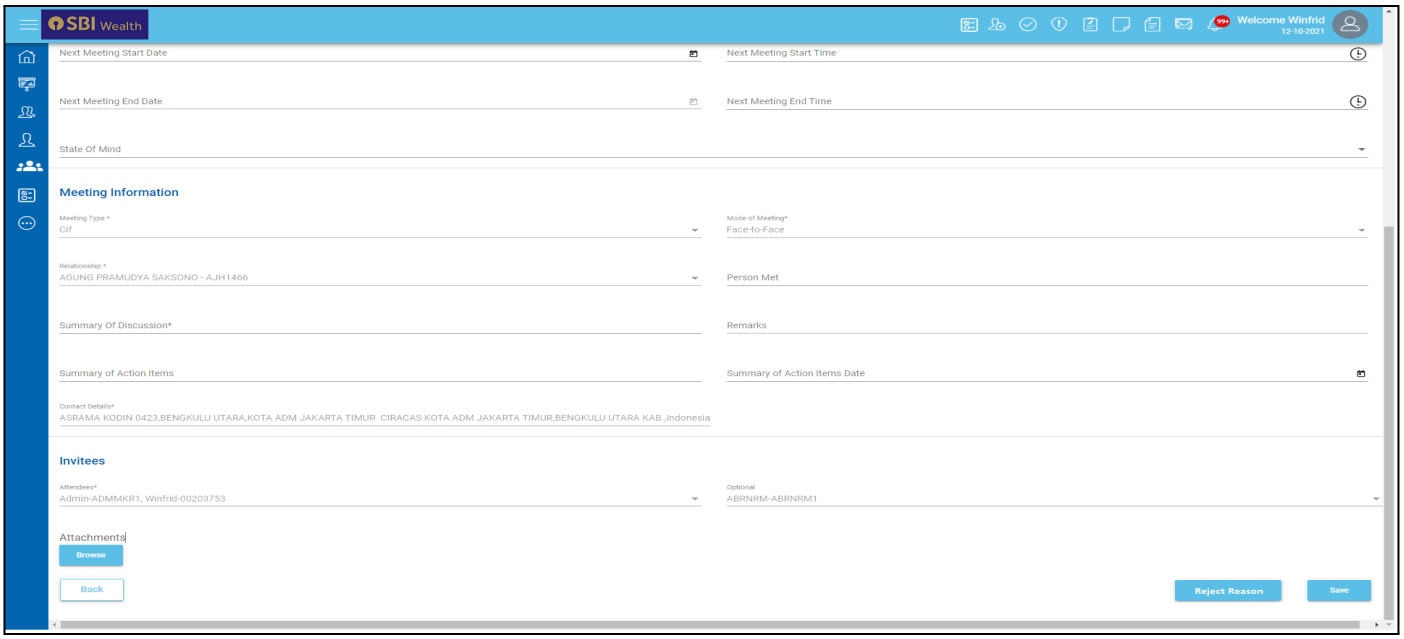

Figure 15 – Provision to check the reject reason of call report

17. The reject reason will be displayed in a pop up.

Figure 16 – Reject Reason to be displayed to RM

18. RM can accordingly make changes and submit in the application for supervisor approval.
19. After the call report is submitted, the status of the call report will be updated as “Pending Approval”.
20. The approval process will remain the same as from step 1 to step 12 above.
21. A call report is considered as submitted if the status of call report is “Completed” or “Approved”.

10.2. CR2 : Requirement to capture opportunity while filling call report

10.2.1. Change Requirement

RM can schedule meetings to meet with customers to either track an opportunity or pursue new business. Once RM has met with the customer, RM can file a call report to record the details of the meeting. A provision needs to be made to allow the RM to capture the opportunity details.

10.2.2. PDA Reference Number

Day 5 – 22/Sep/21 – S.No.12

10.2.3. Business Benefit

This change is required to continue the existing Bank process for opportunity management.

10.2.4. Impact Analysis

10.2.4.1. Impact of not making the change

Supervisor would not be able to track the RM Visits and interaction quality in respect of business closure and lead generation

10.2.4.2. Impacted Areas

10.2.4.2.1. Internal Systems

S.No	Module	Functionality	Description
1	PMS	Call Report	

10.2.4.2.2. External Systems

None

10.2.4.2.3.

10.2.5. Solution

1. User needs to log in to the application and navigate to PMS.
2. User can click icon to access the calendar and click on the “Call Report” button.
3. User can then identify the desired meeting card and click on “File Call Report”
4. Users can also click on “Standalone Call Report” to file a call report without any meeting scheduled.
5. User can also navigate through customer card, user can click on icon to navigate to “My Customer” page.
6. Users can identify the desired customer card and click on it.
7. User can then click on icon to access the call reports for the customer.
8. User to select the desired card and click on “File Call Report” button.
9. Once the call report form loads up, the user can fill in the details of the concluded meeting.
10. The label “Opportunity ” would be a text field to capture the opportunity generated in the call.
11. The label “Opportunity Date” will capture the date of opportunity creation.
12. These opportunity field details will reflect in the download of Scheduler-Call Report also.
