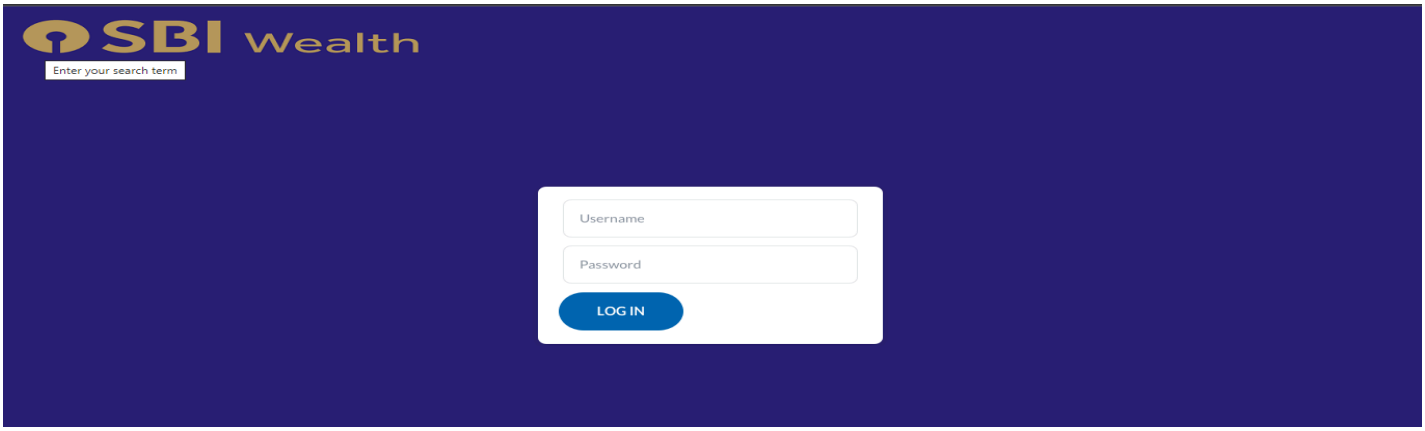
2. Prerequisites

S No	Process	Reference Document
1	Customer/Prospect Onboarding	Lead to Prospect and Prospect to Customer Journey Document
2	Product Setup	Journey of Defining Maintenance
3	User Maintenance	Journey of Defining Maintenance
4	License Maintenance	Journey of Defining Maintenance
5	Risk Profile Questionnaire Maintenance	Journey of Defining Maintenance
6	Risk Appetite Mapping Maintenance	Journey of Defining Maintenance
7	Model Portfolio Maintenance	Journey of Defining Maintenance
8	Benchmark Maintenance	Journey of Defining Maintenance

3. Process Flow

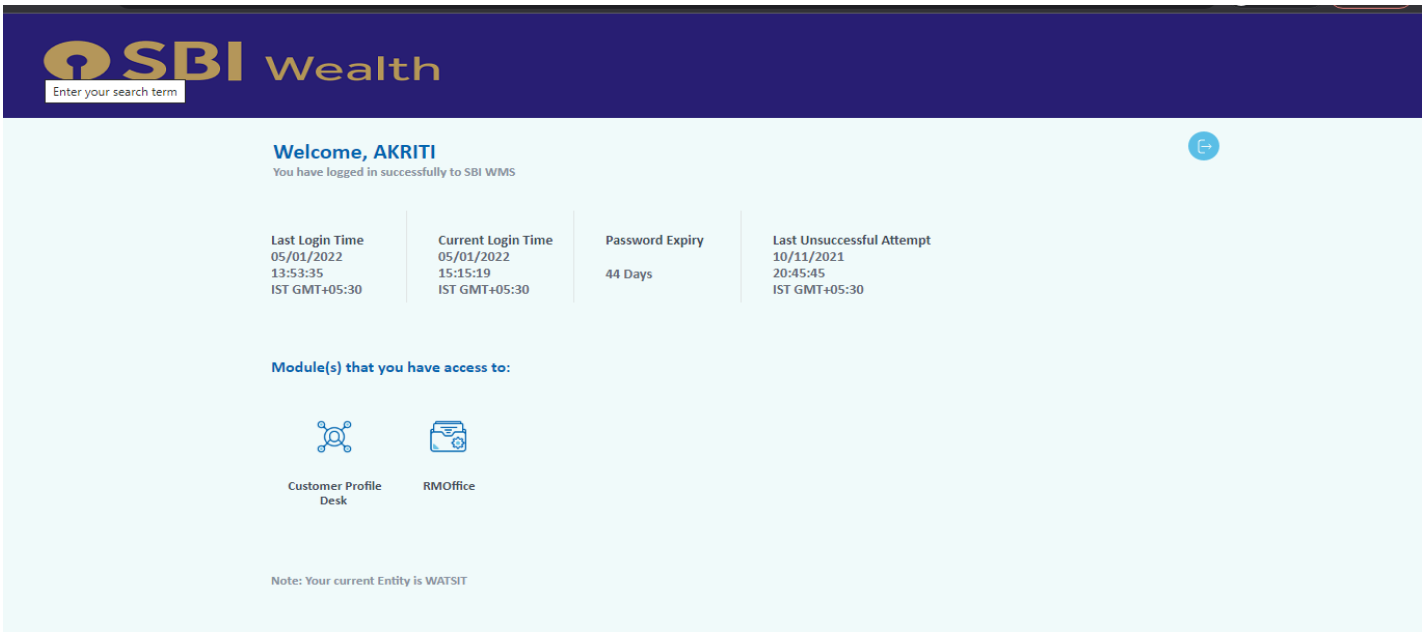
3.1. Login

1. The user enters their credentials and logs into the application



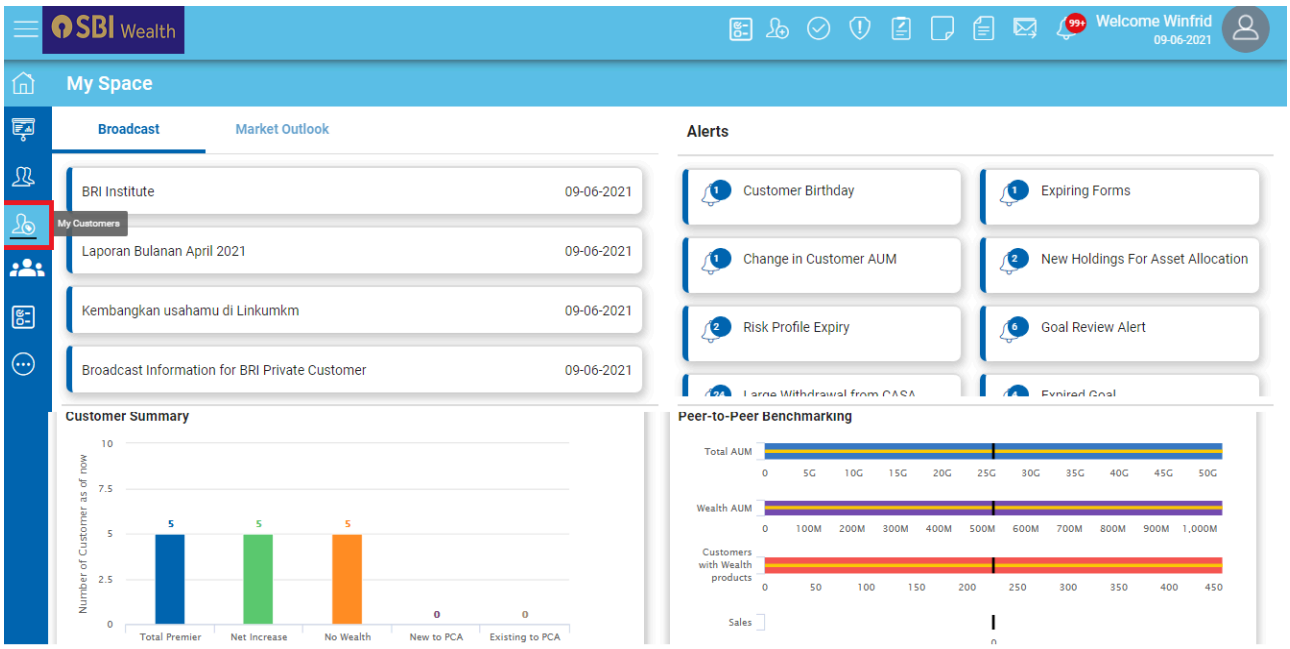
Screen: Launch the application

2. Once logged in, the user clicks on “RM Office” to launch PMS application



Screen: Select Intellect_RM Office

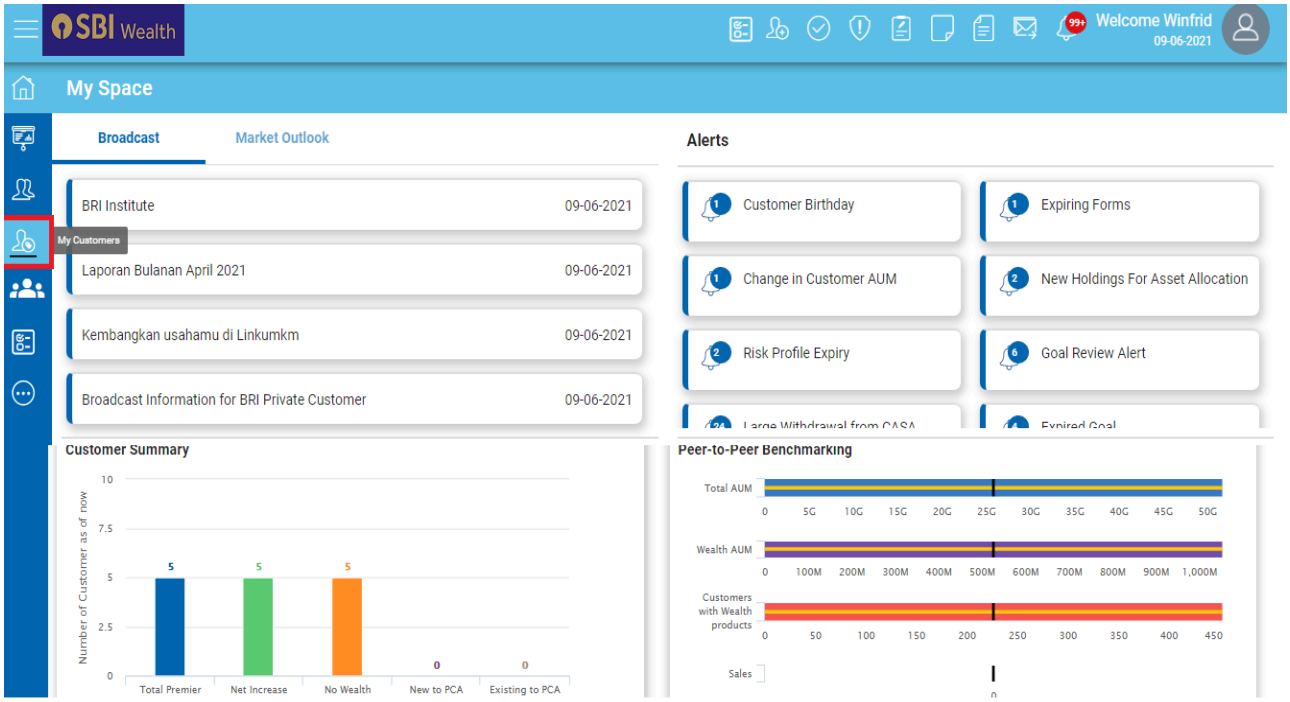
The following screen appears:



Screen: RM Office Landing Page

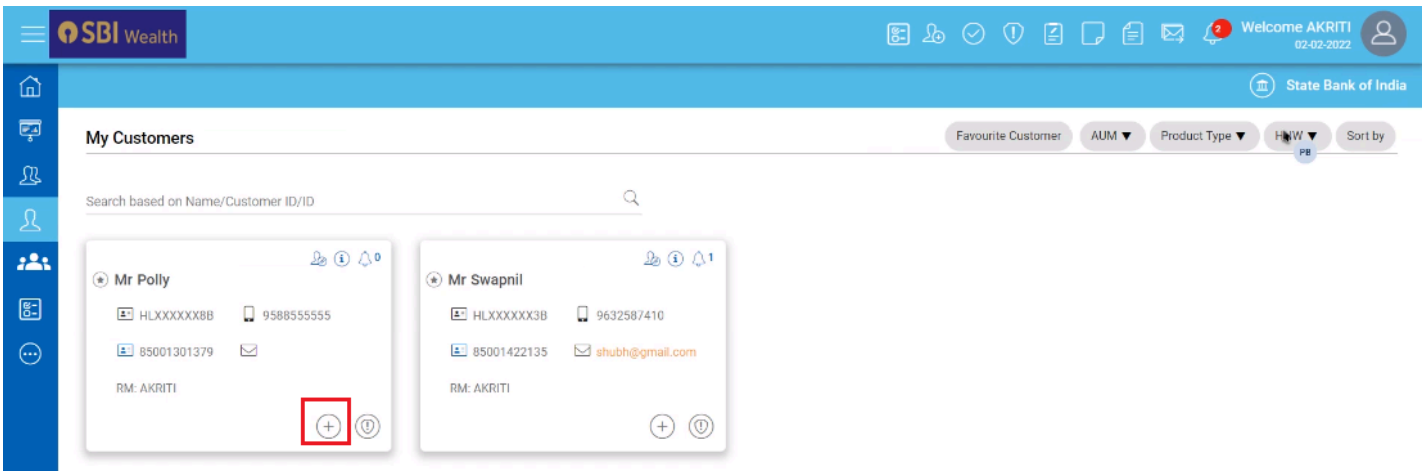
3.2. Edit Customer Profile

1. The user can click on the "My Customers" icon on the left navigation panel on My Space to navigate to the My Customers screen



Screen: My Space Screen

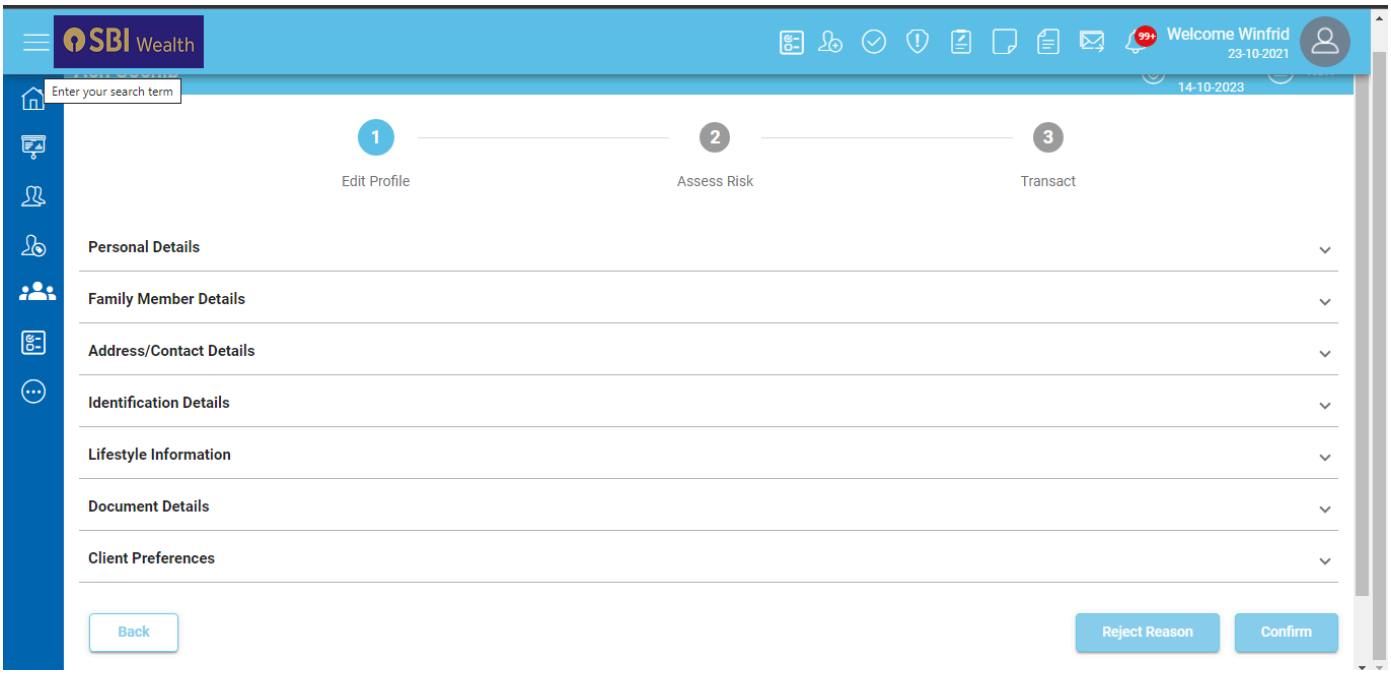
2. Once on the My Customers screen, the user can click on "+" on the customer card to edit the customer profile



Screen: Customer Card - My Customers Screen

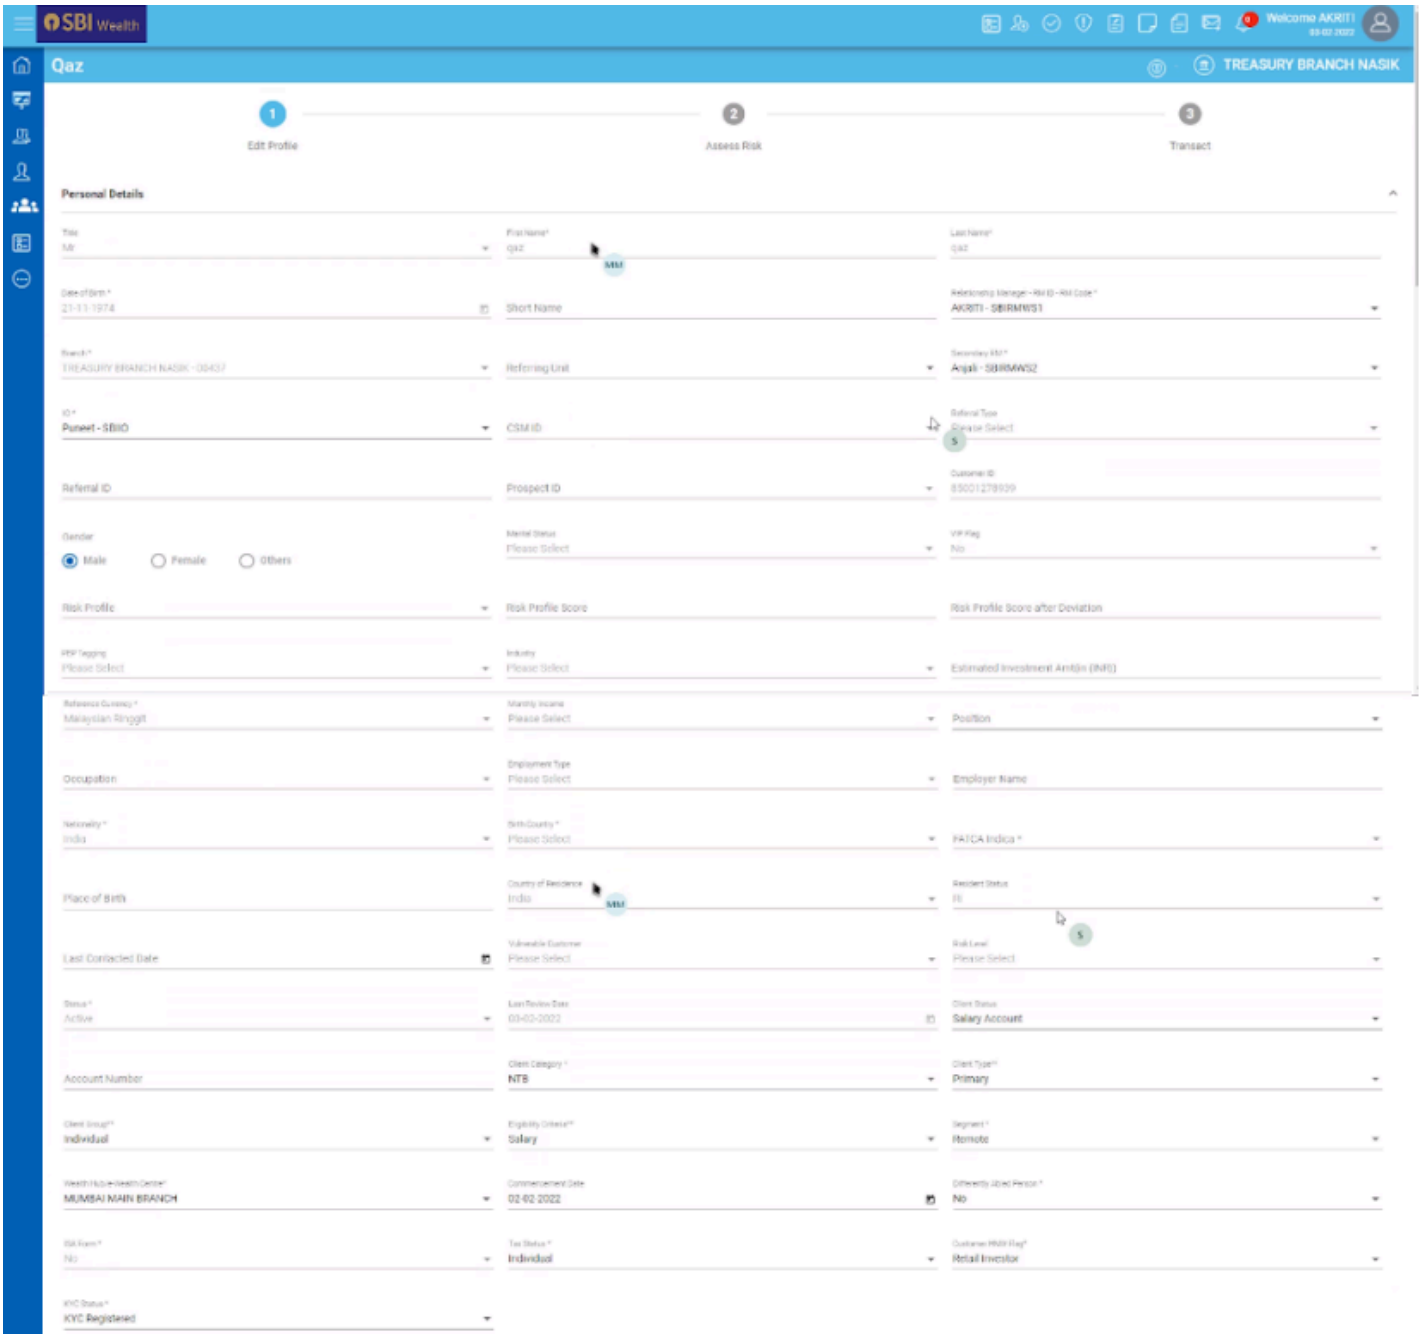
3. The user can choose to modify customer details should they wish to on the Edit Profile screen. The user can modify the following details:

a. Personal Details
b. Family Member Details
c. Address/Contact Details
d. Identification Details
e. Lifestyle Information
f. Document Details
g. Client Preferences



Screen: Edit Profile Screen

a. Personal Details - The user can view/modify the personal details of the customer
   i. Once the user has modified the details if any, they can click on the “Next” button to navigate to the next section of the screen

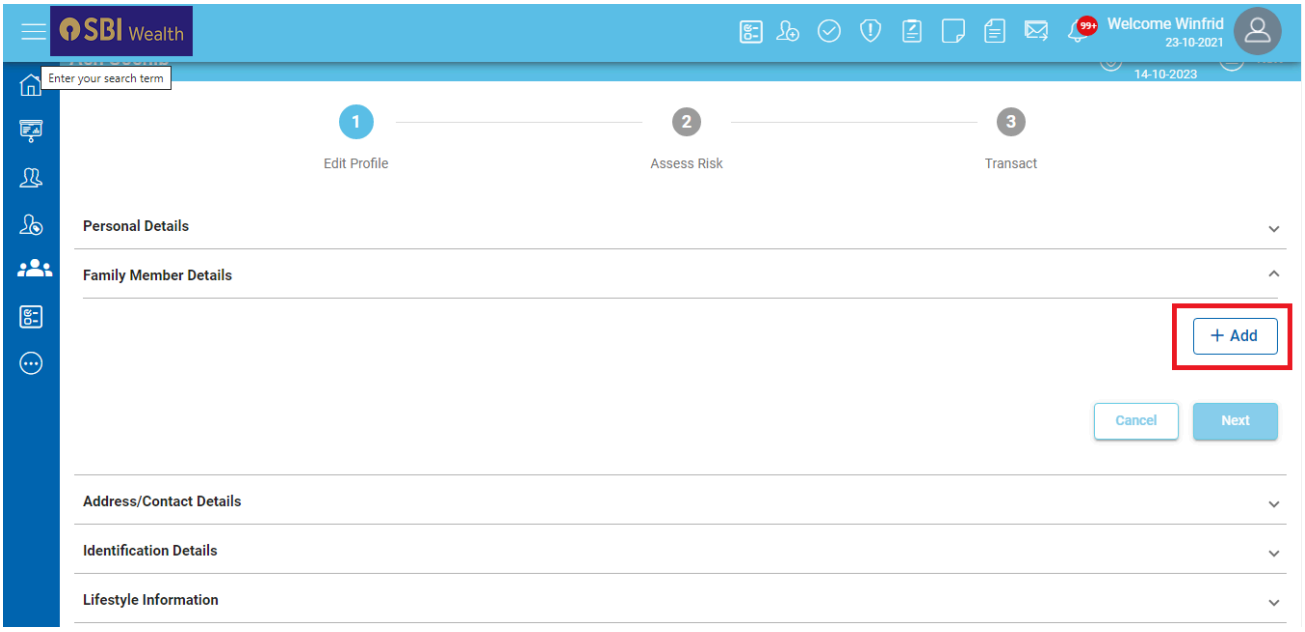


Screen: Personal Details

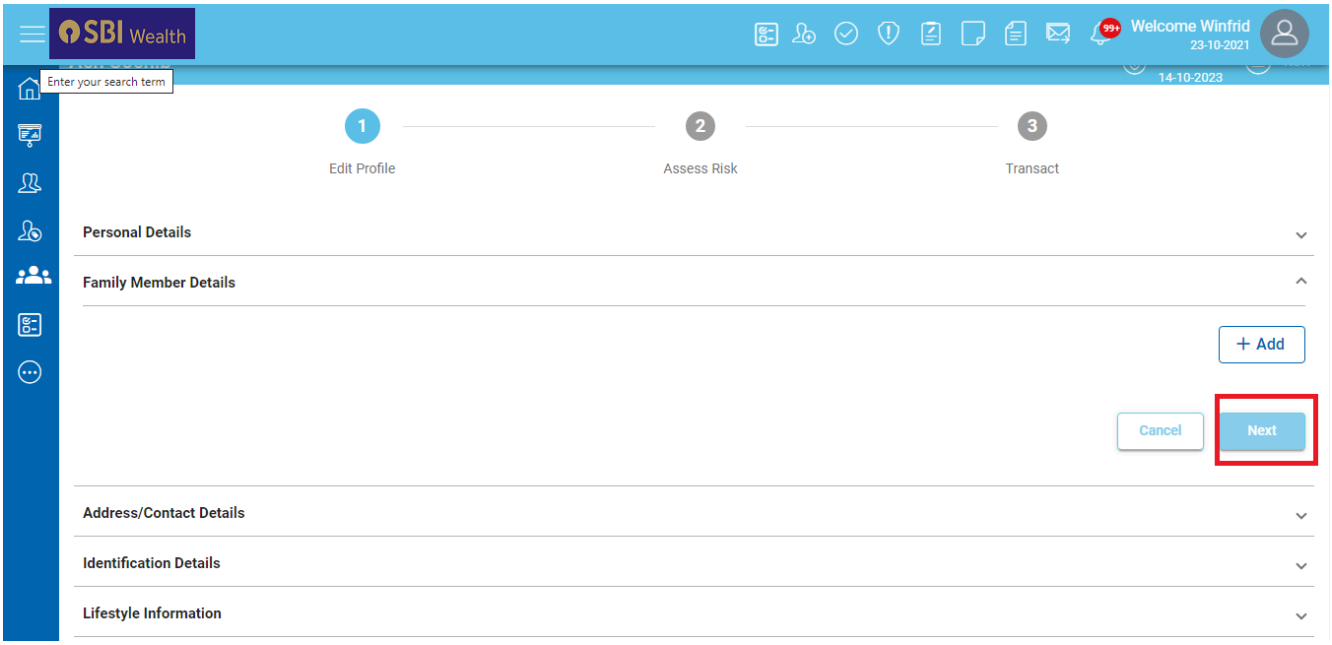
b. Family Member Details - View/Add/Modify Family member details of the Customer
   i. If existing Family members are already added, the user can view/modify their details
   ii. If family members are not already added, the user can click on the “Add” button to add family member details

and then click on the “Save” button to save the details

iii. The user can then click on the “Next” button to navigate to the next section



Screen: Family Member Details



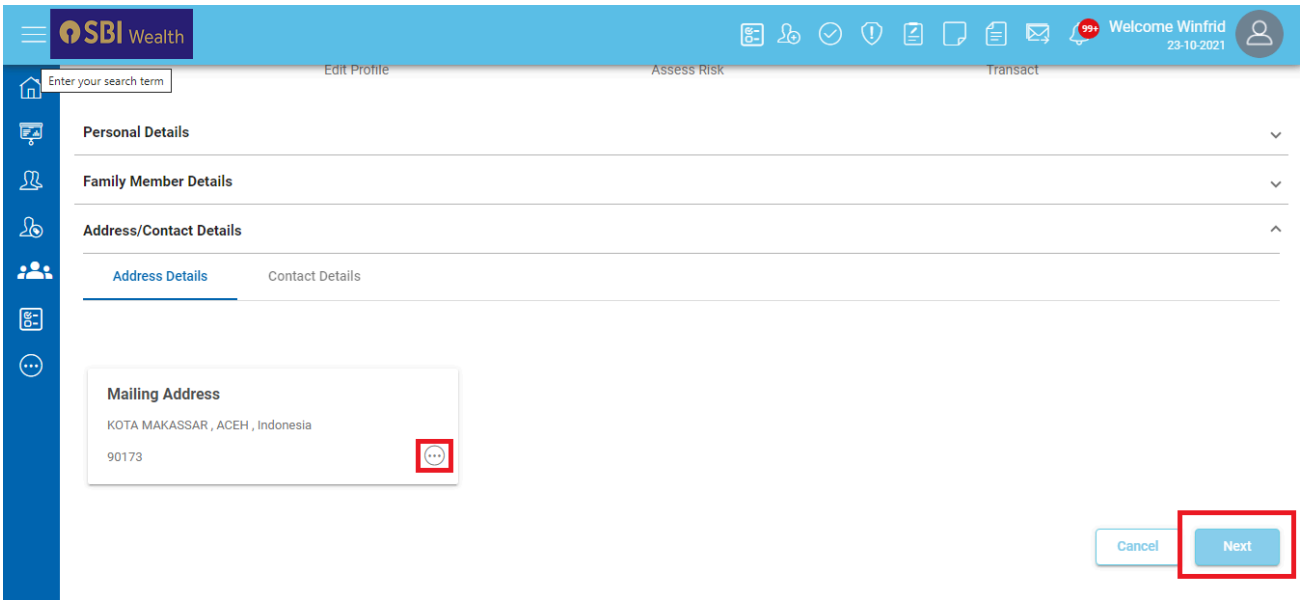
Screen: Add Family Member Details

c. Address/Contact Details - View Address/Contact details of the Customer

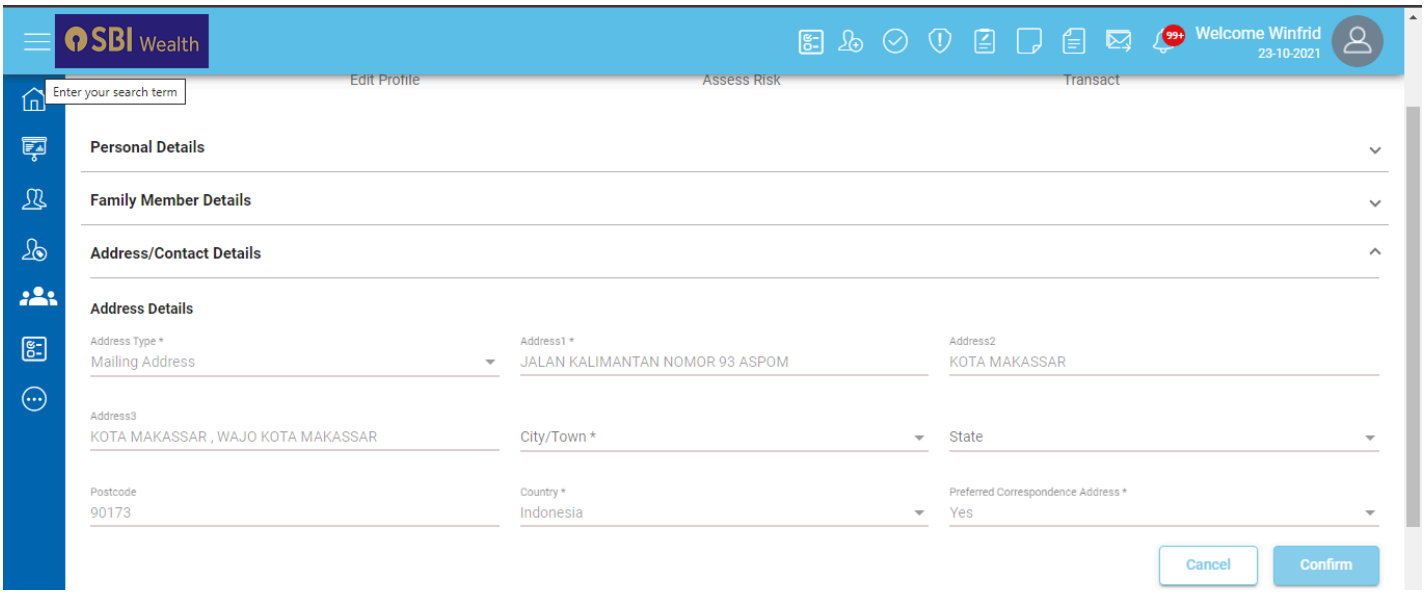
i. The user can view the address/contact details of the customer by clicking on the three dots on the address card

in the Address details tab

ii. The user can then click on the “Next” button to navigate to the next section



Screen: View Address Details Card

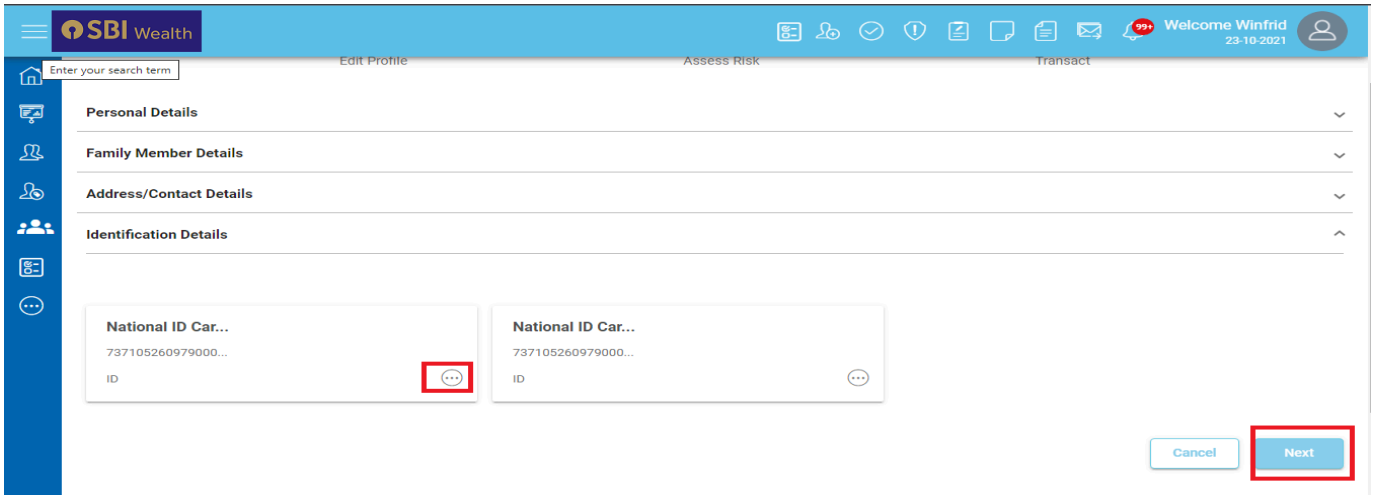


Screen: View Address Details

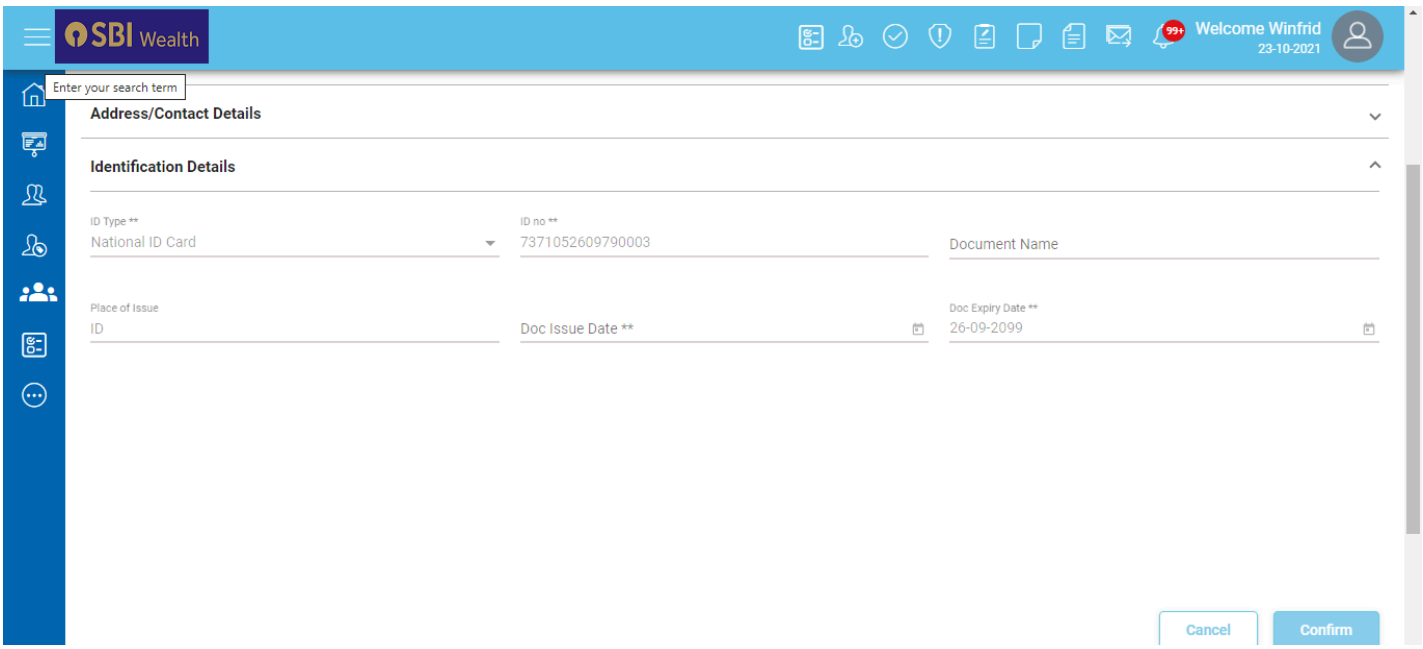
d. Identification Details - View Identification details of the Customer

i. The user can view Identification details of the Customer in this section by clicking on the three dots Once the user has seen the details, they can click on the “Confirm” button

ii. The user can then click on the “Next” button to navigate to the next section



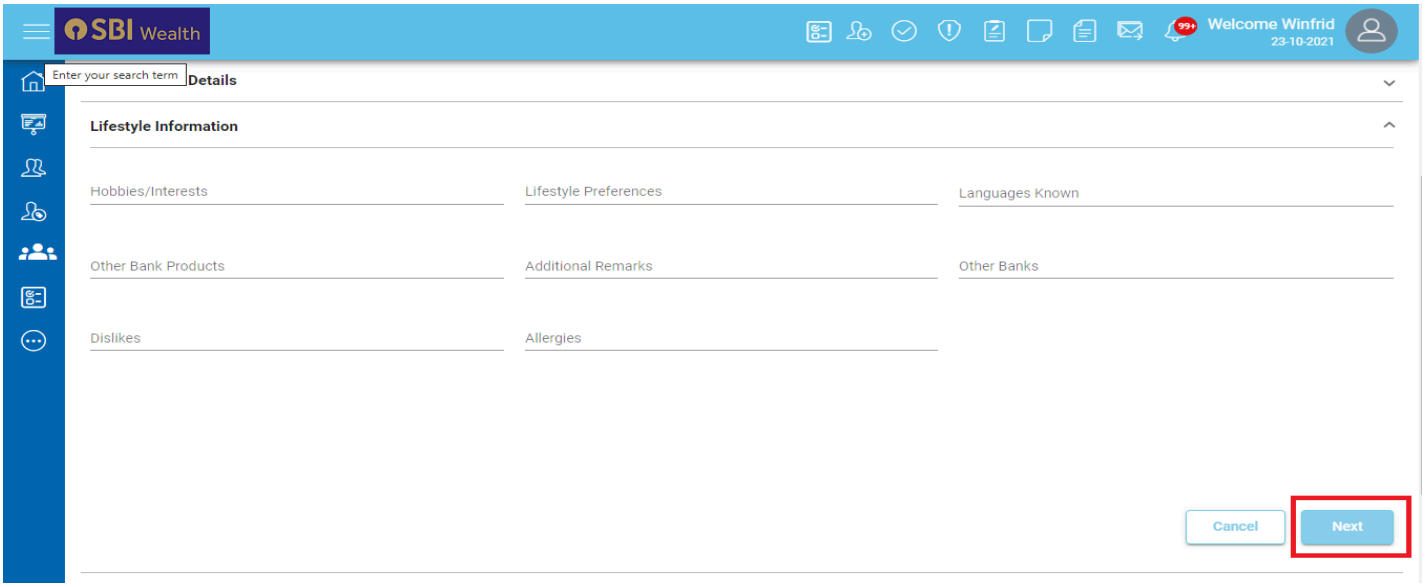
Screen: View Identification Details Card



Screen: View Identification Details

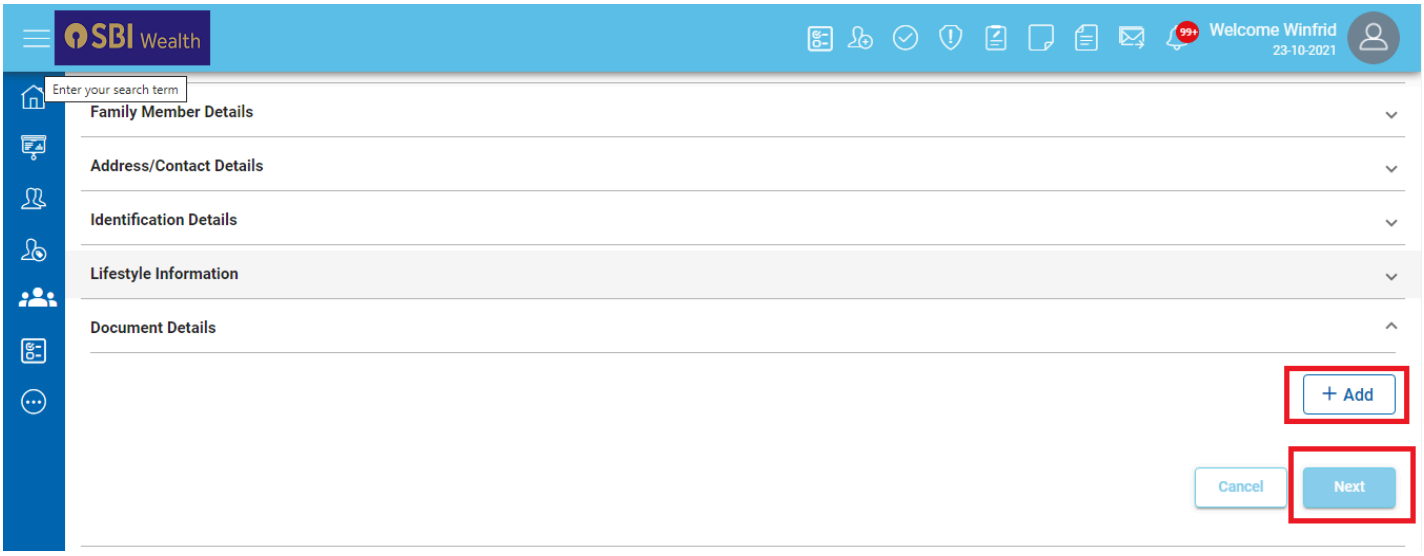
e. Lifestyle Information - View/Update/Modify Lifestyle Information of the Customer

   i. Once the user has viewed/updated/modified the Lifestyle Information, they can click on the “Next” button to navigate to the next section

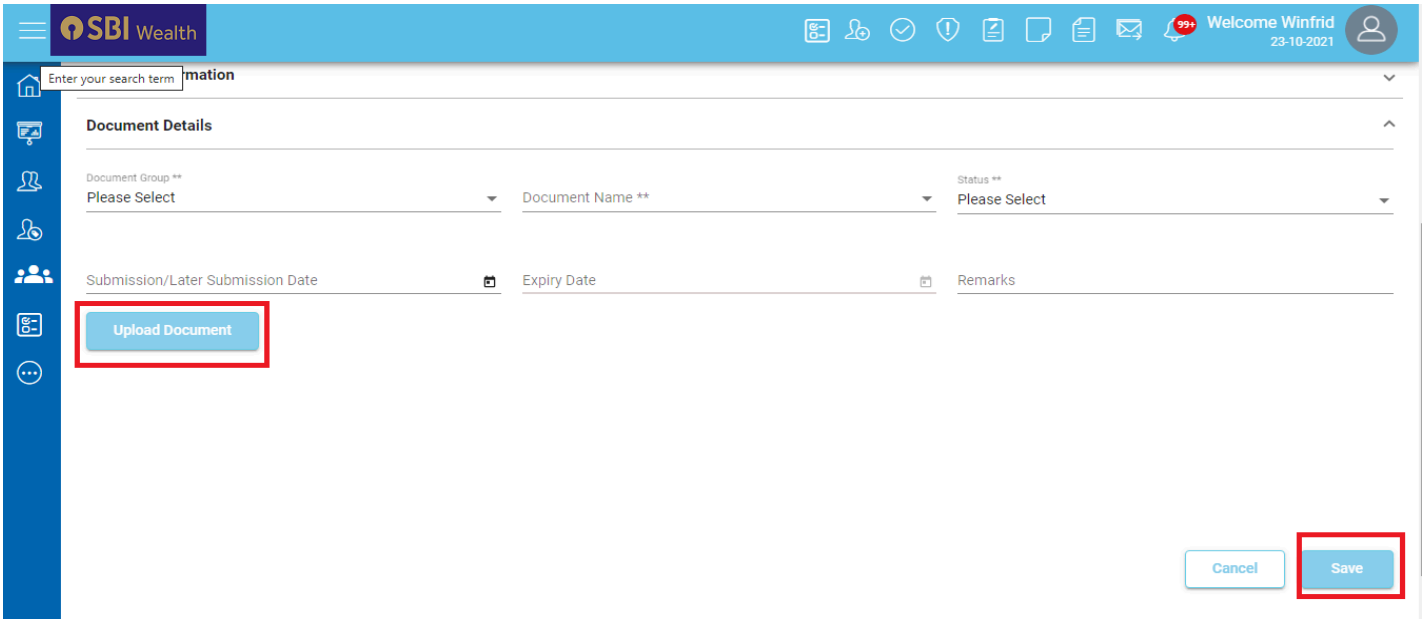


Screen: View/Add/Modify Lifestyle Information

f. Document Details - View/Add/Modify Documents of the Customer
   i. If existing documents are already added, the user can view/modify the details
   ii. If existing documents are not added, the user can click on the "Add" button to add documents details and upload the document by clicking on the "Upload" button, and then click on the "Save" button to save the document
   iii. The user can then click on the "Next" button to navigate to the next section

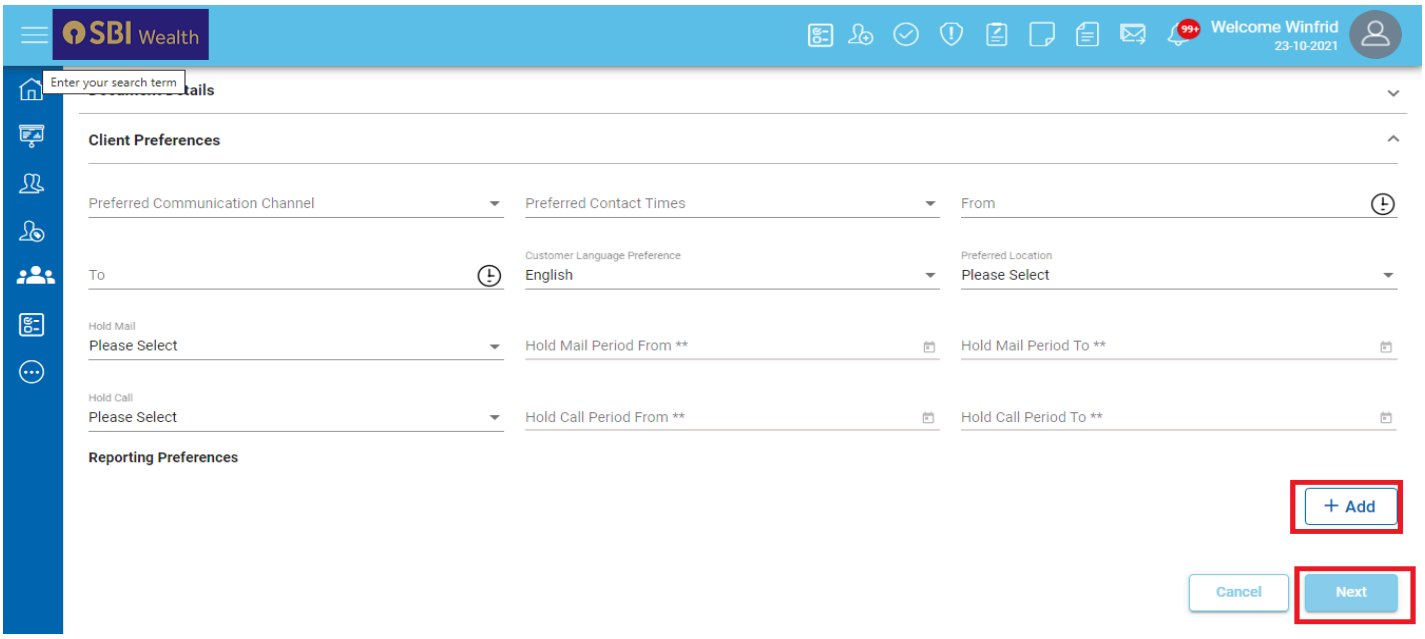


Screen: View/Add/Modify Documents

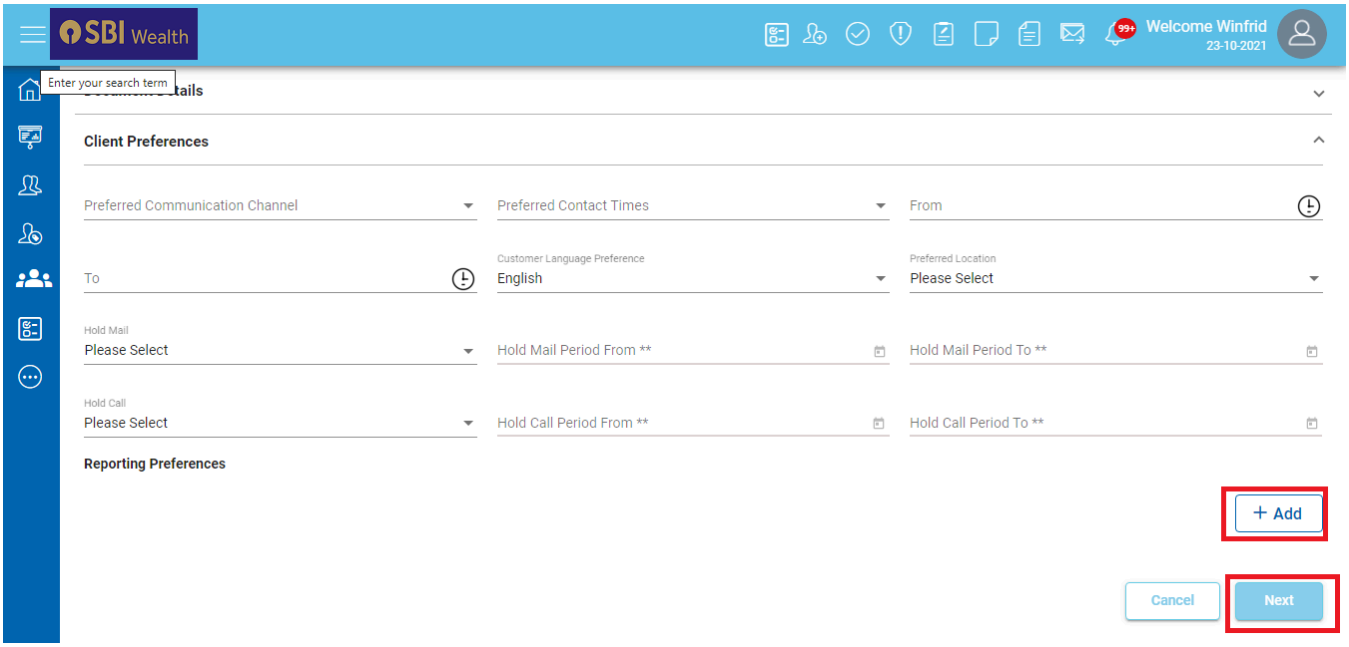


Screen: Add/Modify Document details

g. Client Preferences - View/Update/Modify Communication Preferences and Reporting Preferences of the customer
   i. The user can View/Update/Modify communication preferences of the customer in this section
   ii. The user can also add/view/modify reporting preferences of the customer
   iii. The user can add reporting preferences of the customer by clicking on the "+Add" button and click on the "Save" and then "Confirm" button to add the reporting preferences. This reporting preference can now be viewed as a card and modified if needed

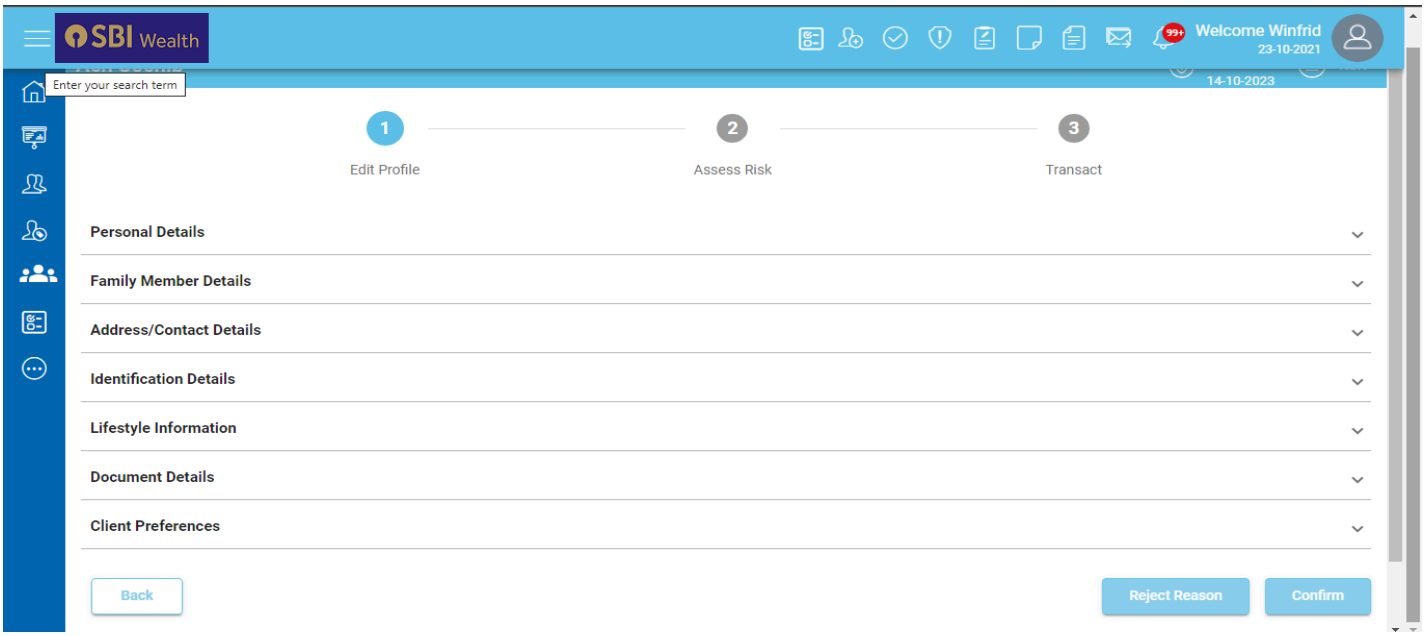


Screen: Add/View/Modify Client Preferences

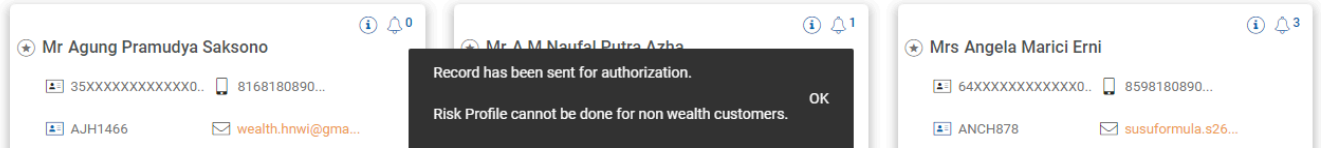


Screen: Add/View/Modify Client Preferences

4. After the user has entered/modified the relevant details in these sections, they can click on the "Confirm" button and record would be sent for authorization. User will be redirected to the "My Customer" screen if the risk profiling of customer is not done. If risk profiling already exist for the customer, user will land on "Recommended Risk Profile" screen.
5. If in past, supervisor has rejected the customer profile record then user can see the rejection reason by clicking on the "Reject Reason" button.

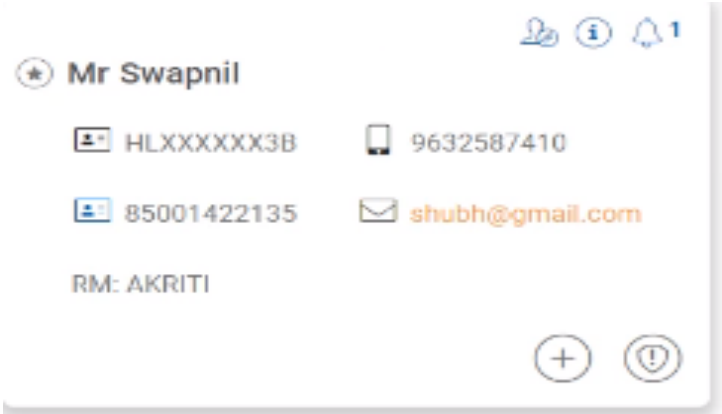


Screen: Confirm Customer Details



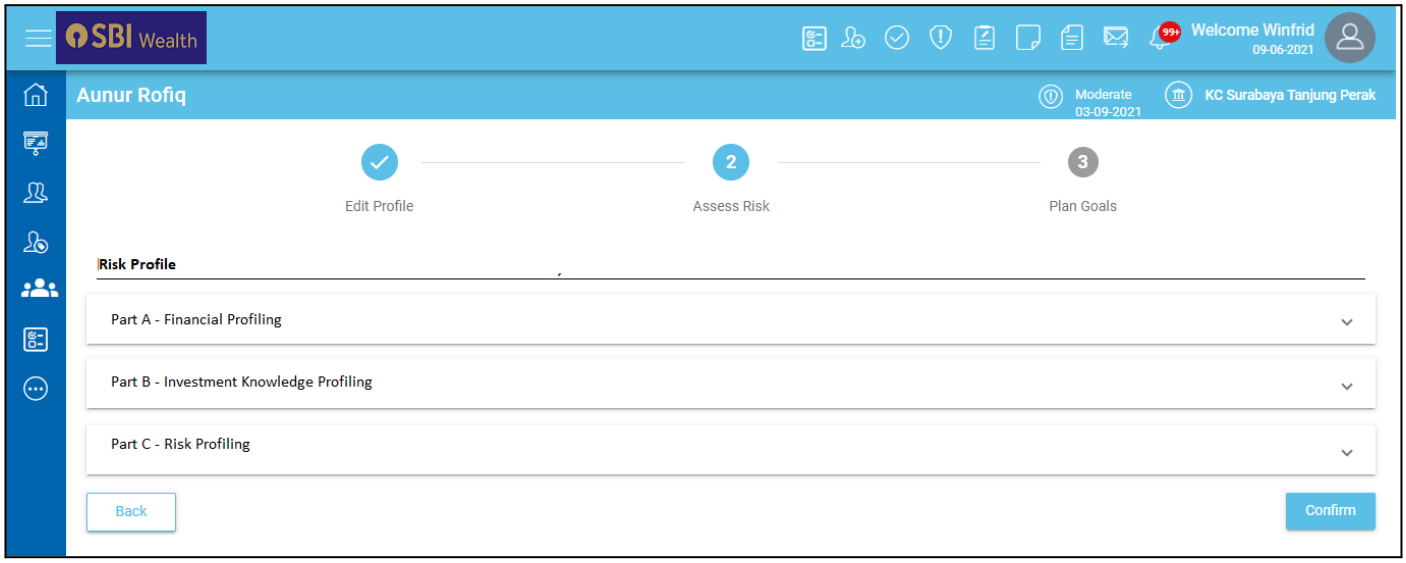
Screen: Record sent for authorization

6. Once the record is authorized, other icons would be enabled in customer card as described in document "Journey of Self-Assessment and Supervisor Assessment-Customer Dashboard"



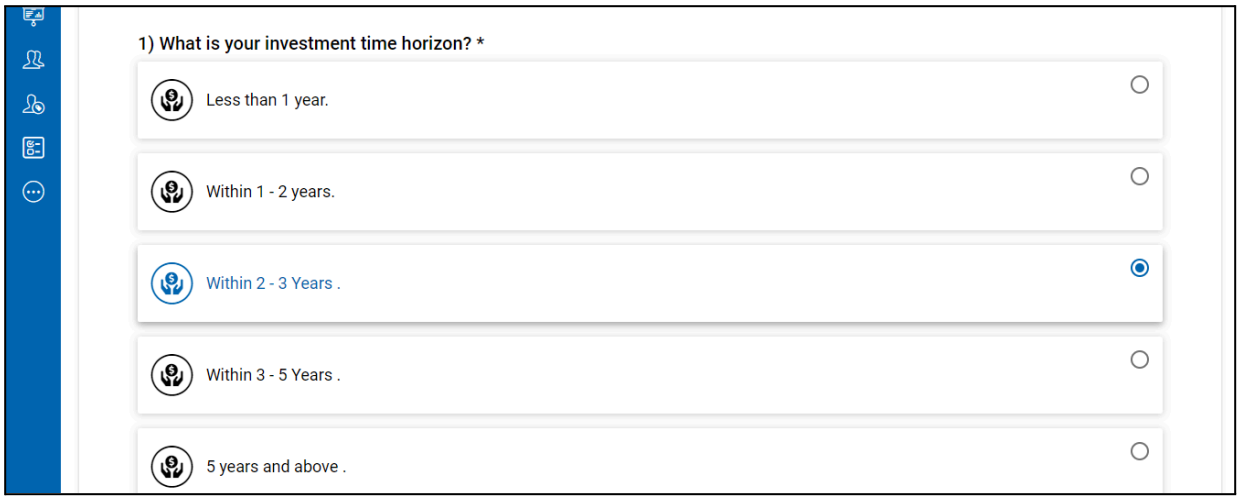
3.3. Risk Profile Questionnaire

1. After authorization of customer details, User can search for the desired customer and click on icon to navigate to the "Recommended Risk Profile" of the customer. User has to click on the Risk profile icon on the customer card.
2. Users can also directly navigate to the "Recommended Risk Profile" screen by clicking on the Confirm button in edit customer profile screen, if the risk profile of the customer already exists.
3. The current risk profile of the customer will be displayed. If the customer does not have a risk profile, the system will navigate to the risk profile questionnaire.
4. If the customer's Risk Profile has not been done previously, user performs customer risk profiling by answering predetermined questions in the Financial Profiling, Investment Knowledge Profiling and Risk Profile Questionnaire.
5. The risk profile consists of 3 sections, please refer to the figure -
    a. Financial Profiling
    b. Investment Knowledge Profiling
    c. Risk Profiling
6. Each of the sections is collapsible. On loading the page, the first section will be automatically expanded. Rest of the sections can remain collapsed
7. The questionnaire for each of the section will be fetched from the questionnaire maintenance.



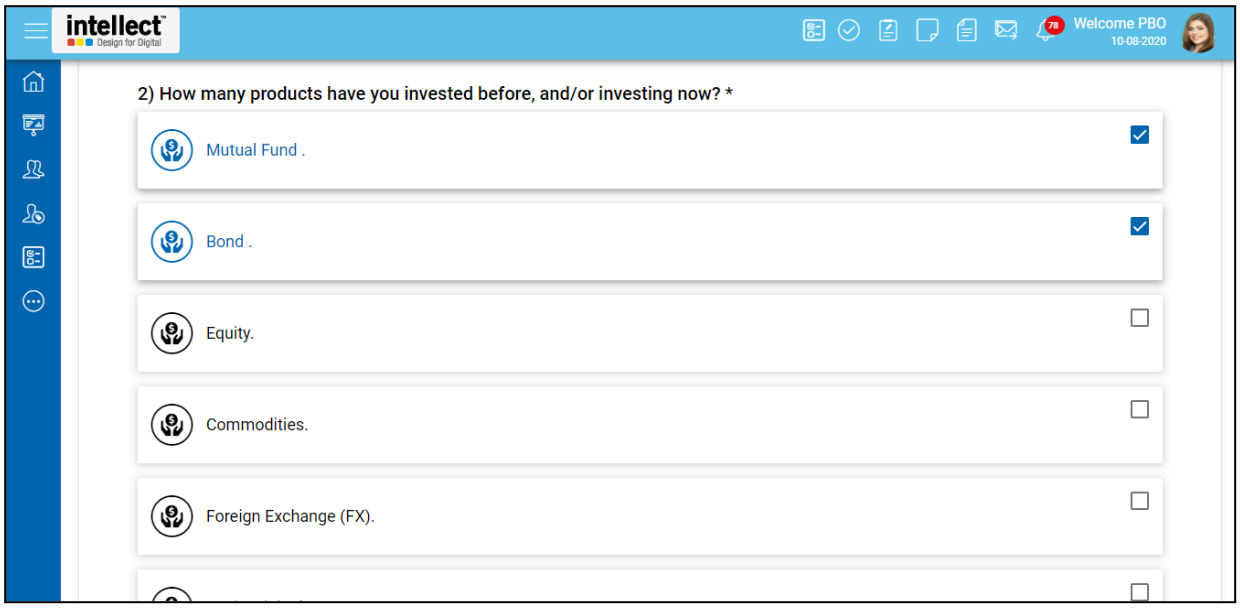
Screen: Risk Profile

8. The user can choose one of the options to indicate their choice, by checking the radio button against the corresponding answer option in case of a single select question



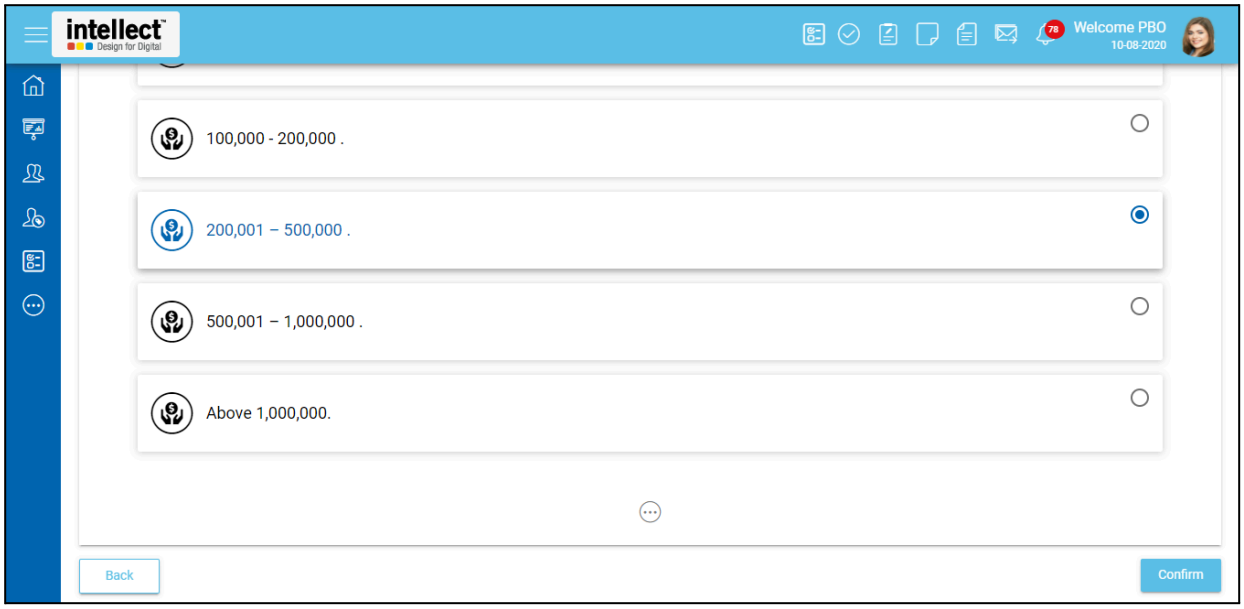
Screen: Risk Profile Questionnaire Screen - Single Select

9. The user can choose multiple options to indicate their choices, by checking the check boxes against the corresponding answer options in case of a multi select question

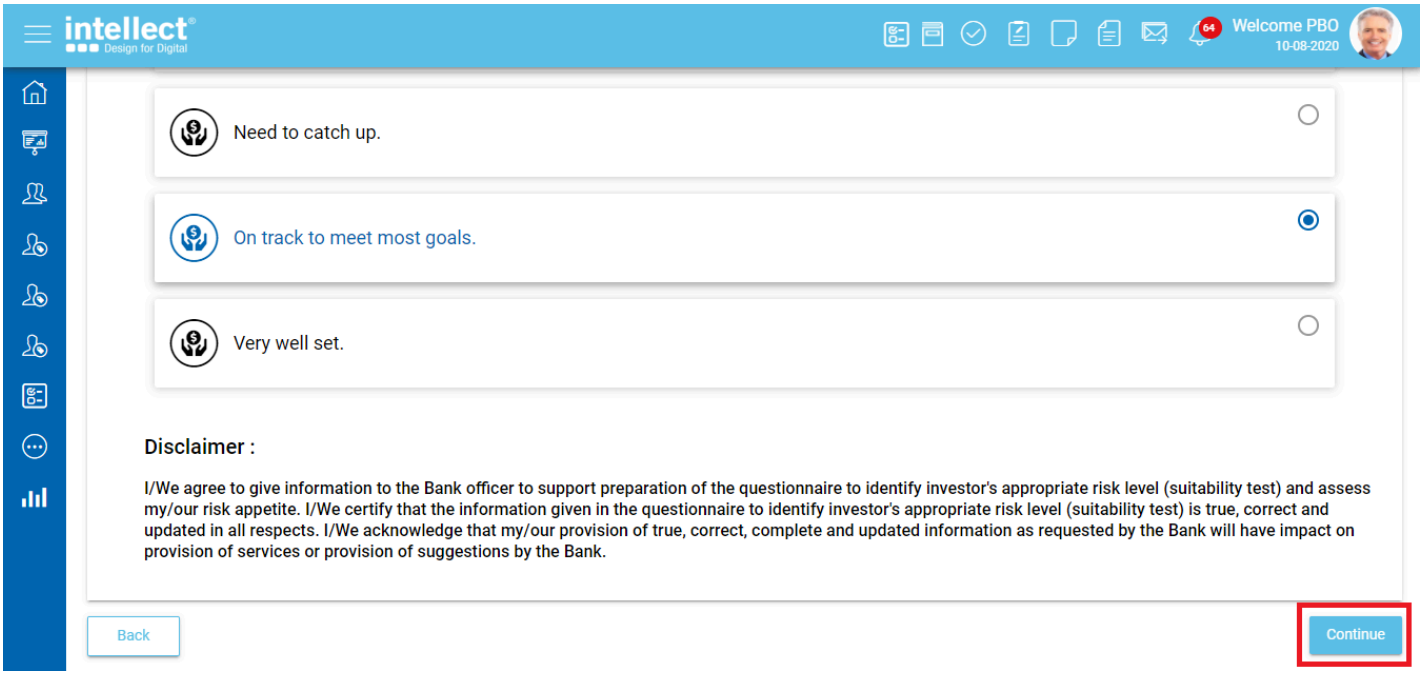


Screen: Risk Profile Questionnaire Screen - Multi Select

10. Once all the questions have been answered, the user can click on the “Confirm” and then “Continue” Buttons to save the answers and navigate to the Transact journey screen.



Screen: Submission of Answered questions

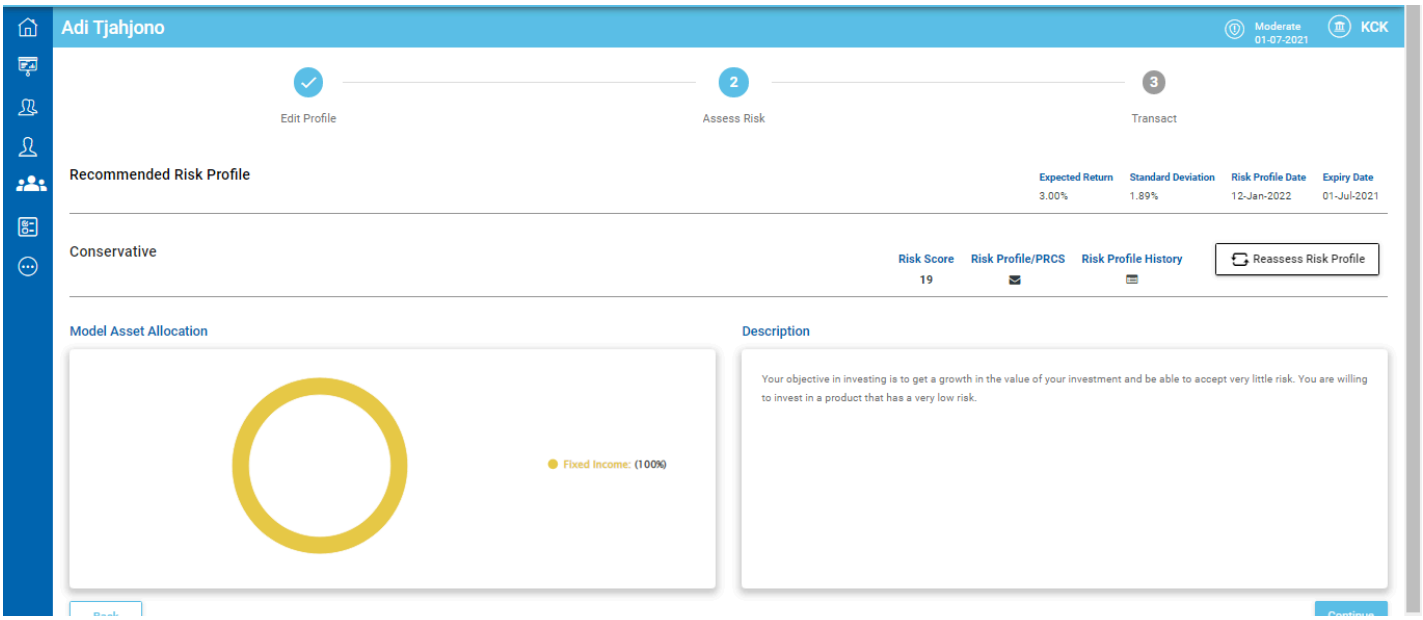


Screen: Continue to Recommended Risk Profile

3.4. Recommended Risk Profile

Customers who have an existing Risk Profile would land on the Recommended Risk Profile screen after clicking on the "Confirm" button on the Edit Profile screen (refer to section 3.2 Edit Customer Profile) OR by clicking on icon in customer card.

1. The user lands directly on the Recommended Risk Profile Screen instead of the Risk Profile Questionnaire screen after clicking on "Confirm" button in the Edit Profile screen

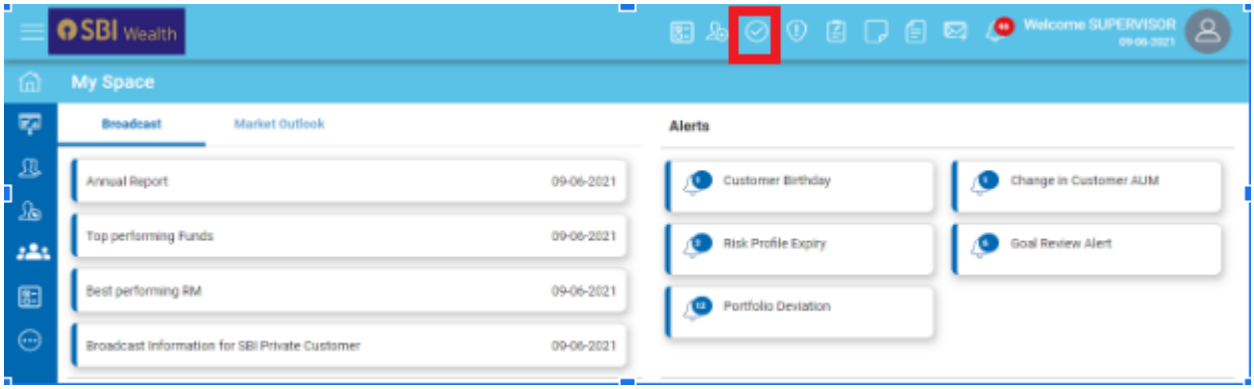


2. On clicking the "Reassess Risk Profile" button, the user navigates to the Risk Profile Questionnaire

3. On clicking the “Continue” button the user navigates directly to the “Transact Journey Type” screen

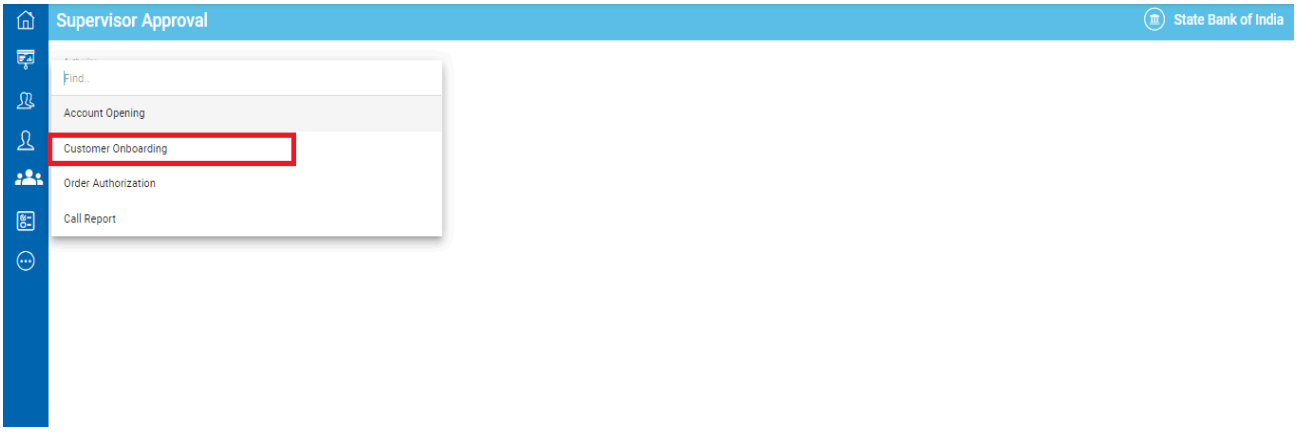
3.5. Supervisor Approval

1. After User has submitted the customer profile details, record would be sent to the Supervisor for Approval, the Supervisor can authorize/reject the same
2. Once logged into their account, the Supervisor can click on the “Supervisor Approval” button on the top panel to go to the Supervisor Approval screen



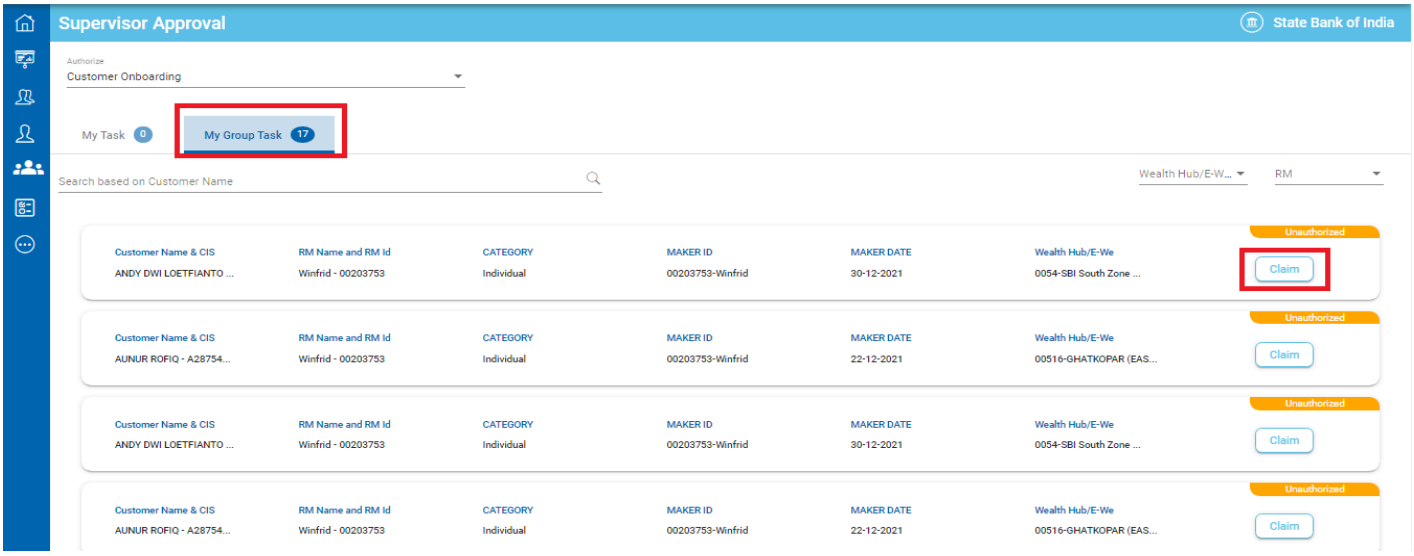
Screen: My Space - Supervisor Approval

3. The Supervisor can then click on the dropdown and select the “Customer Onboarding” option to authorize or reject the record.

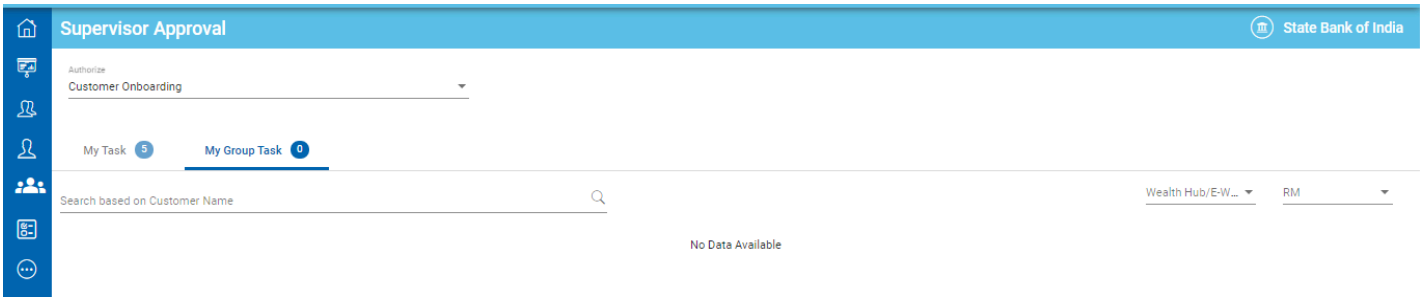


Screen: Select Customer Onboarding

4. Once the Supervisor arrives on this screen, they can click on the “My Group Task” Tab to view the common pool and click on the “Claim” button to claim a particular record

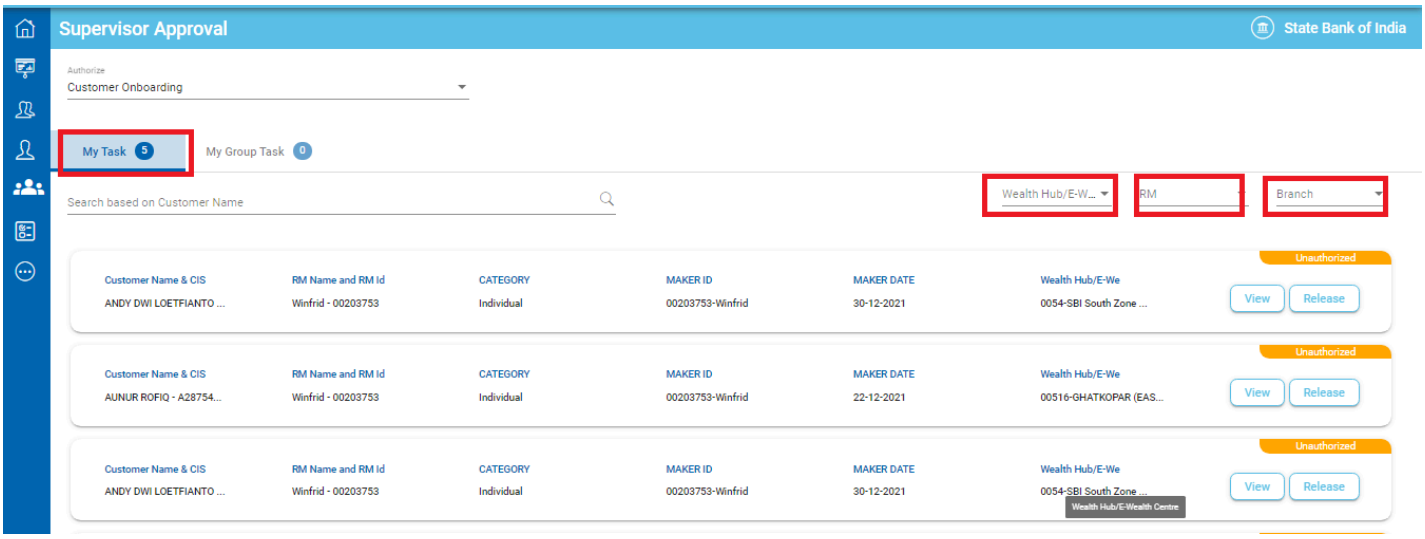


Screen: Claim a Record from the Common Queue



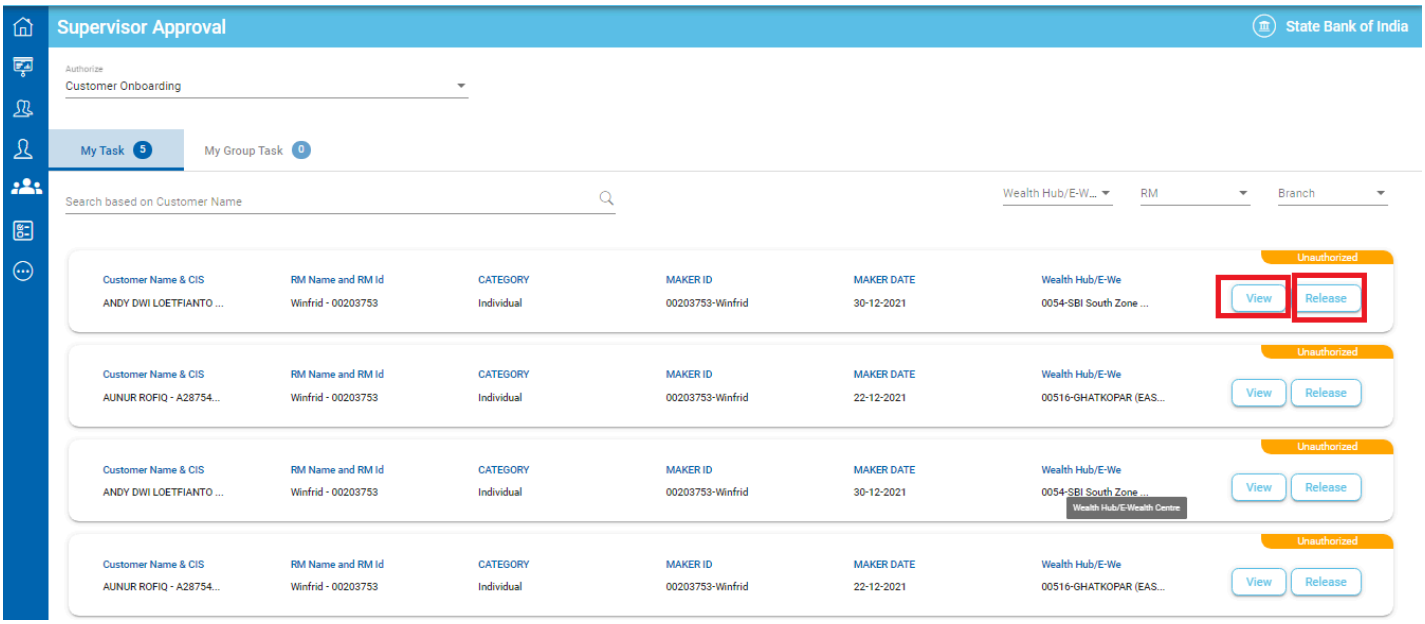
Screen: Record successfully claimed

5. After a record has been claimed successfully, it moves to the “My Task” tab , which is personal queue of the Supervisor where supervisor can filter using “RM” ,”Wealth Hub” and “Branch” filters



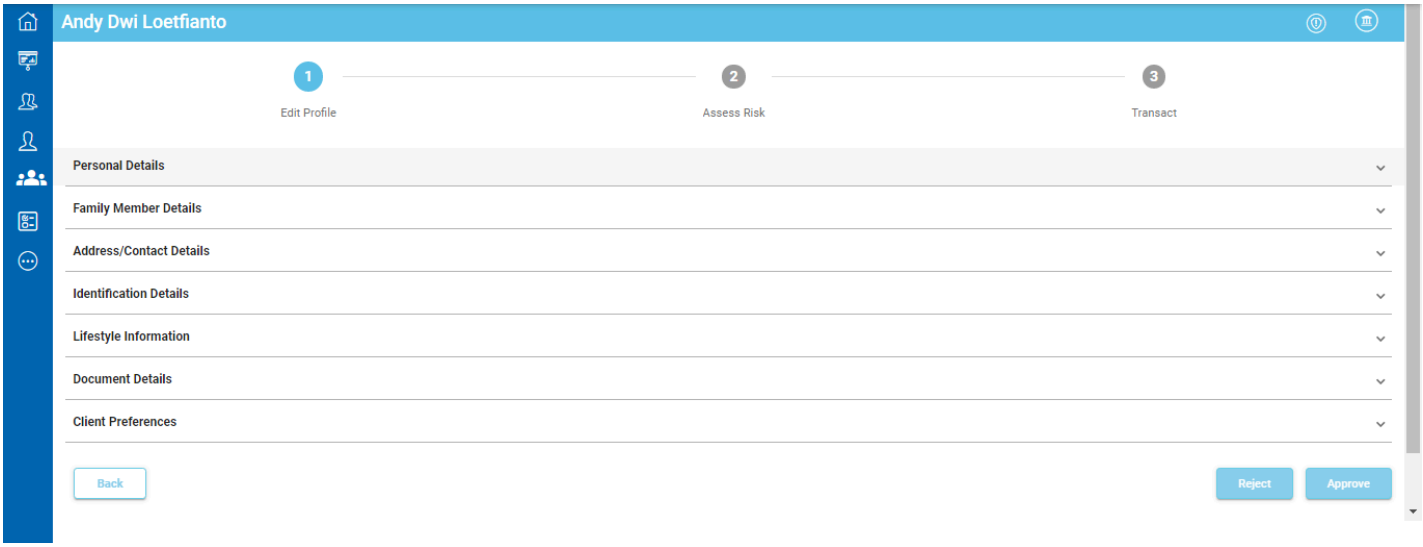
Screen: Filters in My Task Menu

6. On this screen, the Supervisor will have the option to either View the record, or Release it if it was added to their pool erroneously. If the record is Released, it goes back to the common pool, and can be viewed in the “My Group Task” tab

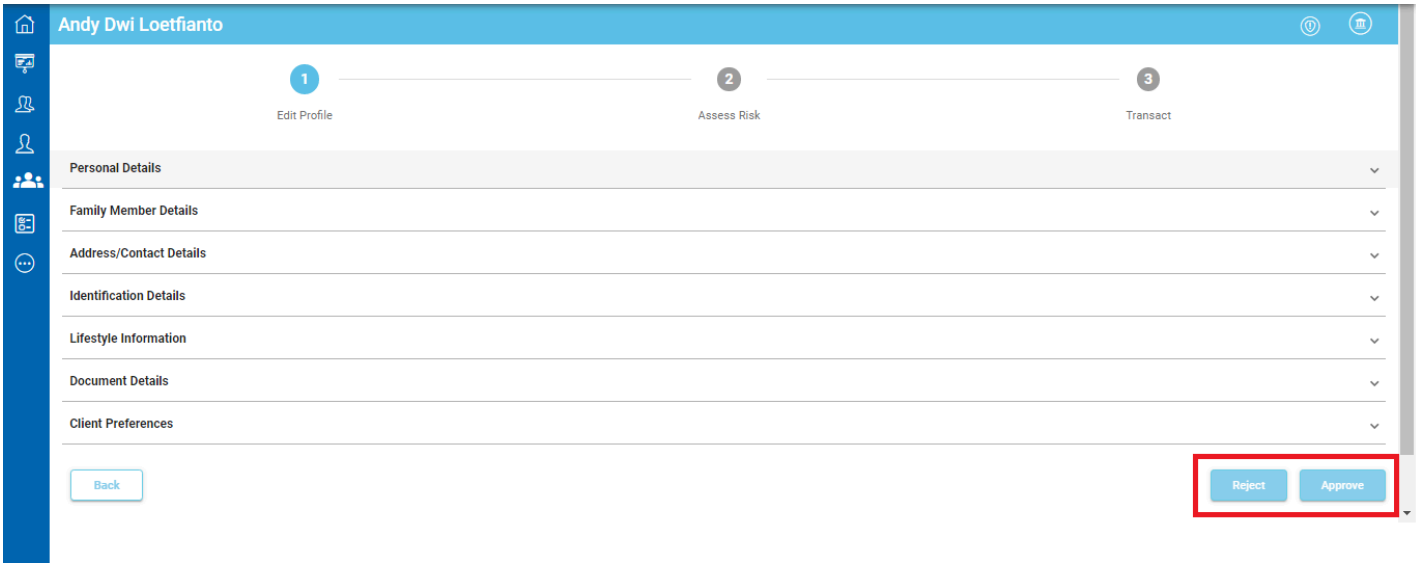


Screen: View/Release a Record

7. If the Supervisor clicks on the “View” button, they can View the details of the selected record, and either Authorize or Reject the record after scrutiny. The Supervisor can view the following details:
    a. Personal Details
    b. Family Member Details
    c. Address/Contact Details
    d. Identification Details
    e. Lifestyle Information
    f. Document Details
    g. Client Preferences

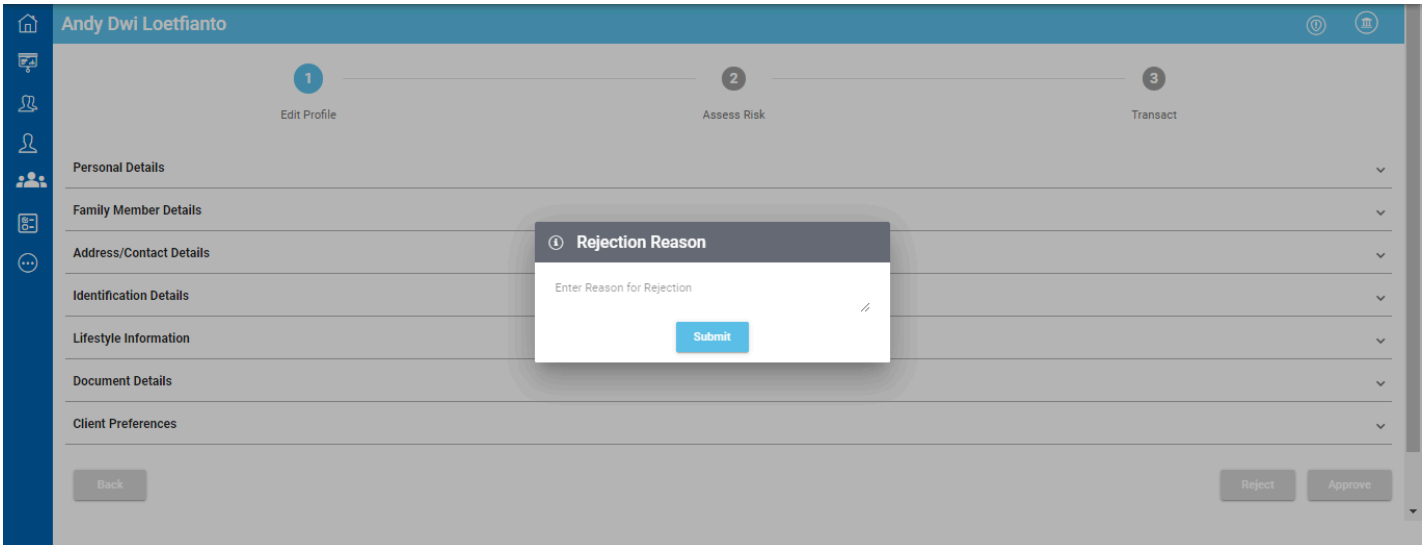


Screen: View a Record



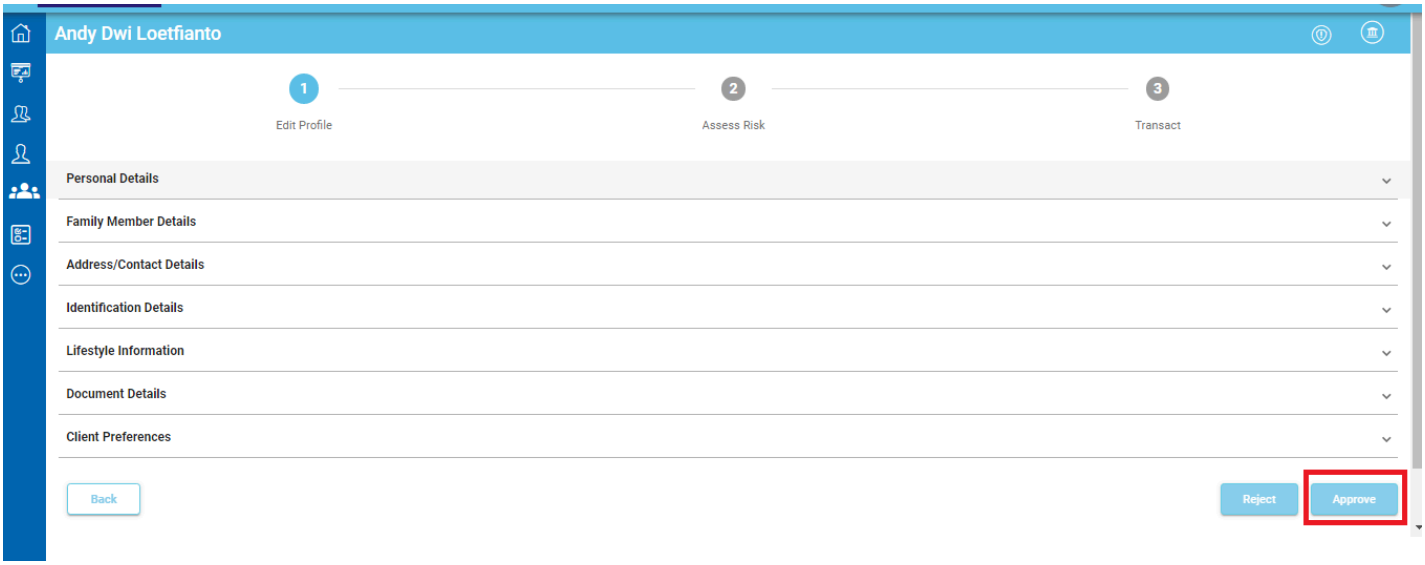
Screen: Approve/Reject

8. The Supervisor can now Authorize or Reject the record
9. If the Supervisor clicks on the "Reject" button, they have to capture the reason for Rejection, and then click on the "Submit" button. The record is successfully rejected. This would be available to the maker in read only mode and after making the necessary changes, it can be submitted again



Screen: Capture Reject Reason

10. If the Supervisor clicks on the "Authorize" button, the record gets successfully authorized



Screen: Record Successfully Authorized
