1. Introduction

This document covers the signup and the Wealth account opening process of the customer on the Intellect mobile app. Users can sign up and complete the KYC along with account opening or skip the KYC process and move to the Exploring products.

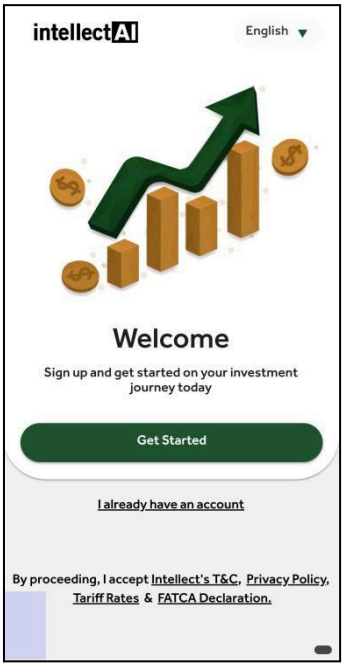
2. Prerequisites

Not Applicable

3. Registration

3.1 Mobile App Home Page

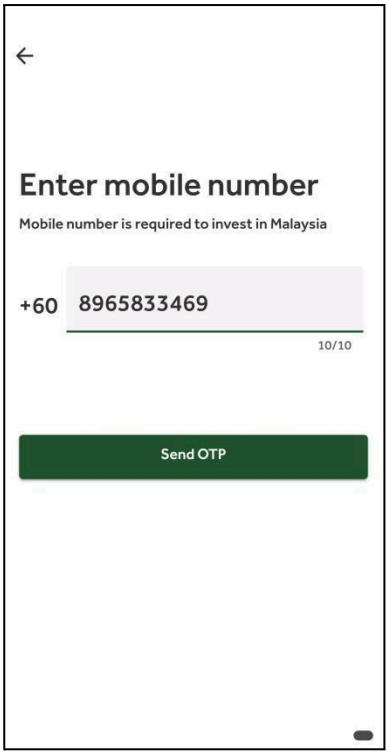
1. The user will install the Application from the Play Store into the mobile and will launch the Application.
2. Once the application is launched, the user has to click on the "Get Started" Button on the Home page which will redirect the user to the Register Page. If the user already has an account they can click on "I already have an account" and Login



Screen: Mobile App Home page

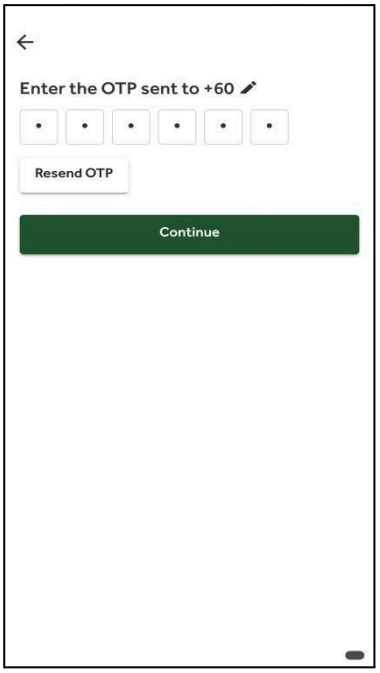
3.2 Register Screen

1. **Mobile Verification:** The user needs to provide a 10-digit valid mobile number and click on the "Send OTP" button. Then the user will be redirected to the "Enter OTP" Screen.



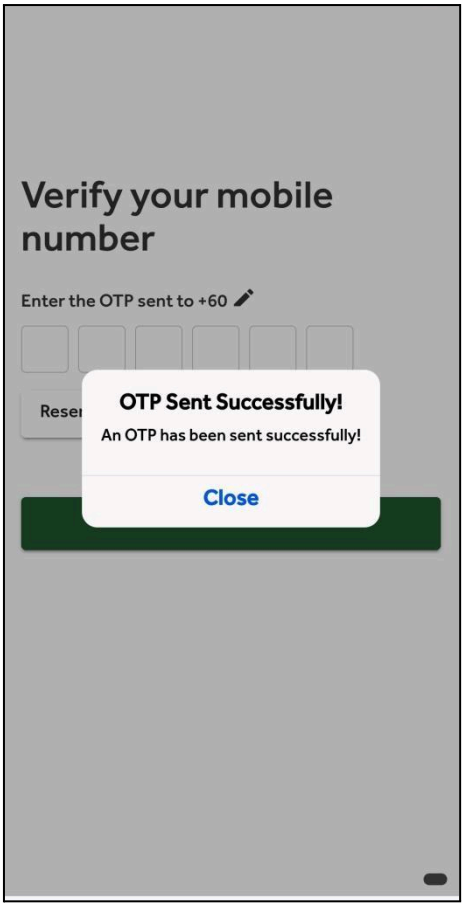
Screen: Get started 1.1

3. The user will provide the valid OTP received on the given mobile number and click on the “Verify” button. The User will be redirected to the “Email verification” screen.



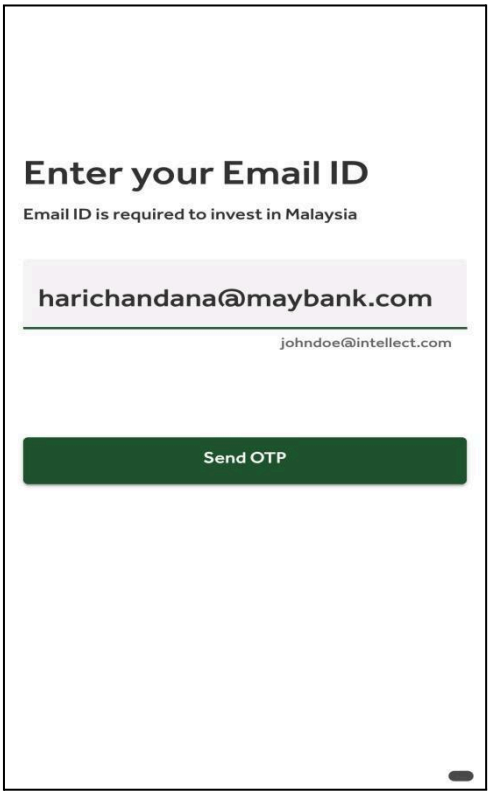
Screen: Mobile OTP

4. If the user doesn't receive the OTP then the user needs to click on the “Resend OTP” link. On the Mobile Screen, you will see the “OTP Sent **Successfully” popup message. After closing the pop-up the user will enter the new OTP and click on verify.**



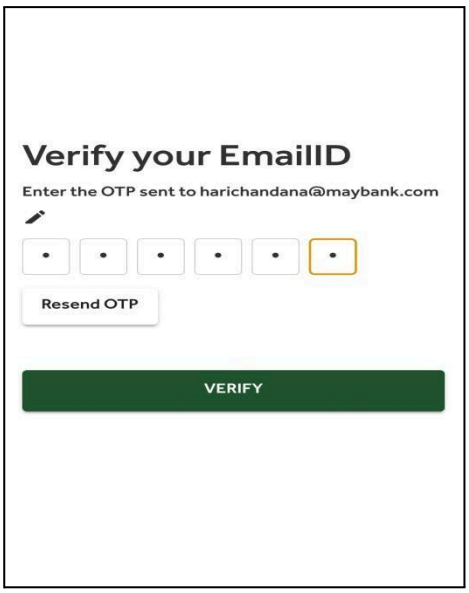
Screen: Resend OTP to Mobile

5. Email Verification: Once the User's mobile number has been verified the user will be redirected to the Email Verification Screen. The user has to provide a valid Email ID and click on the “Send OTP” button.



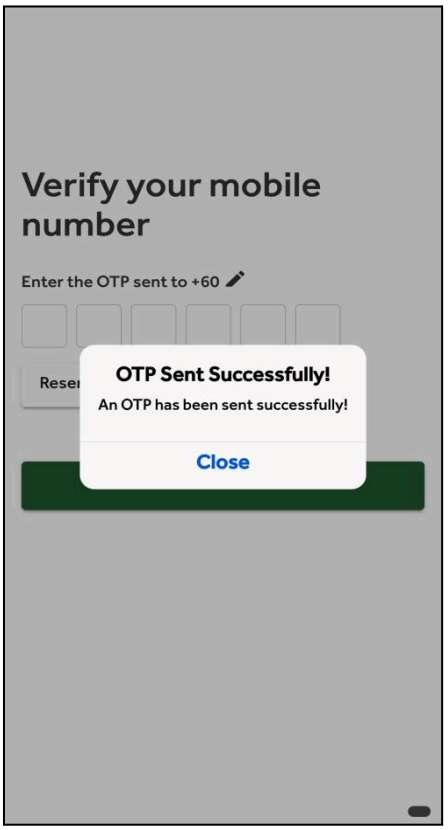
Screen: enter Email details

6. The user has to provide the valid OTP number received on the given Email ID.



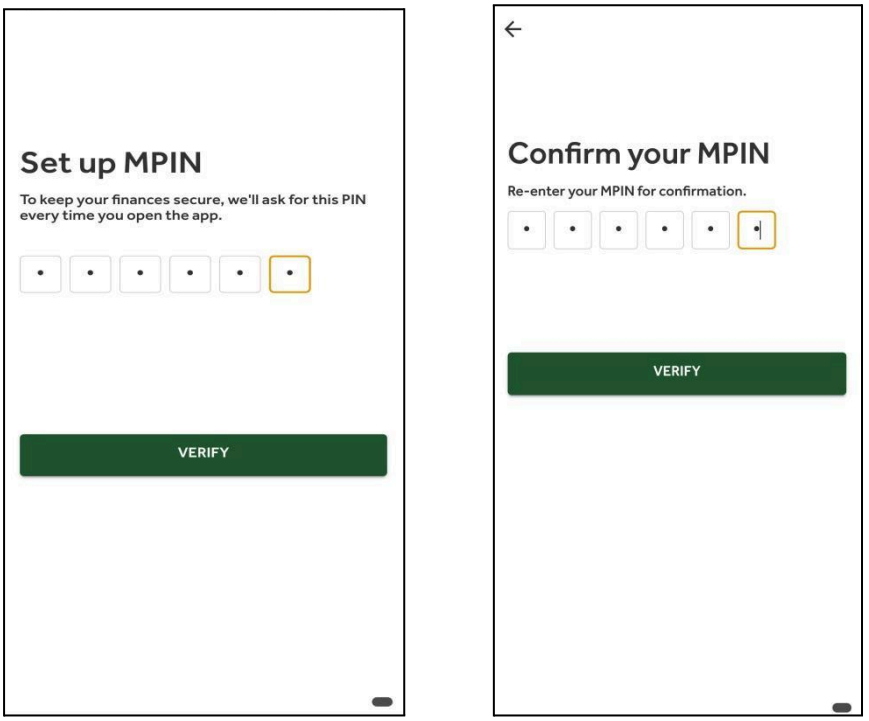
Screen: Email Verification

7. If a user doesn't receive the OTP then the user needs to click on the “Resend OTP" link, and the user will receive a new OTP to the provided Email ID. On the Mobile Screen, you will see the “OTP Sent **Successfully” popup message. After closing the pop-up the user will enter the new OTP and click on verify.**



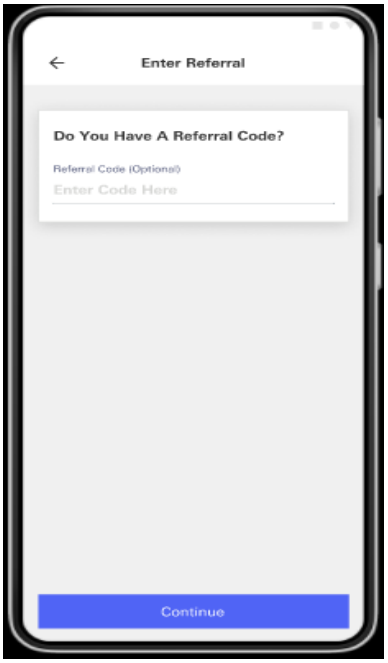
Screen: Resend OTP to the Email ID

8. Set MPIN: Once the Email ID has been verified, the user will be redirected to the “Set MPIN” screen. The user must provide the 6-digit MPIN number and click the “Confirm” button.

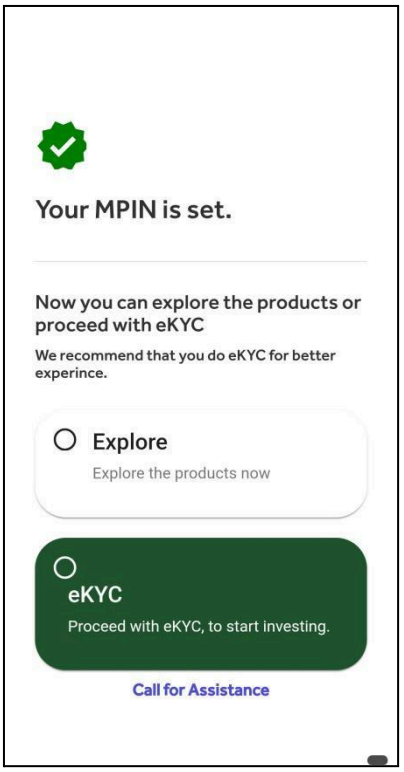


Screen: Set MPIN

9. Once the MPIN is entered then APP will display the option to enter an optional Referral code to map the RM. If the referral code is not entered then user can move ahead.



Screen: enter referral code



Screen: MPIN Success Screen

10. Once the user has successfully set the MPIN, on the screen the user will have two options
    a) Explore
    b) Continue to complete e-KYC

4. Explore

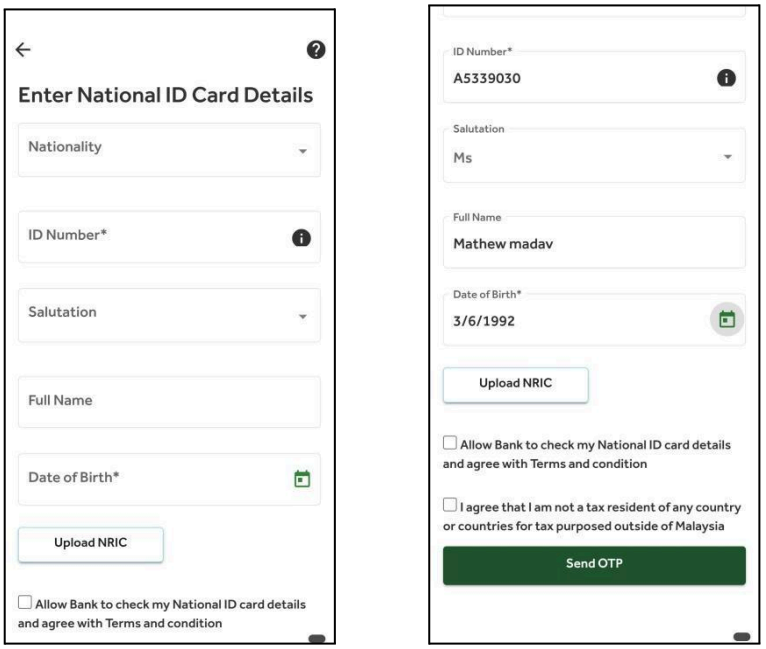
1. If the user click on Explore, App will redirect to transact journey of the App, where user can explore the existing products and continue the journey. Please refer to the DTC_ Journey of Order Placement for details

5. Set up your E KYC

For the eKYC process, the user has to click on the "Continue to eKYC button" which will be redirected to the "Enter National ID Card Details" screen.

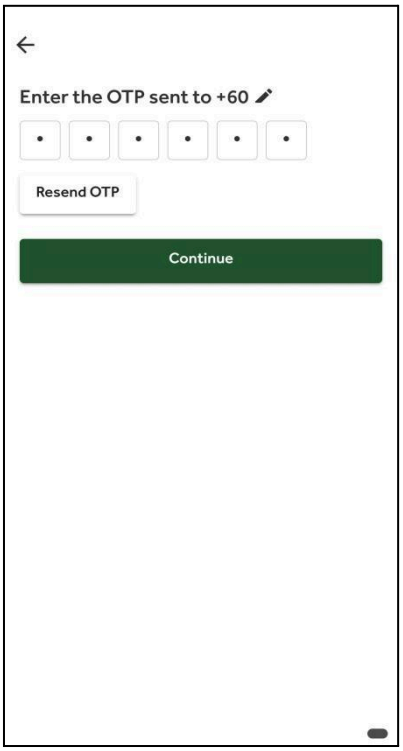
5.1 Enter National ID Card details

1. The user has to details like Nationality, ID Number, Salutation, Full Name, Date of Birth and upload NRIC



Screen: Enter Your National ID details Screen

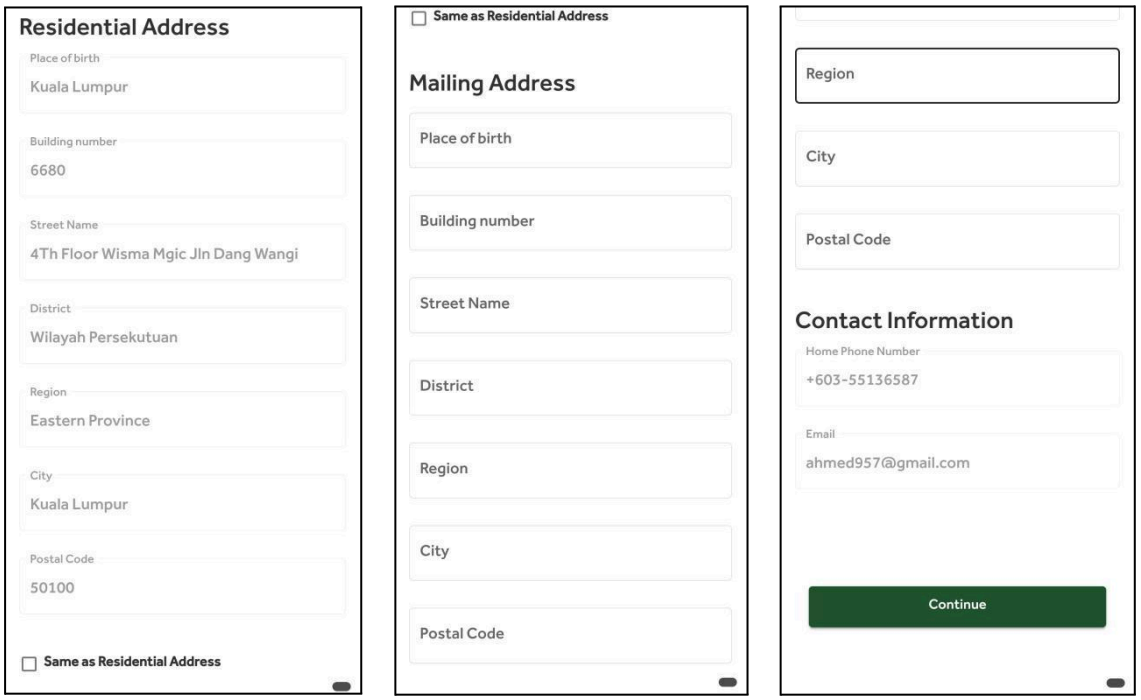
2. After filling the details, user can click on Send OTP and validate the OTP details. Once correct OTP has been entered, User will see "OTP verified successfully" message on screen and user can click on continue to add address and contact details. Resend OTP functionality is present in this screen.



Screen: OTP Validation

5.2 Address and Contact details

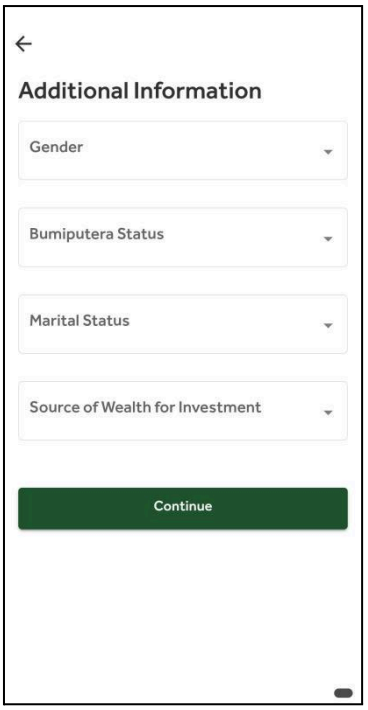
1. Residential address details and contact details will be fetched from NRIC verification
2. User can provide Mailing address details
3. Once providing the necessary details, user can click on Continue to Additional information screen



Screen: Enter Address and contact Details

5.3 Additional Information

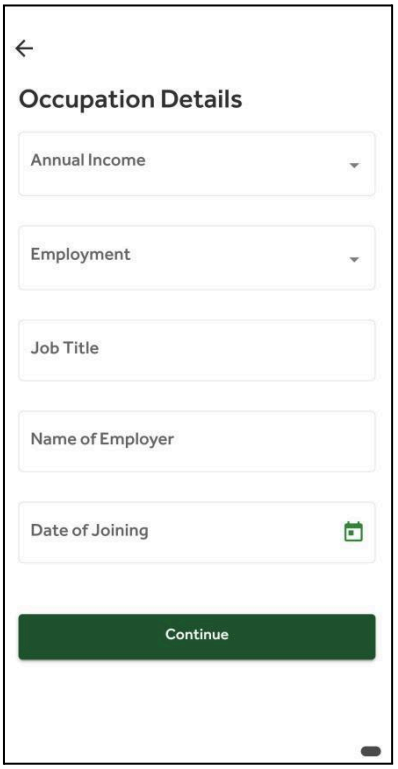
1. User can provide additional information like Gender, Bumiputera status, Marital status and Source of wealth in this screen
2. Once giving the necessary details, User can click on continue to reach Occupation details screen



Screen: Enter Address and contact Details

5.4 Occupation details

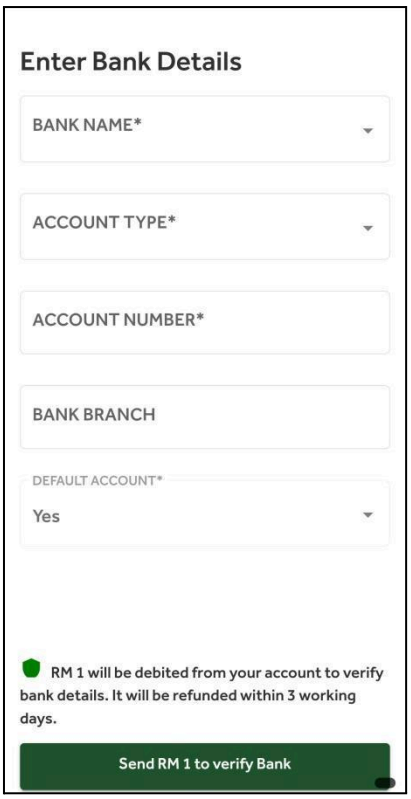
1. User can provide occupation details like Annual Income, Employment, Job title, Name of employer and Date of joining in this screen
2. Once giving the necessary details, User can click on continue to reach Bank details screen



Screen: Occupation Details

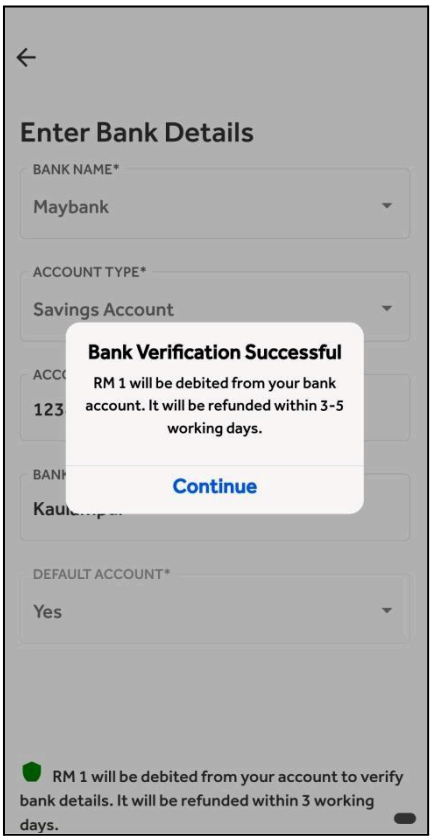
5.5 Enter Bank Details

1. On this screen, the user has to provide details like Bank Name, Account Type, Account Number, Bank branch, and Default Account
2. User then can click on the "Send ₹ 1 To Verify Bank" button. A penny drop validation will happen in the entered bank details for verification



Screen: Enter Bank Details

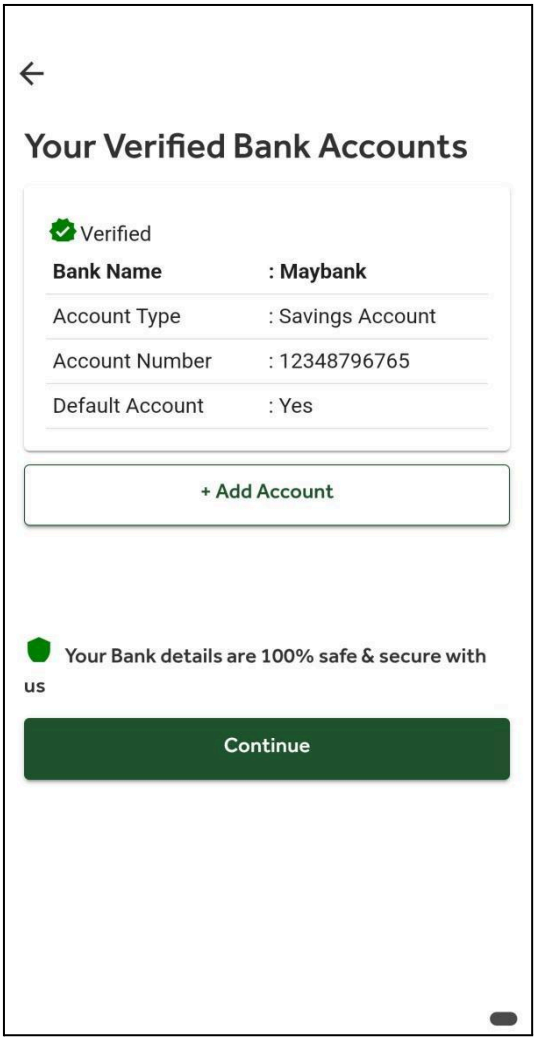
3. The user will see the Successful message when the Bank account is verified. Clicking on the "Continue" button will redirect to the "Verified Bank Accounts" screen.



Screen: Enter Bank Details

4. On this screen, the user can add another bank account by clicking on the "Add another Bank Account" button which will again redirect to the "Enter Bank Details" screen.

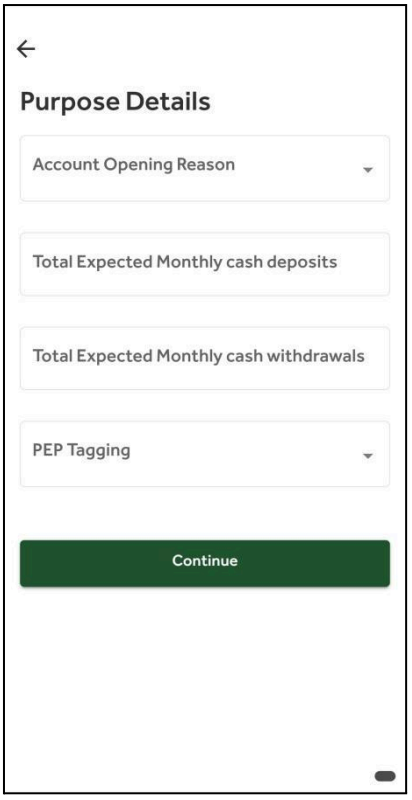
5. The user can add a maximum of five bank accounts. Clicking on the 'Continue" button will redirect the user to the "Purpose details" screen.



Screen: Verified Bank Accounts

5.6 Purpose Details

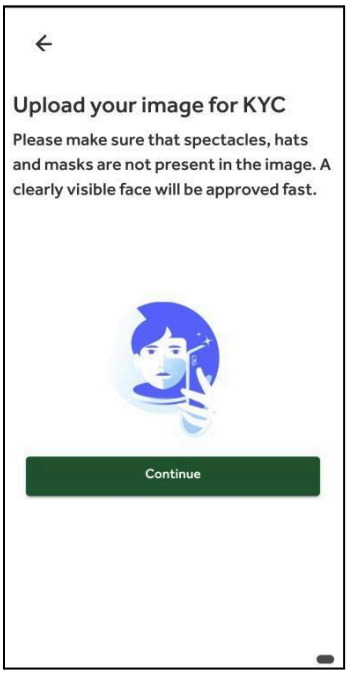
6. On this screen, the user has to provide the Account opening reason, Total expected monthly cash deposits, Total expected monthly cash withdrawals and PEP tagging details
7. Once the user enters necessary details, User can click on continue to reach "Upload image for KYC Screen"



Screen: Purpose Details screen

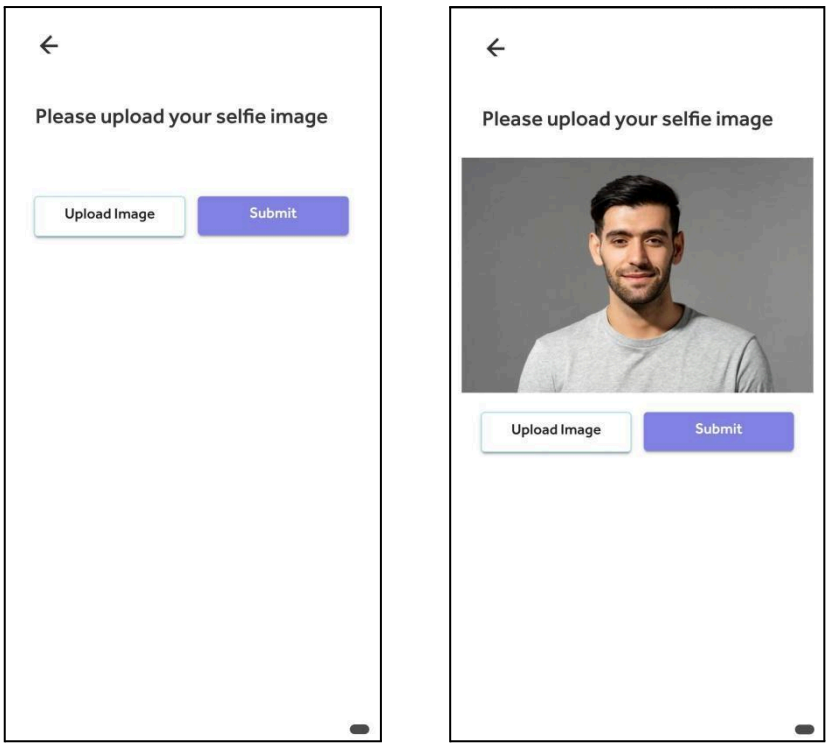
5.7 Upload Image and Signature

1. The user will be redirected to the "Upload Image for KYC"



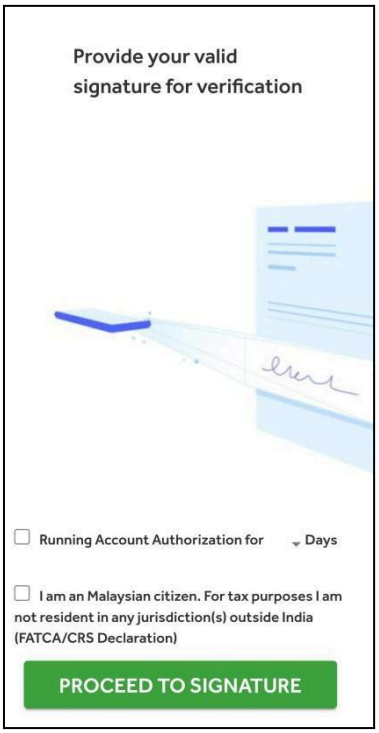
Screen: Upload image for KYC screen

2. User can click on continue to upload picture and upload the photo of the user



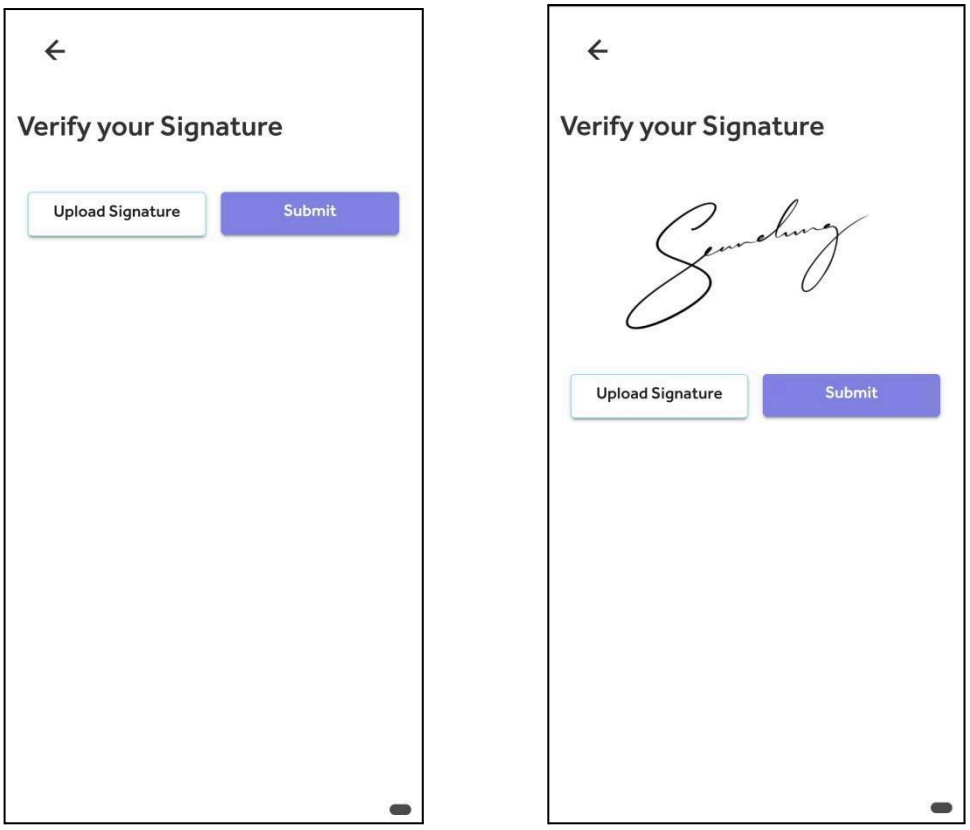
Screen: Upload image

3. User can click on submit to submit the image and will be taken to upload signature verification screen



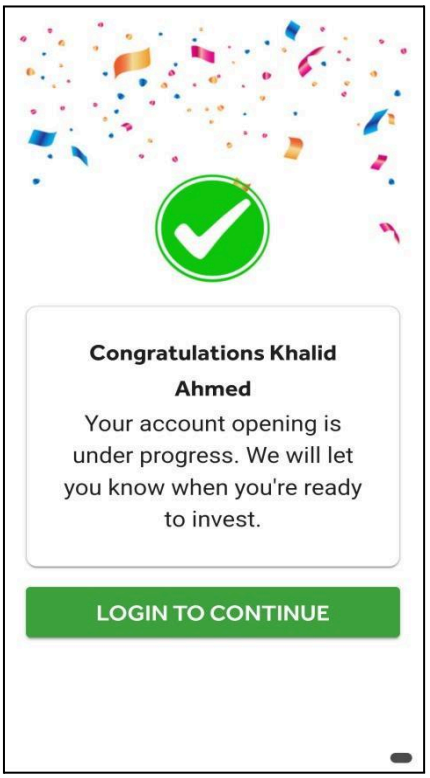
Screen: Signature verification

4. User can provide details for running account authorization and confirm Malaysian citizenship status
5. User can then click on proceed to signature to upload signature



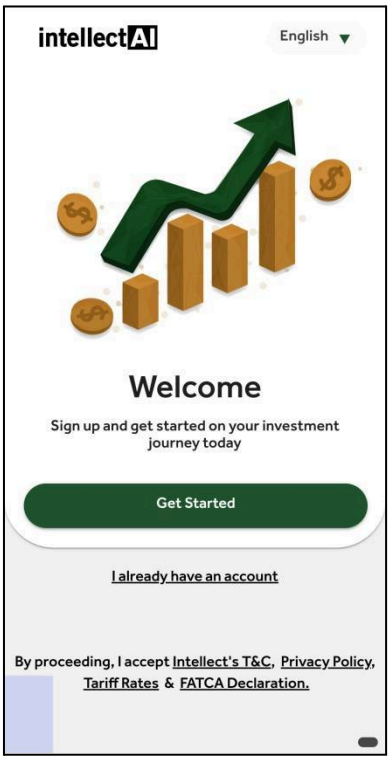
Screen: verify your Signature

6. User can click on submit to submit the signature
7. Once the Signature is submitted, the user Account Opening process will be completed and can see the success screen.



Screen: Account Opening Success

8. When the user clicks on the “Login to continue” button, the user will be redirected to the Application Login page



Screen: Home Page
